Sally Barnes is dead, Jim Kulka is in jail, and the land they fought over remains.

Looking through the pages of a book from the late 1980s, one finds a story that speaks to the human experience. The narrative unfolds in the pages of a newspaper account titled "Sally Barnes is dead, Jim Kulka is in jail, and the land they fought over remains." This is a story of conflict, passion, and the untold consequences of local legal battles.

The incident occurred in 1988, when a dispute over land ownership resulted in the death of Sally Barnes and the imprisonment of Jim Kulka. The area in question was situated in the Ojai Country, a region known for its picturesque landscapes and close-knit community. The land was valued for its agricultural potential, as well as its scenic beauty. The story highlights the complexity of legal battles, where emotions run high and outcomes can have significant impacts on individuals and communities.

The narrative is a reminder of the human cost of such disputes. Sally Barnes, a local activist, was advocating for the preservation of the land, while Jim Kulka, a real estate developer, sought to acquire it for development purposes. The conflict escalated, leading to a tragic outcome. The story is a testament to the importance of understanding and resolving land disputes through dialogue and compromise, rather than through violent means.

Bench Press

Last week, Bench Press, the newsletter of the 11th Street Park Off-Leash Dog Park, was sent to 175 subscribers. The newsletter featured an article on the history of the park, a calendar of events, and updates on park maintenance. The newsletter is sent out monthly and is designed to keep park users informed and engaged with the community. Bench Press is written and distributed by the 11th Street Park Off-Leash Dog Park Committee, which is a group of volunteers dedicated to the well-being of the park and its users. The committee meets monthly to discuss park improvements and events. Subscriptions to Bench Press can be purchased for $10 per year, which supports the committee's efforts to maintain and improve the park. For more information, visit the 11th Street Park Off-Leash Dog Park Committee's website.

Matthew Alice

Dear Matthew Alice,

For the benefit of our readers, I'm forwarding this article about the First Earth Records online. It's a good read and I hope it will be useful to you.

Best regards,

Why do sports writers in the big city put on free goodie bags every Sunday but keep their mouths shut the next day?

Ask Rick Smith.
MYSTERY OF THE BEAKED WHALES

BY GORDON SMITH

Mystery has been a hallmark of all zoological studies, and the beaked whale, one of the most mysterious and elusive of marine mammals, is no exception. This enigmatic creature is known primarily from a few rare sightings and occasional strandings, which have led to much speculation about its behavior, habitat, and biology. The beaked whale is a small to medium-sized whale, often found in cold, deep waters, and is characterized by a distinctive and unique beak-like structure on its head.

In the late 1980s, a series of unusual sightings in the waters off the west coast of North America began to spark interest in the beaked whale. These sightings included stranding events, and some reports of individuals being seen in areas where beaked whales had not previously been recorded. This led to a series of investigations, both by researchers and the public, to better understand these fascinating creatures.

One of the most significant events occurred in 1991, when a group of researchers from the United States and Canada embarked on a research mission to study the beaked whale in detail. This expedition was supported by a variety of organizations, including the National Marine Fisheries Service, the University of Washington, and the Canadian Department of Fisheries and Oceans.

The research team conducted observations and collected samples from the beaked whales, which led to a better understanding of their behavior, habitat, and biology. They also documented stranding events, which provided valuable information about the species' distribution and ecology.

Despite these efforts, however, the beaked whale remains a mysterious and elusive creature, and much remains to be learned about this fascinating marine mammal. As researchers continue to study the beaked whale, they hope to gain a better understanding of this enigmatic creature and its role in the marine ecosystem.
When one enters the restaurant, the atmosphere is warm and inviting. The decor is classic and elegant, with soft lighting and comfortable seating. The menu offers a variety of dishes, including seafood, steak, and vegetarian options. The service is attentive and friendly, ensuring a pleasant dining experience.

The lobster is a specialty of the house, and it is prepared with care. The meat is succulent and tender, and the sauce is flavorful and perfectly complementing. Other dishes we tried included the filet mignon, which was cooked to perfection, and the salmon, which was fresh and perfectly seared.

The restaurant has a cozy bar area where one can enjoy a drink before or after dinner. The wine list is extensive, featuring wines from all over the world. The staff is knowledgeable about the wines and can help guide your selections.

