Chung King Loh came recommended to me as "just like San Francisco." But in my years of dining in the Bay Area, I've rarely encountered a Chinese restaurant with such a mishmash in service and decor. My waitress sported a grannny dress and long blonde tresses; the waitress at the next table had on a poncho and boots.

You Don't Have to be Yiddish

An apocryphal story is told of one performance of The Jewish King Lear that so moved a man in the theatre that he rose out of his chair, crying to the lead, "May she choke, that rotten daughter of yours, to hell with her. She has a stone, not a heart. Come, come home with me."

E.S. Rusk Jr.

The story was written by the old American candy store owner, who in his time had been a great humanitarian and an ardent anti-communist. He had seen the play at least three times, and had always been moved by the performance of the Yiddish actors. He was particularly impressed by the leading lady, who he felt had brought to life the spirit of a woman who had been through much hardship and suffering. He had once remarked to a friend, "That woman can act! She's like a real person, not just a character on stage." His friend had replied, "I know what you mean. That's why I always go to see her when she's in town." The old man had nodded, "Yes, she's a real actress. It's a pity she didn't have more opportunities to perform."

In 1938 New York had 20 Yiddish theatres, with some offering a play every night. By 1940, The Yiddish Art Theatre itself had its first season under the direction of Maxine Eisenberg, who had been a star in the Yiddish theatre for many years. The theatre had been founded in 1912, and had been known for its high-quality productions. The first play was a success, and the theatre quickly gained a reputation for excellence. The following year, the theatre produced a play that was a sensation. The play was about a young woman who was trying to make her way in the world, and who was forced to make some difficult choices. The audience was moved by the performance of the leading actress, who played the role with great depth and sensitivity. The play was a huge success, and the theatre was able to attract a large audience. The following year, the theatre produced another play that was equally successful. The play was about a young man who was trying to make his way in the world, and who was forced to make some difficult choices. The audience was moved by the performance of the leading actor, who played the role with great depth and sensitivity. The Female Palette

The whole history of women artists' careers shows itself as constantly "dualistic," marked by restrictions, trials, popularity and ambivalences. This despite the fact that women artists did achieve success, and often made a good living in professionalism.

Ann M. Mueller

"Women Artists, 1930-1940: The Struggle for Professionalism" is a survey of women artists and writers who emerged as professionals in the period 1930 to 1940. It includes women who were already established artists and those who began their careers during this period. The book was published by the University of Illinois Press in 1981.

Ross Ford

The book includes biographical information on the artists and their work, as well as a detailed analysis of the social and economic factors that influenced their careers. It also examines the role of women in the art world during this period and the ways in which they were able to overcome the obstacles they faced.

Fellini's Forte

Amid the kaleidoscopic flow of Fellini's images, we get the usual assortment of dwarfs, giants, hunchbacks, people with mountainous breasts, fat asses, flickering tongues.

The film's high point, the inevitable culmination of Commedia dell'arte, comes in his encounter with a beautiful little one-armed doll. The director is making a profoundly depressing statement here, and it's surely meant to have more than a little relevance to sexual attitudes today.
Give Me That Old-Time Religion

"Evolutionists keep trying to answer how the world got like it is, while the creationists can go on to ask why the world is like it is. Just as an example, we might ask, "What good is the mosquito?"

They must serve some function if the Creator placed them on earth.
