Scrub Forest
The Cleveland is no Wilderness

San Diego County's back roads wind through hills overgrown with chaparral, a thick cover of brush that stands in most places no higher than the average person. Here and there boulders lie nakedly in the vegetation, and some of the hills are blanketed with them, as if the forces that created those areas had somehow overlooked plants altogether.

When I was a child my family would occasionally pile into the car and head up one of these roads; we would be going on a picnic, or to “the snow,” or just out for a scenic drive, depending on the season. And on the way, no matter which route we took, we would always pass a wooden sign somewhere that spelled out, in bright yellow letters, “Entering, Cleveland National Forest.” Whenever I saw one of these signs I would inevitably look out across the dry, boulder-strewn hills around our car and think, “National Forest! Where are the trees?”

OPP. KEPNER SCHOOL

On a visit there last week I was surprised
by the size of the park and the number of people of all ages, and of the variety of activities that were available. There were volleyball courts, basketball courts, tennis courts, and a swimming pool. The park was well-maintained and clean, and there were lots of people enjoying themselves. The staff was friendly and helpful, and there was a good selection of food and beverages available at the concession stand.

The park is open from dawn until dusk, and there are various activities and events throughout the year, including concerts, sports games, and family fun days. The park is a great place to visit for a day of relaxation and enjoyment, and I would definitely recommend it to anyone looking for a nice place to spend some time in nature.
Okay If You Like Orphans

JONATHAN DAVIES

I loved the movie, which opened at the Fox last week, and loved the new musical, which opened at the Broadway last night. It's the story of a boy and a girl who are trying to make it in the world together. The boy is a street kid named Orphan, and the girl is a street kid named Miss Hannigan. They are both outsiders, looking for love and adventure. Orphan is a boy who wants to be a cop, and Miss Hannigan is a girl who wants to be a singer. They meet on the streets and fall in love, and together they try to make their way in the world. The movie is a heartwarming story of friendship and love, and the musical is a thrilling spectacle of music and dance.
Cuba Si

DUNCAN SHERWOOD

If you have thought about what it is like to see Cuba from the air, you have to be pretty close to the ground in order to see Cuba from the air. It's a little like being in a foxhole with a foxhole in a foxhole. You can see a lot of the landscape, but not very much of it. The Cuban landscape is quite varied, with mountains, valleys, and coastline. The coastline is particularly beautiful, with long, white beaches and crystal-clear waters. The mountains are less dramatic, but still offer some stunning views. The valleys are a bit more challenging to see, but you can get a good sense of their layout and size from the air. The overall landscape is quite striking, with lush, green vegetation covering the mountains and rolling hills. The coastline is a bit more rugged, with some rocky outcroppings and cliffs. Overall, the Cuban landscape is quite diverse, and there is a lot to see from the air. If you have never seen Cuba from the air before, you should definitely consider it.
Section 2

Events, Theater, Music, Film

Art As We Don't Know It

Performance art, which emerged from the boulevards of John Cage and Allan Kaprow during the 1950s, is a vitally dynamic and exciting form of theater, dance, and other artistic expressions redefined by their impact on cinema, visual art, and music. A performance artist creates situations for others to experience and then peer over the audience wall for the final show or screening. As performance art, an event is a forum for the artist's ideas, which he can manipulate, change, and redefine as it unfolds. The audience is a part of the performance, and the performers change with the scene. In this way, the audience becomes a part of the performance, and the performers change with the scene. In this way, the audience becomes a part of the performance.

Flute Horiromes

The flute has become a very popular instrument recently, when combined with traditional and modern music. It is a versatile instrument, suitable for soloists and ensembles. It can be played with traditional or modern music, and it can be combined with other instruments. It is a beautiful and versatile instrument, suitable for both traditional and modern music.

Hardknob for Glory

This is the most compact and attractive compact of the year for anyone who has never owned or listened to a compact. It comes with a carrying case, and it is portable and easy to use. It is a beautiful and attractive compact, suitable for both traditional and modern music.

No. 88 Going Up?

By: Don Robin

A 24-floor steel skeleton is being built high in the sky to be a hotel and office building. The concrete building will be 500 feet above the ground, making it the tallest in California. The building will have 24 floors and a total of 300 rooms. It is scheduled to be completed by next year.

A clue: It is the tallest building in California.

The building is located at 123 Main Street, San Francisco. It is owned by the San Francisco Building Corporation and is being constructed by Pacific Coast Steel and Concrete Company.

The building will be the tallest in California and will have 24 floors and 300 rooms. It is scheduled to be completed by next year.

A clue: It is the tallest building in California.

The building is located at 123 Main Street, San Francisco.
