TODAY'S THEMES

Dear Editor,

I am disappointed with the limited number of listings in your "Today's Themes" section. It appears that the focus is only on events in the immediate area. I believe that it is important to include events from other parts of the city and the region. This will provide a broader perspective and make the section more useful for readers.

Sincerely,

SITTING ON THE DOCKS OF THE BAY

Crescent Bay homeowner homes have long been aware of the lease's expiration date. But as the lease deadline approached it be came clear the homeowners were doing nothing. None had applied for permits to bring down their docks.

Paul Kruger

At one time the lease probably wouldn't have been so important. But with the growth of the city and the increasing demand for waterfront property, the lease is becoming more crucial.

The lease is for 99 years, and it will expire in 2045. The current terms of the lease allow the homeowner to use the dock for the first 30 years, after which it becomes the property of the city.

The lease was previously renewed for a period of 99 years, but it will now require a new application to be made.

The homeowner must apply for a new lease within 60 days of the deadline, or the dock will become the property of the city.

The process involves submitting a lease application, paying a fee, and undergoing a review by the city's planning department.

In order to be approved, the homeowner must demonstrate that the dock is necessary for their property and that it does not pose a threat to the safety of the public.

Without proper permits, the homeowner could face fines and other penalties.

Sitting on the docks of the bay may seem harmless, but it is important to take action to ensure that the homeowner's rights are protected.

LIFE & DEATH IN THE CARD ROOM (continued)

Johnny, Tom Clancy, Slick Jim, Big Red, and the others, they're all playing tag. It's the same old game, and the same old story. They never get tired of it. They're all chasing each other, trying to catch each other. It's a never-ending game. And then, just when you think you've got him, he'll disappear into the crowd. It's a game of wits and skill. And last night, it was a game of strategy. You have to be quick and clever to win. And you have to be prepared to fight. It's a game of life and death. And just when you think you've won, he'll pull a card from your pocket. It's a game of chance. And you have to be lucky to win. It's a game of skill. And you have to be careful. And you have to be clever. And you have to be quick. It's a game of life and death.
Movies

The Gambler — One of the most unusual and unpredictable of the recent crop of major films, "The Gambler" is a thematically complex and visually striking film directed by Mark Rydell. Visitors from Outer Space Expected in '76

From Abbie Lipscomb, the psychic who recently predicted an alien invasion, comes the prediction that visitors from outer space are expected in '76. Lipscomb, who has made several successful predictions, believes that this will be a significant event and will attract a lot of attention.

The forecast is based on a series of unusual phenomena that have been occurring recently, including unexplained lights in the sky and strange objects observed in space. Lipscomb believes that these are signs of extraterrestrial activity and that the visitors will be arriving in '76.

Lipscomb is known for her accurate predictions, and she has a track record of predicting major events, such as the stock market crashes of 1929 and 1987. She is also known for her psychic abilities, which she claims are based on her ability to tune into the collective consciousness of the planet.

Lipscomb's predictions have been controversial, but many people take her seriously and are eagerly waiting for her prediction to come true.

The event is expected to attract a lot of attention, with people from all over the world coming to witness the visitors from outer space. Lipscomb is planning a series of events to mark the occasion, including a psychic fair, a lecture series, and a grand party to welcome the visitors.

Lipscomb is confident that her prediction will come true and that the visitors will be a significant event for the planet. She is looking forward to seeing what happens and is excited to share her insights with the world.
