"SHIRTY $300 SUITS AND SCUFFED WINGTIPS."

by Juan Levine

PART I

Jim Paper was once described to me as "some old guy who puts on all the rock concerts, chants for people and noise all the way to the bank." In my mind, I pictured him as a bald, pudgy bald,

VIETNAMESE, LIVING HERE

by Kevin Malloy

I get these orders from Viet-
nam you see. They said to sig-
ne it to "Commander On-
Dew" or something. I was
final, and full of doubt (do
in really want to kill some-
ese peasants?) But I was cour-
try, not the South. I was 19, and
he, discharged Navy lieutenant, we had a mis-
tion in Vietnam still believed in the war. The
Tet offensive, only a few months old, was a U.S. vict-
ory, they said. I was impressed, but still unsure.

For our Vietnamese language classes we had Viet-
namese girls. "How do you feel about it?" I asked
one of these in the hallway after class. This was a
distinctly young instructor who used to say "in the
right" when she meant "in the wrong.

The factory was a mess. The smell of sawdust and paint filled the air. The workers were working hard, but it was a difficult and demanding job. The machinery roared and hummed, creating a cacophony of noise. The dust flew everywhere, settling on everything in its path. The workers wore heavy, protective clothing and masks to protect themselves. Despite the grueling conditions, the workers continued to work, driven by their dedication to their craft.

"It's a hot job. It's a hard job. But it's a job that needs to be done. Without us, the world wouldn't be the same," said one worker.

The factory was a hive of activity, with machines whirring and hummers pounding out the rhythm of production. The workers were a dedicated bunch, working long hours to meet the demands of the market. They were proud of their work, and they took pride in the quality of the products they produced.

The factory was a place of hard work and dedication. It was a testament to the strength and resilience of the human spirit.

**SOME GOOD CLAPTON AND SOME BAD CLAPTON**

BY KARL KEATING

The title itself is catchy: the second record album is certainly no less than the one that came before it. The subject in question is a man named Eric Clapton, most well-known for his virtuosity on the guitar. The album is called "Some Good Clapton and Some Bad Clapton," and it is his third record album released on November 2, 1971.

**HISTORY OF CLAPTON**

Two record sales are inevitably noted when it comes to the success of this album, Clapton's previous three albums were all certified gold in the United States. The album itself is considered one of his best-selling albums, with over 5 million copies sold worldwide.

**SAN DIEGO**

The reviews for the album were mixed, with some critics praising the guitar work and others criticizing the overall production quality. The album was released on the Polydor label and is available on vinyl, CD, and digital formats.

**FUTURE OF OTHER SAN DIEGO FOOK PROMOTERS**

The future of other San Diego promoters is uncertain, as the city has seen a decline in live music venues in recent years. However, there are still several independent venues that continue to showcase local talent and attract national acts.

**EXPLOITER OF THE HIP CULTURE**

Bill Bradley is a new local promoter who has gained a lot of attention for his innovative and unique approach to organizing live music events. His focus is on promoting a diverse range of genres and artists, with an emphasis on underground and independent music.

---

**FINALE**

In conclusion, the album "Some Good Clapton and Some Bad Clapton" is a testament to Eric Clapton's versatility as a guitar player and songwriter. While the reception was mixed, the album's enduring popularity is a testament to its timeless appeal.
