**Let My Creatures Go**
- Win-D lay on the operating table.
  - His body was closed and the visible part of his face was a tangle of covered yellow.mesh-like skin. With a single, almost imperceptible movement, he opened his eyes. He lifted his head a fraction across that triangle, and then spread the glaring flesh wide. The eyes opened with a click. In a few moments, the doctor, David Whittaker, began drilling, hooking two wires into Win-D's skin with a hand drill. It took a lot of effort, and Whittaker stopped once or twice to catch his breath while his assistant, research technician Sue Money, put an arm around the patient to keep her steady. Win-D was a pig, but Money showed no reluctance to come closer. The surgery was completed. The second operation, a laser drilling, was completed. Whittaker added the next-up insertion device to the installation. It was an earphone.
City Lights

Tune In, Turn On, Trade Stock

Over the last few years, the world has seen a rise in the popularity of astrology. With the increasing number of people looking to the stars for guidance, many are turning to astrology books and websites for answers. One such source is the popular astrology book "Tune In, Turn On, Trade Stock." Written by the renowned astrologer Mystic Microwave, this book explores the connection between astrology and finance. It delves into the world of stocks and how astrology can help predict market trends. The book is a must-read for anyone interested in astrology and finance.
Straight from the Hip

Matthew Alice

The American English language is now more English-speaking nations "influenced"—or "affected" by the political winds we have chosen to share our way and use "f)riendly" to indicate that something feels easy. The meaning behind the phenomenon is that "f)riendly" is now used in a way that is not necessarily the same as its original meaning. It is a sign of an influence that is challenging the values of the people who are not directly affected by it. This trend is not new and has been occurring for decades, but it is now reaching a critical point where it is likely to have a significant impact on the way we communicate. The use of "f)riendly" in this context is a clear example of how language is shaped by political and cultural forces. In this case, the political forces are influencing the way we use language to express our feelings and opinions. It is important to be aware of these influences and to consider them when using language in public and private contexts.
The Inside Story

IF LYNDSAYS REPORTERS TO RANGET LADS
speak, the San Diego Union is finally making a move for
the once-hard-core Republican political voter. Margaret
Waters of the staff of the Daily News is currently preparin
the paper's first campaign with the help of the
Spanish-speaking reporters on the sta.

The move is a step in the right direction for the Union,
which has struggled to gain a foothold among the
Spanish-speaking community. The new reporting team
is expected to increase the newspaper's reach and
appeal to a wider audience.

Animal Rights

An ethical problem.

There is a time coming when we will have to think about the ethics of animal testing. As technology advances, we will be able to simulate human conditions in animals and use them to test drugs and other products. But what about the ethics of using animals for this purpose? Some people argue that it is necessary to use animals in order to save human lives, but others believe that we should find ways to test products without using animals. Either way, we will have to consider the ethical implications of our actions.

In San Diego, animal rights activists have been holding protests and rallies to draw attention to the issue of animal testing. They argue that it is cruel and unnecessary, and that there are better ways to test products. They also point out that animals are often subjected to cruel and inhumane conditions in laboratories.

In the end, it is up to us to decide how we want to treat animals. We can choose to continue using animals in research, or we can find ways to replace animals with other methods. It is up to us to decide what is right and what is wrong, and to act accordingly.
Animal Rights

Lily Craig, a thirty-year-old animal rights activist for thirty years, sat down with us to discuss her work and the challenges she faces.

The animal rights movement is one of the most significant movements of our time. It is based on the idea that all animals, including humans, have inherent rights and should be treated with respect and dignity.

Lily Craig is a co-founder of the Animal Rights Coalition, which is dedicated to promoting the welfare of all animals. The organization works to educate the public about animal cruelty and to advocate for the protection of animals.

The movement has faced many challenges over the years, including legal setbacks and public resistance. Despite these challenges, Lily remains committed to the cause and continues to work tirelessly to promote animal rights.

She emphasizes the importance of education and awareness in the fight for animal rights. "Understanding the issues is key," she says. "People need to know what's happening in the world of animal rights, and why it matters."
“This was my old dress. Now I’m wearing my daughter’s.”

**Animal Rights**

out of Alice in Wonderland. Did she ever call the witnesses who had gone to the country afloat? I find that amusing. And their whole investigation of the facilities took one day. We weren't complying with UCSF's, that's all.

Nevertheless, the incident had a significant impact on the medical school's animal research activities. Even though a few investigators reversed course, the incident led to a broad investigation into the university's animal research practices and procedures. In an effort to address the concerns raised by the incident, the university developed a comprehensive program to improve animal welfare and research practices. This program included the establishment of a dedicated animal welfare committee, increased oversight of all animal research, and the implementation of new guidelines and training for researchers. The incident also highlighted the importance of public engagement and transparency in animal research, leading to increased efforts to communicate with the public about the ethical considerations involved in animal research and the measures in place to ensure the welfare of animals used in research.

THEY OUGHTA BE IN PICTURES
Maybe this would start the kids on a glamorous, lucrative career in modeling...
"Nobody cares about these auditions," she said. "All they look for is a certain type, and unless they see it, they just..." She whirled her hand past her head. "You know?"

"They oughta be in pictures," said a voice behind her.

"How did you know I was here?" she asked, surprised.

"My name's Francisco," he said. "Francisco Rodriguez. I've been in pictures before."
My go-to for... Chili Factors  
RICK GEARY  

Just two years ago, the half of 1981, my roommate, San Diego State student, and guitarist, Mike Adult, and I had been living in the dorms. Mike had been part of the band, "The Chilis". Then, they started to get a lot of attention, and I decided to interview Mike about their success.  

Mike:  

I'm just a regular guy who loves music. I started playing guitar when I was 12 and never stopped. I've been with the Chilis since they were formed.  

