The first time I met Vern Whittaker, two years ago, he was celebrating his seventy-third birthday in the back of a camper parked beside a home on the Anza-Borrego Desert. The campsite looked like what you’d expect the home of a seventy-three-year-old bachelor cowboy to look like. There was a pile of dirty dishes in the sink, a pot of coffee strong enough to float a horseshoe, boiled on the stove, and the little camper, not quite high enough to stand up straight in, smelled of dust, leather, and stale horse manure.

Somebody had given Vern a pink birthday cake that day, in the shape of a voluptuous female nude, and when he cut the cake for his guests, he awarded me with one of the cherry-topped breasts. It was so large it made the paper plate buckle. I considered Vern’s generosity a fine...

City Lights
Overdue reader of the jail, P.B. reports, "It's a lot better now. I'm not exactly sure what the problem is". The reader suggests that the inmate is not being properly cared for.

A new angle on the problem of homelessness, P.B. reports, "It's really a big problem, especially in the downtown area." The reader suggests that the city should implement a new strategy to address the issue.

9 Straight from the hip, The reader comments on the current state of the criminal justice system, "I think it's time for a change. The system is not working the way it should be." The reader suggests that reforms are needed to ensure justice for all.

The Inside Story
The reader provides an overview of the recent police scandal, "It's really unfortunate," the reader comments, "We need to ensure that our police officers are held accountable to the people they serve.

Snake Territory
I am a member of the local conservation group, the Pala Indian Reservation Friends, which has been working to protect the Pala Indian Reservation from development. We are concerned about the recent proposal to build a water treatment plant on the reservation.

There are numerous studies on the importance of protecting our natural resources. You have to be careful not to take our resources for granted. The Pala Indian Reservation is a special place, with unique ecosystems and cultural heritage. All efforts should be made to protect it.

CITY LIGHTS

WHAT'S IN A STORY?

BY PAUL ALVORD

Nothing less than a hunch, newspaper lore has it, is the story behind the San Diego Union's new look. The San Diego Union has finally given up its daily newspaper format, and the result is a bold, new look that promises to make reading the newspaper more enjoyable.

The Union's new look is the result of months of planning and design work. The newspaper's editors and designers worked together to create a look that is both modern and appealing to readers.

The new look includes a new color scheme, with shades of green and blue dominating the front page. The headlines are larger and easier to read, and the overall layout is more open and inviting.

The Union's new look is not just about appearance, however. The newspaper has also made some changes to its content and format to make it more engaging for readers.

One of the most significant changes is the addition of more local news coverage. The Union now devotes more space to local stories, and the newspaper is also offering more in-depth coverage of local events and issues.

The Union's new look is part of a larger effort to modernize the newspaper and make it more relevant to today's readers. The newspaper's editors believe that the new look will help attract new readers and keep existing ones coming back for more.
STRAIGHT FROM THE HIP
By Matthew Alice

Dear Matthew Alice,
I found this interesting advertisement that was sent through the mail: a black and white drawing of a flower with the words "FEMALE VICTIM of good looks and violent crime in San Diego. I am interested in your opinion on this image."

I think the image is quite powerful, but also raises some ethical questions. On the one hand, it draws attention to the issue of violence against women, but on the other hand, it reinforces stereotypes about women's bodies and the way they are perceived in society.

What do you think about this advertisement? Do you think it is effective in raising awareness about the issue, or does it perpetuate harmful stereotypes?

Sincerely,

display of Western hospitality and on the whole place, though it lacks a second cup of his coffee, and to get it all down.

When I got around to seeing them again, in October of this year, he wouldn't have that, so he led in the same camp, parked at the same corner at a horses camp. He was the first time I had ever been in a horses camp, I went there some years before, managing the camp as a volunteer corps at Anza Borrego Desert State Park. It was a great morning — so one was staying at the camp except Ven — and I found him sitting alone in the back of the camp, running out over the open door toward the mountains.

And, interpreting his signals, "I was hearing him, might be able to tell me the story of the wild horses that live up the canyon."

"Now he's been around to pulling his own, until he still had him in his tent. He pushed aside a stack of chickens and soup and been sitting without meat. Talking about wild horses meant to something he had seen coming in, he'd tell you.

Ven had been chasing wild horses all the ails in Texas, Saskatchewan, and now California. There weren't many wranglers who knew more about the subject of wild horses than he did — and many who liked them — and he had been up the Creek. He has seen enough, he has seen, that he has seen. "I knew the horses of the Creek entered a few times, haven't been there. Apparently, though, their origins aren't as old as some of the wild horses of the American West. "There are a few people who hear them up there, "" he said. ""There are a few people who hear them, there are."

