The controversy surrounding the California condor may well outlive the species.

On Sunday, April 28, the last known California condor was euthanized from the wild. Depopulation from human interaction, this event was a great tragedy that resulted in the extinction of the wild condor as a great relief 'signaling the beginning of a new era for a bird species that had dwindled to just twenty-nine adults. The death of this last condor, however, was not the end of the story. It was the beginning of a new population of condors in a new world of controlled breeding and habitat restoration. Here's to the future.

I came to this conclusion six weeks ago when the last wild condor was brought into the safety of its enclosure. It's strange to see the village of La Jolla, California, in San Diego. The water is calm and the sky is clear. The condor, however, is not in its natural habitat. It is in a wooden cage, where it is being fed and cared for by people. It is a strange sight to see a bird that is so dependent on humans. The condor is a symbol of the California condor. It is a species that is threatened, and we must do everything we can to protect it.

Are You Tired of Feeling Sick and Tired?
A Scientific Holistic Approach to Health by K.B. McKIllican
Feeling tired? Sickness is one of the most common symptoms of stress in our daily lives. But do you know what’s causing it? Our bodies are designed to handle stress, but when the stress becomes too much, our bodies start to shut down, leading to fatigue and illness. It’s important to understand the root cause of your symptoms and address it head-on.

Enjoy this coming sundae with Mom.
Free ice cream, music, carriage rides and more this Sunday in the Gaslamp Quarter!

To celebrate National Historic Preservation Week, and Mother's Day, you're invited to a free ice cream Social, compliments of Great American First Savings Bank.

Bring Mom and the whole family for a free Sunday sundae! Live jazz by Chicago 6, Free horse-drawn carriage rides, and a souvenir photo of you and Mom. Plus, specially wading tours of historic window displays, even balloons for the kids.

Then join in our other historic events all through next week:

- Art of architecture tours of restored buildings, historic backyards and basements, and San Diego's Chinese Heritage;
- Free twilight trolley tours of historic window displays, too. Just call 233-8227 for dates, times and tour reservations.

So start with our Ice Cream Social today, 1 to 3 pm, at Fifth and K Streets (by The Old Spaghetti Factory). And sundae will never be the same.
Hawk that can see species, while the animal is often called a "condor"...

The condor is a bird of prey, native to North America, known for its large size and distinctive appearance. The species is classified as critically endangered, with a global population estimated to be around 500 birds. The condor's primary threats include habitat loss, lead poisoning from bullet casings, and competition with other wildlife species.

In the past, the condor was widespread across much of the southwestern United States, but by the early 20th century, their numbers had drastically declined due to hunting, habitat destruction, and disease.

Conservation efforts have been underway since the 1980s, with the establishment of a captive breeding program in the 1990s. This program has been successful in increasing the condor population and reintroducing the species to their historical habitats.

Despite these efforts, the condor remains critically endangered, and continued conservation efforts are necessary to ensure the species' survival.

There's something for everyone on the garage-sale circuit

by SUE GARSON

There's something for everyone on the garage-sale circuit... but be careful, says Susan Garson, there are all sorts of things to be had at garage sales. "There's a lot of stuff that's been marked down," she says. "But don't be fooled by the prices." The key, she says, is to"Always be aware of what you're looking for. Don't be afraid to haggle." She also suggests checking out the sales before they start. "You never know what might be leftover," she says. "So go early."

The 1987 NFL draft was a total snoozer, unless you were up for that sort of thing.

BY JOHN D. AGOSTINO

Saturday, April 24, 1987

The NFL draft is an event that draws the attention of sports fans across the country. The annual occurrence in sports is one of the marquee events of the year, with the top prospects from across the nation vying for the best positions in the league. This year's draft was no exception, and as sports enthusiasts gathered at home or in the stands, the excitement was palpable.

The draft, which takes place over several rounds, is a crucial event for NFL teams, as they select the best available players to add to their rosters. The draft was held at Radio City Music Hall in New York City.

The draft is a highly anticipated event, with millions of fans tuning in to watch the proceedings. The NFL draft is a high-pressure situation, with teams hoping to make the right picks and secure the future of their franchises.

As the draft progressed, the players were selected, and the excitement grew. The selection of the top prospects was a key moment, as they were joined by their families and friends to celebrate the occasion.

The draft is a significant event not only for the teams but also for the players themselves. It is a moment of great pride and accomplishment, as the players reach the pinnacle of their careers.

In conclusion, the 1987 NFL draft was a total snoozer, unless you were up for that sort of thing. Sports enthusiasts were treated to a thrilling event that will be remembered for years to come.
A Star Is Killed

DUNCAN SHEPHERD

The title of Pinter's new work is in itself a provocative comment on the nature of the human condition. The title is also a reflection of the playwright's view of the world as a place of conflict and tension. The play is set in a small village in rural England, and the main character is a young woman named Susan. Susan is married to a local farmer, but she has a secret lover named Tom. When Susan's husband discovers her affair, he becomes angry and violent, and the play explores the consequences of this conflict.

The play is a study of the dynamics of relationships, and the ways in which they can become strained and ruptured. Susan's affair with Tom is a source of conflict, but it is also a source of pleasure and excitement for Susan. The play explores the ways in which people can find happiness and fulfillment in their lives, even in the midst of conflict and tension.

The play is also a commentary on the nature of power and the ways in which it can be used to control and dominate others. The play examines the ways in which power can be used to manipulate and exploit others, and the ways in which it can be used to create and maintain social hierarchies.

The play is written in a spare and economical style, with a focus on the characters and their motivations. The play is a challenging and rewarding experience for audiences who are interested in the complexities of human relationships and the nature of power.
How to Stay Calm, Cool, and Respected

Any one of us can be in a position of power or influence, and we all need to be able to handle it gracefully. There are many ways to do this, but one of the most important is to stay calm, cool, and respected. Here are a few tips to help you do so:

1. Listen to others. When someone is speaking, try to understand what they are saying and why they are saying it. This will help you to respond appropriately and show respect.

2. Use positive language. When you are speaking, try to use positive language. This will help you to communicate your ideas in a way that is constructive and respectful.

3. Avoid using put-downs. Put-downs are a form of communication that is designed to make others feel inferior. They are not effective, and they can damage your reputation.

4. Be patient. When you are in a position of power or influence, it is easy to get impatient. However, this can be a mistake. Be patient, and give others the time they need to express their ideas.

5. Be fair. When you are making decisions, try to be fair. This will help you to make decisions that are in the best interests of everyone involved.

By following these tips, you can stay calm, cool, and respected in any situation.

96 In The Sun

Based on the novel by Jimmy Breslin

In the summer of 1969, a wild and exciting dance party was held at an old, abandoned racetrack in Chicago. It was known as the Woodstock Music and Art Festival. The music was electrifying, the atmosphere was electric, and the party lasted for three days. People from all over the world came to experience the underground music scene and to enjoy the lively atmosphere.

READER'S GUIDE TO THE MUSIC SCENE

This week the Ballet Company presented a program of neoclassical music, with a new work by a British composer, Michael Tippett. The program included Tippett's "In Memoriam," which was well received. The music was performed with precision and sensitivity by the company's orchestra, under the direction of the conductor, John Javornicki.

The Ballet Company's upcoming season promises to be even more exciting, with performances of new works by contemporary composers. The company is committed to presenting a diverse range of music, from classical to contemporary, and is known for its innovative programming.

The Ballet Company is grateful for the support of our sponsors, including Budweiser and the San Diego Sports Arena. We look forward to seeing you at our next performance.
