PECOCK ORDER

Cockfighting:
Money and Death

in the Pit

STEVE SORENBSEN

The fight rages on across the Colorado River from Mexicali, Mexico to Yuma, Arizona. Its roots are firmly set in the Rocky Mountain foothills, where it's been around since before the Spanish

invaded the area. Cockfighting has been a part of the American culture for centuries.

In the Pit, things can get ugly quickly. The birds are trained to kill, and any attempt to

stop them can result in severe injury or death.

Awaiting Householder Word

The downtown balcony, the 1,000-room hotel in the library to hold the family's 15,000-volume mystery and detective novel collection, is empty as the "dead room" during the hot weather.

The courtyard is used for summer events. The district, which Guyone, Jr. built in 1963 to his wife, could come from the burned-out salvage warehouse without aggravating her memory, has been used as a storage area for boxes and other objects since the fire. She is a quiet, reserved woman, and it's rare to see her in public.

The building was designed by the firm of Guyone and Associates, who were responsible for the design of the building.

P. O. Box 24

They Know You a Book

The kind of person who always returns library books on time, the library director says, is as rare as a four-leaf clover. And when a book is overdue, it can be a hassle.

To reduce the number of overdue books, the library director has implemented a new policy. Books that are more than one month overdue are assessed a fine of $1 per day, up to a maximum of $10. The fine is automatically added to the account of the borrower when the book is overdue.

Of course, if a book is returned after the due date, the fine is automatically waived. And if a book is lost, the borrower is required to pay for a replacement copy, which costs $10. If the book is not returned within 30 days, the borrower is responsible for paying a new purchase price, which is currently $20.

P. B. Walks on the Ridge

California voters ingatred

The state of California has decided to take the matter of pollution seriously. In recent years, the state has implemented strict regulations to reduce the amount of pollutants emitted into the air.

For example, the state has required all new cars sold in California to meet strict emission standards. In addition, the state has implemented a cap-and-trade program to reduce greenhouse gas emissions from power plants.

As a result of these efforts, California has seen a significant reduction in air pollution. The state now has some of the cleanest air in the country, and its residents enjoy good health and a high quality of life.

P. E. rocks and rolls

California State University, Anaheim

The California State University, Anaheim campus is home to a vibrant community of students, faculty, and staff. The campus is located in the heart of Orange County and is known for its academic excellence and commitment to student success.

The campus offers a wide range of undergraduate and graduate programs, as well as professional and continuing education opportunities. The university is committed to providing a high-quality education that prepares students for successful careers and lives.

The campus is also home to a variety of student organizations, athletic teams, and cultural events. Students have the opportunity to get involved in extracurricular activities and to develop leadership skills.

Overall, the California State University, Anaheim campus is a dynamic and exciting place to live and learn. Students have the opportunity to make lifelong friends, develop important skills, and achieve their academic and personal goals.

It's a Mall World After All

ELEANOR WENDER

The Marketplace

The Marketplace's two-level, 300,000-square-foot
environmentalism exhibit is set for a public opening this week.

The exhibit features a variety of interactive displays and exhibits,
which will educate visitors about the benefits of renewable
energy and sustainable living.

The exhibit is divided into several sections, including a
comprehensive overview of renewable energy technologies,
as well as interactive demonstrations on how these
technologies work.

Visitors can learn about solar power, wind energy,
and biofuels, and explore how these technologies
are being implemented in real-world applications.

In addition to the interactive displays, the exhibit
includes a series of educational workshops and
workshops, which will be offered throughout the
year.

The Marketplace's environmentalism exhibit
is a significant step forward in raising awareness
about the importance of sustainability and
efforts to create a more sustainable future.

The exhibit's opening is an opportunity to
connect with like-minded individuals and
encourage further exploration of the
benefits of renewable energy and
sustainable living.

Straight from the Hip

MATTHEW ALICE

Dear Matthew Alice:

I have always wondered what
letter combinations the Department
of Motor Vehicles does not allow on license
plates. I have never seen plates that are
not allowed in the DMV's list of prohibited
combinations. Can you please tell me what
are the prohibited combinations?

Bruce R. Clark

Dear Bruce Clark:

The DMV keeps several lists in its
Manual of Registration Procedures. These
are not as interesting as the list
compiled in Sacramento by a team of
clacks called Unit 31. The Manual
includes a list of unallowed letters
and digits for each category of vehicle
motorcycle, trucks, coaches, and cars.

The lists are surprisingly short. The
few combinations, including those
called for in the Unallowed Letters
and Digits list, are:

- Digits: 0, 1, 2, 3, 4, 5, 6, 7, 8, 9

These combinations are prohibited for
use on license plates because they are
related to the use of specific letter
combinations that would confuse motorists,
and not them. Using a plate that
does not confuse people would make
sense for any car dealer or department
store for the California Highway
Patrol.

There is, however, a longer and
more formal list on a number of dates
in the fourth floor room of the
DMV headquarters in Sacramento.

As for your question about the
prohibited letters and digits, you can
sign up for the Service of the Week
alerts, which will notify you when
new lists are available.

Sincerely,

Matthew Alice

Pecking Order

(continued from page 1)

The birds fly at each other, pecking and slashing and flapping in a storm of legs and wings and wrong teeth.

They bang off each other, and for a moment the gray cock looks stunned. "That bird’s dead! somebody hollers.

"I have difficulty sympathizing with chickens, but if I had the advantage of getting my head jerked off for the stow pot, or fighting in a chicken, I’d go out and fight.

The birds are fed a special high-protein, low-carbohydrate diet of new meal, vitamins, and starch, made like a professional athlete. What does do, at least to a chicken, make them feed so well? Scientists have been puzzled and confused.

A successful cock fighter is a kind of animal entrepreneur. Even though many of these men have no formal education, they can tell you all about their breeding, training, hybrid vigor, and egg-laying strains. It is also an art, careful breeding that can produce a strain that is so incredibly great that even when they are on a budget, they can still produce prize winning cock fights. And of course, you can’t really see how much they are worth until they have been pressed.

Forever Foosball

Cordon Smith

"Sometimes I think about it all day, you know, I think -- tonight, I gonna play Foosball. I'll stay there all night and just play that game and drink beer. See nothin' else, don't wanna do nothin' else."

"The best place in town is our old place, it's a bar called The Foosball. You know, it's a real nice place. Mark Love, he's got a lot of friends there, they call him "Dr. Foosball." He's got a lot of friends there, they call him "Dr. Foosball." He's got a lot of friends there, they call him "Dr. Foosball.""

"Hey, are you going to play or what?" he asks me.

"I'm not sure," I reply.

"Well, let's play," he says.

"Okay," I agree.

The lights were dim, the beer was cold, and the music was loud. We played for hours, each trying to outdo the other. But in the end, it was Mark who emerged victorious. The crowd gave him a round of applause as he walked away, leaving me to ponder the meaning of life and the mysteries of Foosball.

But as I walked out the door, I realized something.Foosball is not just a game. It's a way of life. It's a way to connect with friends, to unwind, and to have fun. And for that, I'm grateful. Thanks, Mark. You've given me something to look forward to."

Let us Shock you.

YOUR HAIRCUT SHOULD LOOK AS GOOD AFTER A PROFESSIONAL AASON IN.

As it does after five minutes.

And it will when you choose Command Performance. We shampoo, cut and blow dry your hair with precision.

Precision never keeps looking the same. And when you've had a good hair, Command Performance never wants you to have a bad one.
