Mark's real love is for the hot steel of No. 64 and the.png...ed, smoking, racing tires.

The south turn is the killer... a pit man mumbles, and he is right. Two cars slide into the same lanes, their tires ripping across hot asphalt as they collide.

LETTERS TO THE EDITOR

Dear Editor:

Lettuce's comments are similar to those of the editorial board of the San Diego Union. I can see why they have chosen to publish this editorial, but I wonder if they realize the implications of their actions.

Sincerely,

[Signature]

Dear Editor:

I am writing to express my concern about the recent editorial in the San Diego Union. While I understand the desire to keep the community informed, I believe that the editorial board has made a mistake in including this particular piece.

Sincerely,

[Signature]

Rally for Turquoise Tree

Jaguar has evidently emptied his guts before the world too many times to have any guts left to present.

- Ted Burke -

Goats Head Soup, the new Rock's album, has all the band's music's imagination. In its age of so many great groups, Dead Horse Bandy, and Happy Valley, it stands out, shining through the creation of some punk psychology. Considering them with contemporaries makes Mick Jagger and the company look like the most wholesome and on the same plane.

The Stones were on TV recently, lip-synching three songs from their new album, building and nearly going to a closed show by practicing and jamming. The audience, jamming with the students, became the same band and the same band that is called the Stones. When that's not working on the road, you can find them both racing motorcycles in the heart.

What is the core of the worries about the rock bands? "I get very angry, about us, he's part of any band's material," the race for a name on a rock album, the market for that name. The market is not a place to move, as long as it isn't a place to move in the right direction. The market is not a place to move, as long as it isn't a place to move in the right direction.

The Stones are part of an era of rock and roll, and to make a name on the market, you must be part of the market. The Stones are part of an era of rock and roll, and to make a name on the market, you must be part of the market.
THE KENTUCKY THOUSAND

A Basic Library of Kentuckiana in Microfiche

Kentucky will celebrate her bicentennial in 1974 and 1975. An official commission has already been appointed to organize sightseeing, and societies and educational institutions are already beginning to make plans to observe the 200th anniversary of the settlements at Harrodsburg and Booneborough.

Schools and colleges are thinking in terms of special expositions for students, and local civic organizations and study clubs will have lectures and discussion groups on the history of the Commonwealth. Except in a few major centers such as Lexington, Louisville, and Bowling Green, resources for the study of Kentucky history are relatively weak. For over fifteen years the Lost Cause Press has been developing a basic library of Kentuckiana in microfiche, and it will be our contribution to the Bicentennial to offer some thousand fully-reproduced pieces which are a commonwealth for study and research in our history.

Here is a comprehensive library of Kentuckiana which cannot be duplicated elsewhere. Nearly all of the titles are out of print, and many are unique copies of depots from such as the Library of Congress, the University of Kentucky, and the collections of private individuals. Not only the history of the Commonwealth is covered, but also the literature, the geography, the politics and government, the art and music, and other aspects of our culture. And it cannot be too strongly emphasized that Kentuckians, the founder for immigration to the Ohio and Mississippi valleys, indeed, in the sense west, it is literally the mother of the west.

Approximately 1000 volumes*, postpaid $3.00
On orders placed after November 1, 1973, the price will be $7.00

A set of reading cards will be included with this shipment, at no additional charge.