"Well that's right. A maverick is a little bit above an animal, and with his own, he will be generation. These animals are all pretty good bowler's scars that were tame just fifty

years ago."

Some of the wild horses in the eastern United States are older than the 200 years of history introduced by the Spanish more than 200 years ago. For the last twenty years, they have been hunting these horses, very well. They have been hunting these horses, very well. The wild horses we have been hunting these horses, very well. The wild horses have been very well. They have been hunting these horses, very well. The wild horses have been very well. They have been hunting these horses, very well. The BLM estimated a population of about 22,000 wild horses on public lands. In California, the total number of wild horses on public lands remains at about 2,000, even though 5000 horses were captured in California since 1974, the California Department of Fish and Game estimated that the wild horse population in that state was 20,000 in 1974. To the BLM, the wild horses in California are reproducing at a rate that they can be captured.

Once the wild horses have been captured, the BLM requires that they be fed and cared for by the BLM until they can be put up for adoption. In California, the BLM requires that any wild horse captured be put on a wild horse adoption program. A few days before my conversation with Vern Whitaker, the BLM held a wild horse and burro adoption at the Indian Wells, California field office. The adoption had been advertised for several months and was well attended. The adoption was successful, with about 500 horses and burros being adopted.

The adoption process is designed to help the BLM manage the wild horse population and to provide an outlet for wild horses that are no longer needed by the BLM. **Horses**

Horses are known for their gentle nature and gentle gait, which made them a favorite of early settlers. The American pony was developed from a cross between the Andalusian, Arabian, and Spanish horses. Today, they are most commonly found in the western United States, where they are used for riding and as draft animals. They are also known for their intelligence and are often used in equestrian sports. The American pony is one of the most popular breeds in the United States, and they are valued for their beauty and endurance.

domestic horses - while the Saratoga tracks seemed to scatter in all direc-
tions, and it became impossible to follow them any further.

I drove into Asia and filled up the tank with gas. It wasn't long before I saw a pair of wild horses running along the highway. I went to a phone booth and found a nearby rural phone book, but after flipping through the pages, I saw that the image I hoped to find wasn't there. The thrill of the wild horses was almost fading.

I drove back to Table Mountain and began looking for signs of the wild horses. There were a few more people living in the area, and I hoped to find them. I sat down and waited for an hour of searching, which I finally began to think my efforts were hopeless.

Then I finally had some good luck. Instead of finding a mailbox with the name "Tovesten," I found a whole road named Tovesten, and there was only one house on it.

Don Tovesten came to the door in his overalls and gave me the scoop. He told me he was a logger who had the best views of the wild horses. He offered to show me around and take me on a tour of the area.

I accepted, and we set out on horseback. We rode for several hours, and I was mesmerized by the beauty of the horses. They were powerful and majestic, and the way they moved was a thing of beauty.

After circling around for a while, the horses took me to a stop near a small mountain lake. The water was crystal clear, and the horses seemed to be enjoying themselves. I sat on my horse, gazing at the beauty around me, when I suddenly heard a noise. It was a .22 caliber rifle being fired in the distance.

I jumped up, my heart pounding. The horses were startled, and they began to run off. I tried to follow them, but they were too fast. I watched in horror as they disappeared into the woods. I knew I had to do something to help, but I didn't know where to start.

I went to the nearest town and asked for help, but no one knew what I was talking about. I was completely alone, and I didn't know what to do. I was afraid for my life, and I didn't know what to do to help the horses.

But I knew I had to do something, no matter how hard it was. I dug deep within myself and found the strength to keep going. I knew I couldn't give up, no matter what.

I contacted the local wildlife agency and told them what had happened. They were amazed by what I had seen, and they promised to do everything in their power to help the horses. They arranged for a team of experts to come and help, and they worked tirelessly to save the horses.

At last, after months of hard work, the horses were safely rescued. I was overjoyed, and I knew I had done the right thing. I felt a sense of pride and accomplishment, knowing that I had helped save the horses.

Now, every time I think of those horses, I feel a deep sense of empathy and respect. I know that they were just wild animals, but they were so much more. They were a symbol of the beauty of nature, and they were something that I will always cherish.

s a check at every morning of the daily routine of the city, the Ken Club is a man-made landmark of New York City. It stands as a symbol of the city's hustle and bustle, a place where the rich and famous go to unwind. The club is a refuge from the chaos of city life, a place where one can escape from the pressures of daily life.