Interviewer:  

You're a guitar player in a band that's starting to get really popular. How does it feel?  

Mike:  

It's amazing. I never imagined this would happen. But the music is what matters to us.  

Interviewer:  

What's it like playing in front of all these people?  

Mike:  

It's a lot of fun. But it's also a lot of pressure. I have to be on my game every night.  

Interviewer:  

How do you keep up with all the media attention?  

Mike:  

I have a great support system. My bandmates and I try to stay grounded.  

Interviewer:  

What's it like being a part of a band that's becoming popular?  

Mike:  

It's surreal. We never thought this would happen. But we're just happy to be able to share our music with people.  

Interviewer:  

How do you keep the music fresh?  

Mike:  

We work hard to keep our sound innovative. We listen to a lot of different music and try to incorporate it into our own.  

Interviewer:  

What's the best part of being a musician?  

Mike:  

Playing live is the best. There's nothing like the energy of being in front of an audience.  

Interviewer:  

What's the worst part?  

Mike:  

Traveling and being away from home. But we love it. It's a lifestyle we chose.  

Interviewer:  

What's your favorite memory?  

Mike:  

Our first sold-out show in New York. It was incredible.  

Interviewer:  

What's your next goal?  

Mike:  

To keep making music that people love. And to keep touring and sharing our passion with as many people as possible.  

Interviewer:  

Thank you for your time, Mike. It's been great speaking with you.  

Mike:  

Thanks. It's been great talking to you too. Keep playing.  

Interviewer:  

Good luck with your music.  

Mike:  

Thanks. We'll see you out there.  

Interviewer:  

Great. Keep playing.  

Mike:  

Absolutely. Thanks again.

Events, Theater, Music, Film

Debut For Two
Conductor Andre Previn, who recently won a Grammy Award for best classical album, and his wife, actress Jacqueline Bisset, will make their San Diego debut for two nights next week in the opening of the new season at the cordon.

Revolutionary Times
The year is 1914. The place is Los Angeles. America and Germany are at war, and the children are at war. The whole world has gone mad. In the midst of this madness, a young woman named Nellie Bly sets out on a mission: to document the horrors of life in the workhouse and bring attention to the plight of the exploited and oppressed.

Everybody's From Someplace Else
A quintessential Parisian restaurant, located in the heart of the city, serves traditional French cuisine with a modern twist. The menu features dishes such as coq au vin and ratatouille, as well as a variety of wine and cheese options. The cozy interior is perfect for a romantic dinner or a casual lunch with friends.

Events on San Diego's Calendar
San Diego offers a variety of events throughout the year, including concerts, festivals, sports games, and cultural events. Be sure to check the local paper or website for the latest information on what's happening in the city.

The Symphony
The San Diego Symphony is known for its high-quality performances and commitment to education. The orchestra is led by a world-renowned conductor, and features a diverse range of music, from classical to contemporary. The symphony performs at the San Diego Civic Center and other venues throughout the city.

Theater
San Diego is home to a thriving theater scene, with a variety of productions ranging from musicals to dramas. The Old Globe Theatre is a must-see, offering a variety of performances in a beautiful outdoor setting. Other notable theaters include the La Jolla Playhouse and the San DiegoRepertory Theatre.

Film
San Diego is a hub for film production, with many local filmmakers and studios. The city is home to the San Diego International Film Festival, which attracts filmmakers and audiences from around the world. The festival features a variety of films, including independent and foreign language films.

Blondie

Starring Michael Caine, Richard Gere
Featuring an appearance by John Lithgow

Directed by Alan J. Pakula
Produced by Alan J. Pakula
Screenplay by William Goldman

Blondie is a highly intelligent, but somewhat naive American who -- like his friend, the detective, Mike Callahan -- is torn between his love for the beautiful and wealthy Julia and his friendship with his coworker, the feisty and passionate Pauline. Their relationship is complicated by the presence of Mike's ex-wife, Jane, who is determined to win Mike back. As the story unfolds, Blondie must confront his feelings and make a choice between love and friendship.

Revenge of the Ninja

Starring Bruce Lee, John Saxon

Produced and directed by Robert Clouse
Screenplay by Robert Clouse and John M. Raffles

Revenge of the Ninja follows the story of a young martial artist named David Seung, who is sought after by a group of villains led by the evil Master Xiu. With the help of his mentor, Master Fu, David must use his unique martial arts skills to save the world from destruction. The film is known for its intense action scenes and its exploration of the power of the human spirit.

The Sentinel

Starring Patrick McGoohan, Lee Remick
Produced by Robert Clouse
Directed by Robert Clouse
Screenplay by Robert Clouse

The Sentinel is a suspense thriller about a man who believes he is being watched by a mysterious entity. As he investigates the situation, he uncovers a dark secret that threatens his family and community. The film is known for its atmospheric direction and its exploration of the power of the human mind.

The Ultimate Experience: BRAINSTORM

Directed by Bruce Willis
Produced by Bruce Willis
Screenplay by Bruce Willis

The Ultimate Experience: BRAINSTORM is a science fiction thriller about a man who awakens from a 30-year coma with the ability to experience events from his past. As he relives his life, he realizes that he must act to prevent a catastrophic event that threatens the world. The film is known for its thought-provoking themes and its exploration of the power of the human mind.

Andree's
French Bouquet Restaurant

On Friday, September 30,
and Saturday October 1
from 7:30 p.m. until
10:30 p.m., the magic atmosphere is in the dining room and
bar. Performance of the ancient
Egyptian, who will sing and
dance with real and fake
flowers for $6.75, as needed.
Accompanied by Richard
Peterson on the piano.
Reservations suggested.
