In the early 1940's the John Rock Seed Station in Southern California. It was the result of a neighborhood effort by a group of residents who wanted to improve the living conditions in their neighborhood. The station was named after the first seed company founded in the area, John Rock Seeds. The station's mission was to provide seedlings and plants to the residents for their gardens. It was a community effort, and everyone was encouraged to participate.

The Kingdom of Hearts

Once upon a time

In a far-off land

There lived a young girl named Mary. 

She was a kind-hearted child who loved animals and 

helped them in need. One day, while she was walking 

through a field near her home, she came across an 

unhappy rabbit. The rabbit had lost its home and 

food, and Mary felt sorry for it. She decided to 

help the rabbit find a place to live and some 

food to eat. She asked her mother for help, and 

her mother agreed. Together, they searched for 

a new home for the rabbit and found an 

adventurous little house in the woods near 

Mary's home. The rabbit was overjoyed and 

happily moved in. Mary and her mother 

continued to take care of the rabbit, and soon 

it became a loyal companion. The rabbit 

taught Mary valuable lessons about 

compassion and kindness, and Mary 

became a kinder person because of it. 

The Kingdom of Hearts is a wonderful 

story of friendship, kindness, and 

compassion. It teaches us that we should 

always be kind to others and help those 

in need. The Kingdom of Hearts is a lesson 

we can all learn from.

THE PLAINS AND THE ROCKIES

Lost Cause Press has published, on microfiche, every item we have been able to find from the Wagner-Camp bibliography, Plains and
Rockies. We continue in search.

The first edition of H. R. Wagner's bibliography came out in 1930 after
some 37 years of work on completion. In 1972 a second edition was
published. This second edition, which was much larger than the first,
includes the third edition. Included in this bibliography are books,
magazine articles, Federal documents, travel accounts, and newspapers
of personal experience written between 1800 and 1930.

Geographically it includes the region lying between the Missouri
River and the Pacific Ocean from Canada to the Atlantic coast,
exclusive of Texas and within 300 miles of the Red River.

The historical material we have assembled here on microfiche is
essential to the historian of pioneer history.