The club was founded in 1921 and has been a cornerstone of New York City's social scene ever since. It was named after Ken McCallum, a boxer who was killed in a gang war in 1920. The club was once frequented by many of the city's most famous people, including Al Capone, F. Scott Fitzgerald, and Ernest Hemingway.

Today, the Ken Club is still a popular destination for celebrities and politicians alike. It is located on Park Avenue near the 42nd Street intersection, and is easily accessible from anywhere in the city.

The club's membership is exclusively open to those with a certain status or background. It is not uncommon for those who are not members to see the club's members in the street or on the street corners nearby.

The Ken Club's interior is a blend of classic and modern design. The main room is decorated with plush red velvet chairs and rich wooden paneling. The walls are adorned with paintings and sculptures, and the atmosphere is one of sophistication and elegance.

The bar is a popular spot for both members and non-members alike. It is located in the center of the main room and is always bustling with activity. The bar is staffed by knowledgeable bartenders who are happy to mix up any drink.

The menu at the Ken Club is a mix of classic and modern American cuisine. The dishes are expertly prepared and are sure to please any palate.

The club has several private rooms that are available for events and meetings. These rooms are perfect for hosting a variety of events, from small meetings to large parties.

The Ken Club is a place where old and new friends can come together to enjoy each other's company. It is a place where one can relax and unwind in the midst of the city's chaos.

The club is open to members and their guests, and is a great place to meet friends or make new ones.

Every morning at 5:00 a.m., the first ocean breeze sweeps past the door of the Club. The sun is at its highest point, and the sky is clear and blue. The members of the Club are already gathered, sipping their coffee and enjoying the peaceful atmosphere.

Many of the members have been coming to the Club for years. Some even claim to have been members since the Club first opened its doors. They love the feeling of being part of a community and the sense of belonging that comes with being a member.

The Club has a variety of rooms, each with its own unique atmosphere. The main room is large and spacious, with high ceilings and large windows that let in plenty of natural light. The walls are adorned with paintings and photographs of famous artists, and the furniture is made of high-quality wood.

One of the most popular rooms in the Club is the cigar lounge. Members can relax in comfort, enjoying a fine cigar while sipping a drink from the bar. The lounge is dimly lit, with soft music playing in the background.

Another popular area is the library. Members can be found here, reading books and newspapers, or simply enjoying a quiet moment of solitude. The library is well-stocked with books on a variety of subjects, from literature to science.

The Club also has a gym, where members can work out and keep fit. The gym is equipped with state-of-the-art equipment, and the staff is always on hand to provide guidance and support.

Overall, the Ken Club is a place where members can come together to relax, socialize, and enjoy the finer things in life. It is a place where they can escape from the stresses of everyday life and find a sense of peace and tranquility.

Two Acts

JONATHAN STRATHE

Martin Scorsese's film is a touching and beautiful piece of work, a true testament to the power of cinema. The story is about a young man who is struggling to find his place in the world, and the film captures his struggles and triumphs with great sensitivity and nuance.

The film opens with a scene of a young man in a prison cell, looking out the window at the world outside. As he gazes out, the camera pans slowly from the bars of the cell to the prison yard, and then to the city beyond. The young man is clearly struggling with feelings of hopelessness and despair, and the film sets the stage for his journey ahead.

The first act of the film is about the young man's struggles with life in prison. He is first introduced to a world of violence and brutality, and he is forced to adapt quickly in order to survive. The film shows the young man's transformation as he learns to navigate this harsh world, and it is a powerful reminder of the resilience of the human spirit.

The second act of the film focuses on the young man's escape from prison. He uses his knowledge of the prison system to plan his escape, and the film captures the tension and excitement of the escape as he fights for his freedom. The final scenes of the film show the young man's reunion with his family and a fresh start in life.

In conclusion, the film is a powerful story of survival and resilience. It is a reminder of the strength of the human spirit and the importance of hope in the face of adversity. Martin Scorsese's direction is masterful, and the performances are outstanding. This film is a true masterpiece of cinema.

Jeff Smith

George E. Kellogg and Maurice B. O'Connell's political satire, "The Candidating Game," with its one-act format, was a hit in the 1930s. Its timeless appeal lies in its fundamental truth and the way it captures the absurdity of American politics.

From Art to Furnish

As we see, the art market is doing well, and there have been several highly successful auctions recently. These events have driven up prices and interest in art, making it a popular choice for investment. However, we also see that the market for furniture is also strong, with many buyers looking for high-quality, timeless pieces.

Cops & Fathers

The event is scheduled for this weekend, and we are looking forward to seeing all the attendees and the fun activities planned. It promises to be an exciting event for everyone involved.

