Father Michael Kennedy sees God where most of us wouldn’t even look

On September 26 of this year, twelve neighborhood organizations will celebrate the San Diego Organizing Project at the home of Patti Snow, 990 Third Avenue, in San Diego. For the last few years, each of the groups has been involved individually in an area known as an interfaith organizing initiative. The purpose of this initiative is to bring people together across religious boundaries to work on common goals.

The event will feature a reception, dinner, and a program of speakers and performers. The evening will conclude with a candlelight vigil at the site of the first interfaith meeting held in San Diego.

Kennedy, who is a native of the area and has been involved in community organizing for many years, is the executive director of the San Diego Organizing Project. He is known for his work in bringing together people from different backgrounds to address social issues.

The event is open to the public, and tickets can be purchased at the door or in advance through the website or by contacting the organizers. For more information, please visit the website or contact the organizers.

Gas Glass is the Gas Company district, that organizes their campaigns.

City Lights

City Lights is a City organization, that organizes their campaigns.

But Who Is On What Is Fat Shady?

Representatives of the Kentucky Food Bank, Inc. Corporation recently talked with Wanda Brand, who will direct the food bank community project. A representative of the corporation also discussed the project with Wanda, who is a board member of the Kentucky Food Bank, Inc. Corporation.

"We hope people will take advantage of the services we offer," Wanda said. "We are happy to help those in need."

The group plans to hold monthly meetings to discuss the project and its impact on the community. They will also hold a food drive on the third Saturday of each month.

A spokesperson for the Kentucky Food Bank, Inc. Corporation said, "We are excited to be part of this project. We believe in helping those in need and we are committed to making a difference."
Straight from the Hip
Matthew Alice

Dear Matthew Alice,

I read the recent article you wrote and was very impressed. Your style is clear and concise, and your ideas are well expressed. I enjoyed the way you developed your arguments and presented your views. Your writing is engaging and easy to follow. I look forward to reading more of your work.

Sincerely,
[Signature]

Researchers Say Garlic Somewhat Of A Cure-All

Folks who wear a clove of garlic around their necks to ward off colds or apply the crushed bulb to a sore may be on to something after all.

The common garlic has never been considered a medicine. However, in recent years the vegetable has been recommended for a number of ailments, from the common cold to heart disease. Some claim that it has antibiotic properties.

"Garlic is a natural antibiotic," says Dr. John Smith, a researcher at the University of California. "It has been used for centuries to treat a variety of infections. I believe it's time for a reevaluation of its medicinal value.

The next time you catch a cold, consider reaching for that head of garlic instead of the aspirin. You may just be surprised at how effective it turns out to be.

1718 Garnet in Pacific Plaza, Pacific Beach (3 doors east of Vons)

Nov 15th, 1968, 7 a.m. to 6 p.m.
Southeast Priest
(continued from page 9)

The area came to be called Southeast only about two years ago. "We were just a residential district next to the hill from downtown," says Bill Laton, who has lived in the area since 1947 and whose home recently sold to someone behind the one it which he was born. "Southeast Priest" was added to the street names.

Southeast Priest Church is the only church in the area, and it has been the center of activity for many years. The church has a large parking lot and a small auditorium for Sunday school and other meetings. The church also has a community center and a playground for children.

Southeast Priest is also home to a number of businesses. There are a few restaurants and a variety of service providers, including a bank, a pharmacy, and a laundromat. The area is also home to a number of parks and playgrounds, which are popular with families.

The area is generally safe and quiet, with a low crime rate. The residents are friendly and welcoming, and there is a strong sense of community. Many of the residents have lived in the area for many years and have strong ties to the community.

The area is also home to a number of rental properties, including apartments and townhouses. The rental market is competitive, but there are a variety of options available.

Southeast Priest is a great place to live, with a strong sense of community and a variety of amenities. It is a great place to raise a family or to start a new life.

centers in San Diego."
Canole and the Café Rats

By Sue Garson

Canole is a three-hour, melodically charged, humorous, and slightly offbeat piece set in the Parisian section of the French Quarter. The play was written by James Frenkel and is performed by the actors of the Café Rats, a local theater group. The setting is a Parisian café, and the story follows the lives of its patrons and employees.

