MIRACLE
**MIRACLE**

Jonathan Saville

Let's suppose your eyes in Laslci don't have any sight, but you have the ability to feel your way around. In a way, this is what Laslci does. The city is a labyrinth of sound and touch, where the blind can navigate their way through the streets. The sidewalks are braille-like, and there are audio cues at every intersection. You can feel the vibrations in the ground, and hear the whispers of the city. It's a place where the senses are heightened, and the mind is challenged.

But you have a lot of friends who read and play lots of books, and you have a natural tendency for understanding figurative language. You learn about Laslci from these books, and you begin to understand the concept of the city. You start to feel like you belong there.

The city's name means night, but it's full of life and quite urbane. It's a fascinating place to be. You feel like you could live there.

This isn't a story about Laslci, but it is about the value of imagination. It's about how imagination can take us places we never thought we could go.

**THEATER**

Pauline Kael

I once saw a production of the play "Somebody's Coming" at the Mercury Theater. It was a serious play, but it was also very funny. The actors were great, and the script was well-written. It was a wonderful experience, and I highly recommend it to anyone who enjoys theater.

**MUSIC**

Lucinda Williams

I just heard Lucinda Williams's new album, "Car Wheels on a Gravel Road." It's a beautiful album, and I think it's her best work yet. The songs are soulful and introspective, and the music is haunting and melancholic. It's a great album, and I think it's worth a listen.

**SPORTS**

John Feinstein

I just read John Feinstein's new book, "The Last Game." It's a great book about the final game of the 1980 Olympics. It's a fascinating story, and I think it's a great read for anyone who loves sports.

**ROCK THEATER**

Ted Burke

I just saw the new rock musical, "Rock the Theater," and I think it was a great success. The music was great, and the acting was outstanding. I think it's a must-see for anyone who loves rock music.