Overall, we had a great experience at the Lobster Clause. The food was delicious, the service was excellent, and the atmosphere was pleasant. We would definitely recommend this restaurant to anyone looking for a high-quality dining experience.
In Translation

The San Diego Symphony's beautiful performance of Mahler on Oct 1st and 2nd was to be noted with mixed emotions among the audience. Virtually everything was of the highest quality. The orchestral sound was grand, the technical precision flawless, the overall effect impressive. The San Diego Symphony orchestra and the Munich Philharmonic orchestra were both highly regarded. The conductor was an American, the Programme Director, and the music chosen was a mixture of American and European works.

The performance itself was well received by the audience. The audience was divided into sections, each with its own conductor. The programme was well balanced, with a variety of compositions ranging from classical to modern. The audience was left with a sense of satisfaction and pleasure.

The performance was broadcast on television and radio, reaching a wider audience than the concert itself. The audience was able to enjoy the performance in the comfort of their homes, with the added benefit of being able to watch the conductor's movements and facial expressions.

In conclusion, the performance was a success. The audience was impressed by the orchestra's technical precision and the conductor's able leadership. The programme was well-balanced, with a variety of compositions that appealed to a wide range of tastes. The audience was left with a sense of satisfaction and pleasure, and the performance will be remembered by all who attended.

An American Werewolf in London

An American Werewolf in London is a horror film directed by John Landis and written by John W. Irwin. The film stars David Naughton as Alex Young, a young man who is bitten by a werewolf on holiday in England and must cope with the transformation into a werewolf as he tries to find out who is behind it. The film was released in 1981 and has since become a cult classic.

Arachnophobia

Arachnophobia is a horror film directed by Mark L. Lester and written by David Z. Mindel. The film stars Chevy Chase as Dr. Eldon Banning, a pediatrician who becomes paralyzed by a case of arachnophobia. The film was released in 1990 and has since become a cult classic.

The French Lieutenant's Woman

The French Lieutenant's Woman is a romance film directed by Stephen Frears and written by Harold Pinter. The film stars Jeremy Irons as a man who becomes involved with two different women at the same time. The film was released in 1981 and has since become a cult classic.

 JFK

JFK is a biographical film directed by Oliver Stone and written by Stone and Lawrence Schiller. The film stars Kevin Costner as a former CIA agent who becomes involved in the assassination of President John F. Kennedy. The film was released in 1991 and has since become a cult classic.

Polyester

Polyester is a comedy film directed by John Waters and written by Waters and Mimi Leder. The film stars Divine as a woman who becomes a socialite and ends up in a love triangle with a rich businessman and a socialite. The film was released in 1981 and has since become a cult classic.

Ella Enchanted

Ella Enchanted is an animated fantasy film directed by Nora Twomey and written by Twomey and David Lindsay-Abaire. The film is based on the novel "Ella Enchanted" by Gail Carson Levine. The film stars voices of Felicity Jones as Ella and Stanley Tucci as Sir Edgar. The film was released in 2006 and has since become a cult classic.

The cigarette company that rolls your usual cigarette can roll 6,067 per minute.

Now take out a pouch of DRUM and a stopwatch.
Open the pouch and sense the rich, imported tobacco. Roll it up in the slow, even burning DRUM paper:
Now light up to DRUM's surprising mildness. You can get 40-5000 more smokes for the price of the factory-rolled one.

Of course, the cigarette factory can roll 11,000 to your one. But somehow, you could care less.

Break away from the pack.

FREWAY LEGAL.

There is an increase in the number of accidents involving motorcycles. The reasons for this increase are not clear, but it is possible that the higher speeds and greater weight of motorcycles contribute to the problem. It is important for motorcycle riders to be aware of the potential risks and take appropriate measures to minimize the risk of accidents.

MOONJEANS

fit better than designer jeans!

Designed for the female figure, Moonjeans are designed to fit the figure of women from size 3 to 8. So if your figure is not to your liking, Moonjeans will fit great and feel so good as they look.

Moonjeans are made in San Diego especially for durability, comfort, and style. They are hand crafted with excellent workmanship.

Labels on the inside. Only the fabulous fit will tell the world you are wearing Moonjeans because the labels are on the inside where they belong. A tight, body-hugging fit from the appearance.

Available only at Moonbeams.

Moonbeams: San Diego locations. Moonbeams offers a full line of women's casual fashions in addition to Moonjeans. Come in and try on our Moonjeans. We're sure you'll agree Moonjeans fit better than designer jeans.
