Oh to be fifteen again

--- Albert Barret---

A signal was forged to the morning's number to me and my friends. They said, "Oh to be fifteen again." The morning sun was shining bright and the world was awake. We were young and full of life, full of hope and dreams.

The summer was white and long. The snow on the mountains was still shining bright. The world was full of life, full of hope and dreams.

--- And a Guru ---

When I look back at those days, I see a young man who was full of life, full of hope and dreams. He was young and full of life, full of hope and dreams.

--- And a Champ ---

The man was walking with a smile on his face. He was young and full of life, full of hope and dreams. He was young and full of life, full of hope and dreams.

--- Jane Steiman ---

Life is short for a young soul. To be young and full of life is a blessing. It is a blessing to see a young man who is full of life, full of hope and dreams.
IT GIVES US HOPE

Carla Jones

Ballet UTSUC which opened February 3rd at the Center for the Performing Arts on Cesar Chavez Ave. is not only a treat for the eyes, it is also a treat for the ears. The dancers, dressed in long white tutus, perform before a backdrop of orange and red curtains. The music is by famous composers such as Tchaikovsky and Rachmaninoff. The dancers move gracefully, creating an ethereal effect.

The program includes three acts: the first is a variation of "The Nutcracker," the second is a pas de deux for two dancers, and the third is a solo by a female dancer. The audience is captivated by the beauty and grace of the performers.

After the performance, the audience is invited to view the costumes and sets used in the production. This event is sponsored by the La Jolla Community Foundation, which supports arts education programs.

THE PLAINS AND THE ROCKIES

Lost Cause Press has published, on microfilm, every item we have
been able to find from the Wagner-Camp bibliography. Plans and
proposals for a full reproduction are now under way.

The first edition of H.R. Wagner's bibliography came out in 1930 after
seven years work by the compiler. In 1937 a second edition was
issued. Then (1952) came around the work was done. Wagner and
members of the Western Canada Historical Society were engaged
on the project, and we are grateful to them for their efforts.

The microform is a comprehensive collection of materials on the
history of the Plains and Rocky Mountains. It includes state,
provincial and federal government publications, public and private
collections, local histories, and other materials. It is an
indispensable tool for anyone researching the history of the
region.

The microform is available on CD-ROM for $10.000.