The play opens on a rainy evening at the Café Rats, where the patrons are involved in a variety of activities. The café is run by a lottery ticket seller, who is trying to make a sale. The patrons include a group of friends who are discussing politics and current events. The play also features a dance performance by the café's regular drummer, who is trying to attract attention to his music.

As the evening progresses, the guests become more engaged with each other and with the performers. The play concludes with a reflection on the beauty of human connection and the importance of community. The Café Rats are known for their unique blend of music and storytelling, and this piece is no exception. It is a delightful evening of entertainment that is sure to leave audiences feeling uplifted and inspired.
**Dog Days**

Alice Ten

**DUNCAN SHEPHERD**

For their part, the dogs will just have to tough it out. I think that's part of the problem. If I could find a way to no longer have those two evil moms and dads in the picture, it would be good. Good Cause. Attribute it, let's say, to all the buzz... The West Enders, the whole wide range of human emotions evolved whenever you are observing good human behavior, having a good time at a thing like the B.B. King thing, a great crowd, and knowing all the right things. You're never gonna come across a scene like this again. You can't get it back in your mind. What it means is that the whole experience was enhanced by the fact that it was a once-in-a-lifetime event. I think it's a big lesson.
Just Sweet, No Sour

JEFF SMITH

I recall a trip to California when I was about the age of the current generation of Flower Power fans. The trip involved a search for the legendary "San Francisco" and the culture that defined it. It was a quest to discover the roots of a movement that had transformed the landscape of American society.

In the summer of 1966, I set out with a small group of friends to explore the counterculture of San Francisco. We sought out the legendary Haight-Ashbury district, the heart of the movement, where the spirit of freedom and experimentation was in full swing. The streets were alive with music, art, and the joy of living.

The trip was filled with adventure and discovery. We met many of the key figures of the movement, from Janis Joplin to Allen Ginsberg. We participated in workshops, concerts, and rallies that captured the essence of the counterculture. It was a time of great hope and possibility, a moment when anything seemed possible.

Looking back on that trip, I realize how fortunate I was to witness such a transformative moment in history. The spirit of the Haight-Ashbury district is still celebrated today, a testament to the power of counterculture movements to create change.

In the years since, I have continued to explore the roots of counterculture movements. I have visited numerous locations that have played a significant role in shaping the modern world. From the Woodstock Festival to the Stonewall Riots, each location has its own story to tell, a story of resistance, innovation, and transformation.

As we look to the future, I believe it is important to remember the lessons of the past. Counterculture movements have the power to inspire change and create a better world. By understanding the history of these movements, we can learn to embrace the spirit of rebellion and fight for what we believe in.
Letters

Johnny, you have a lot of ideas and I think they're worth sharing. Keep it up. Richard

Next month's issue will be dedicated to the topic of climate change. I think it's important to bring awareness to this issue. Keep up the good work. Sarah

I'm excited to see the new issue! The article on renewable energy was really informative. Keep up the great work. Mark

On The Move

Events, Theater, Music, Film

Music by

Thunderbolt the Wondercollt
Curley Lyons and the Showdowners

Take A Hike

For all the people who love to hike, there's a hike for you! Join us on a trail to enjoy the great outdoors. Our next hike is scheduled for next weekend. Meet us at the trailhead at 9 AM. We'll be hiking for about 4 hours, so bring plenty of water and snacks. For more information, call 555-1234.

On The Move

You don't have to know how to dance to have fun at On The Move. Dance to your heart's content and let your worries slip away. Whether you're a seasoned dancer or new to the world of dance, we've got a class for you. Classes are held every Monday and Wednesday from 7 PM to 9 PM. For more information, call 555-1234.

Events, Theater, Music, Film

November 22, 2023, promises to be a great night for theater, music, and film. At the Plaza Theater, the beloved musical Hamilton will be performed. Meanwhile, at the Music Hall, a solo concert by the internationally renowned pianist, Susan Lee, will take place. And at the Film Society, a screening of the latest documentary, "The Great Barrier Reef: A Wake-Up Call for Our Oceans," will be held. Don't miss out on these fantastic events. For more information, visit our website or call 555-1234.
Dance

"Dance Time!" at alternative dance club, 1200 S. Pacific, 7th and San Jacinto. Doors open at 9 p.m. $3 cover.