Demon Drummers

The performance will take place in the evening, and we encourage everyone to attend. It will be a great opportunity to experience the passion and energy of these talented drummers.

For more information, please visit our website or contact us directly. We look forward to seeing you there!

In the world of rock and roll, music is often intertwined with narratives of personal struggle and triumph. One such story is that of David Lee Roth, whose career and personal life have been marked by a blend of rock n' roll resilience and occasional controversy. Understanding his journey requires a look beyond the music, exploring the human side of a rock legend.

The birth of David Lee Roth, born in 1953, was framed by the tumultuous world of the 1950s and early 1960s. His family moved to New York City when he was just a young boy, and the city's vibrant cultural landscape would later shape his musical ambitions. Growing up, Roth was exposed to a variety of musical influences, which would later feed into his future work as a musician.

Roth's musical career took off in the late 1970s, with the rise of Van Halen. The band's dynamic performances and Roth's charismatic stage presence quickly made them household names. However, personal struggles began to overshadow their success. Roth's reputation for wild behavior and self-indulgence began to overshadow his talents, leading to a rift with his bandmates in the early 1980s.

Despite the personal turmoil, Roth continued to perform and record, often working with various bands and solo projects. His 1986 album, "Eat 'Em and Smile," marked a return to form, with hits like "When It's Love" and "Somebody" showcasing his songwriting prowess. The album's success was bolstered by a tour that took him to the world's stages, further solidifying his status as a rock icon.

Throughout his career, Roth has been known for his theatricality and theatrical concerts. His performances are often characterized by bold costumes, theatrical lighting, and a dynamic stage presence that engages the audience. This has helped him maintain a devoted fan base, even in the face of cultural shifts and personal controversies.

Roth's life outside of music has been as colorful as his performances. He has been married to several women, including Tami Lynn, whom he wed in 1981. Their relationship was marked by highs and lows, with Roth often feeling the strain of his public persona. Despite these challenges, Roth has continued to create music and perform, always seeking to connect with his audience through the power of rock n' roll.

In conclusion, David Lee Roth's story is one of a rock legend who, through the power of music, has weathered personal storms to remain a force in the rock world. His journey is a testament to the enduring power of rock n' roll, a genre that has always been about finding new life and joy in the face of adversity. Roth's legacy is a reminder that, no matter the challenges, rock n' roll keeps on rocking, inspiring and entertaining fans around the globe.
NOW, YOU GET TO FACE THE MUSIC!

This Thanksgiving, stuff yourself at Govinda's!
(Naturally)

The bakers are working! The nuts are roasting! And our ovens are working overtime.

But, no! The turkey is still far and happy down on the farm. (Alas and why, we might add.)

And, once again, Govinda's brings you a real cooking interpretation of a traditional Thanksgiving buffet. It concentrates you with some of the more familiar homemade specialties that you always expect on Thanksgiving.

At Govinda's and all you can eat.
And it's happening all day long, from 11:00 a.m. to 2:00 p.m. continuously.

You're just $27.50, or just $22.50 for children under 12.

(Sorry, turkey not included)

SATURDAY NIGHT PRIME TIME
Prime Rib And Wine For Two
Each Saturday
Savor the flavor it brings to our diverse seafood, burgers and luncheon specialties. Our new Southwestern style of cooking blends the best of Mexican, California and Tex-Mex cuisine, combining the mesquite, our own salsas and some truly novel new dishes. We've also introduced a pizzeria and a build-your-own-soup bar.

WE THE CHEFS
OF CRYSTAL TS have put together our new full line that really satisfies — to perfection over our new mesquite boiler.

Welcome to
JOHNNY’S

Just blocks from the high-rise center of town, a no-frills café offers a taste of the past.

I’ve come down here every morning for twenty-seven years. To this day, I like it. My wife comes in every afternoon. She’s the soup maker and waitress. Only once, for two days, that’s the longest time we were ever closed,” said Dee Biddle, owner, with his wife Jeanette, of Johnny’s Café, on Eighth on the north side of the 100 Block of West Broadway.

“When they tear this block down, you know it’s good-bye to all this. I really don’t care. We’re near empty. We have another two years on the lease. I don’t think we’ll move. But in the last few years, it’s come time to renew, we didn’t want to. But then, we didn’t want anyone else to have the place, either. So we stay and we stay, and my poor wife, she stays and she stays. Really, it would be a blessing in disguise to take a hammer and knock the place right on down. That way we wouldn’t have to say, ‘We quit.’”
