RUMBLE

The image on the left shows a road with a sign that reads "RUMBLE," possibly indicating a warning or a name. The context of the image is unclear from the text provided.

WHAT IF...

First reports indicate 1400 to 2000 dead, many injured people trapped in collapsed buildings, and between 5500 and 8000 people requiring hospitalization.

The town of California is currently building a nuclear power plant, a project that has raised concerns among its residents. The plant is expected to be operational in the next few years, and its construction has been met with protests from environmental groups and local communities. The site of the proposed plant is located on the west coast, near a region known for its seismic activity.

The town is located on a fault line and is prone to earthquakes. In the past, the town has experienced several earthquakes, with the most recent one occurring in 1987, causing minor damage to buildings and infrastructure. The town has implemented measures to mitigate the impact of future earthquakes, including the building of new structures using earthquake-resistant materials and the retrofitting of older buildings.

However, the recent construction of the nuclear power plant has raised concerns about the potential impact of a catastrophic earthquake on the facility. The plant's design includes measures to withstand moderate earthquakes, but there is a risk that larger earthquakes could cause significant damage to the structures and result in a release of radioactive material.

In an interview with local residents, many expressed concern about the plant's safety and the potential for a disaster. Some even suggested that the project should be halted to avoid further risks to the community.

The town's officials have defended the project, emphasizing the economic benefits it would bring to the area. They also point out that the plant was designed with safety in mind and that the town has made significant investments to ensure its resilience.

Despite these assurances, many residents remain apprehensive. They fear that the plant could become a target for protest and that any accident could have severe consequences.

In conclusion, the construction of the nuclear power plant in California is a contentious issue with significant implications for the town and its residents. The project's success will depend on the ability of the town to manage the risks associated with earthquake activity and ensure the safety of the facility.
Words with the WWII fighter pilot who shot down Japan's Admiral Yamamoto

By Kathleen Beth Mix

O

I flew more than 400 missions through the Philippines, the South Pacific, New Guinea, and New Britain. I was a combat pilot with a medal of honor for my actions in the Pacific Theater.

I was stationed in the Philippines, where I had spent most of my life before the war. I was there when the Japanese attacked Pearl Harbor. I was one of the few American pilots who managed to escape. I was captured and held prisoner for three years. I was released in 1945 and returned to the Philippines.

I spent the rest of my life working as a teacher and a consultant for the Department of Defense. I was honored for my service with the Medal of Honor.

I have written a book about my experiences in the Pacific Theater, and I have spoken at many events about my experiences. I have been a strong advocate for the veterans of the WWII.
Many Times One

The Marquis Public Theater should put a Surgeon General's warning outside its ticket window.

Warning: This Play Contains Ideas.

The six characters—the Pilgrim, the Doctor, the Sailor, the Navigator, the Lawyer, and the Soldier—are all professional comedians who have appeared at numerous comedy clubs and theaters across the country. Their act is a satirical look at the world of medicine, with each character representing a different aspect of the healthcare system. The show is presented by the inimitable Mr. Pilgrim, who is also the producer of the program. The show is a hit with audiences, and is recommended for anyone who wants a good laugh about the world of medicine.
Jazz Character

"I hate amplifiers. I think electric amps are about the worst thing ever invented."

JOHN LINDSEY

I know a little about the piano. But jazz and I don't always get along. I find that publishing the New York Times has given me a chance to think a little more about the music. I'm not sure whether the people who listen to jazz are my friends. They are a little too small to be interested in the music as such. But I'm glad that they listen to it.

I was a little surprised to find that, when I met some of these people, they were actually interested in the music. I think they like it because it's not too difficult to understand. And I think they like it because it's not too difficult to play. I think they like it because it's not too difficult to listen to. I think they like it because it's not too difficult to write. I think they like it because it's not too difficult to enjoy. I think they like it because it's not too difficult to have fun. I think they like it because it's not too difficult to have fun.

I was a little surprised to find that, when I met some of these people, they were actually interested in the music. I think they like it because it's not too difficult to understand. And I think they like it because it's not too difficult to play. I think they like it because it's not too difficult to listen to. I think they like it because it's not too difficult to write. I think they like it because it's not too difficult to enjoy. I think they like it because it's not too difficult to have fun. I think they like it because it's not too difficult to have fun.

I was a little surprised to find that, when I met some of these people, they were actually interested in the music. I think they like it because it's not too difficult to understand. And I think they like it because it's not too difficult to play. I think they like it because it's not too difficult to listen to. I think they like it because it's not too difficult to write. I think they like it because it's not too difficult to enjoy. I think they like it because it's not too difficult to have fun. I think they like it because it's not too difficult to have fun.

I was a little surprised to find that, when I met some of these people, they were actually interested in the music. I think they like it because it's not too difficult to understand. And I think they like it because it's not too difficult to play. I think they like it because it's not too difficult to listen to. I think they like it because it's not too difficult to write. I think they like it because it's not too difficult to enjoy. I think they like it because it's not too difficult to have fun. I think they like it because it's not too difficult to have fun.

I was a little surprised to find that, when I met some of these people, they were actually interested in the music. I think they like it because it's not too difficult to understand. And I think they like it because it's not too difficult to play. I think they like it because it's not too difficult to listen to. I think they like it because it's not too difficult to write. I think they like it because it's not too difficult to enjoy. I think they like it because it's not too difficult to have fun. I think they like it because it's not too difficult to have fun.
The Straight and the Loopy

We really wouldn't expect any less from the director of Local Hero and Comfort and Joy than to treat eccentricity as a universal tendency.

DURANGO, COLORADO

It is no mere curiosity to see the name of Stanley Hauerwas in the list of best films of the year. Apparitions of the Virgin Mary would have been better, but there's no denying the focus and intensity of his work, his vision and his talent. In his last film, Local Hero, he took on the role of a man who, through his own eccentricity, manages to bring the world to its knees. His latest film, Comfort and Joy, is a similar story, but this time the world is held up by a man who, through his own eccentricity, manages to bring the world to its knees.

The straight and the loopy, however, is the theme of the film. In the opening scene, a man is seen standing on a mountain top, looking out over the town below him. He is wearing a suit and tie, and he is surrounded by a crowd of people who are all looking at him. He is speaking, and they all look very happy and content.

This scene is the first of many in the film where the theme of the straight and the loopy is explored. In one scene, a group of people are standing on a street corner, talking. One of them is wearing a suit and tie, and the others are all dressed in casual clothes. In another scene, a man is sitting on a bench in a park, reading a book. He is wearing a sports jacket and a pair of jeans.

The film is a study of eccentricity in all its forms, and it explores the idea that eccentricity is not just a matter of appearance, but of attitude and perspective. The straight and the loopy are not just two different types of people, but two different ways of seeing the world.

The film is a testament to the power of eccentricity, and it shows that it can be a force for good, as well as a force for change. It is a film that challenges us to reexamine our own attitudes and perspectives, and to see the world in a new light.

QUARTER NOTES

BY JONATHAN SAVILLE

RATTLE'S MUSIC

The Los Angeles Philharmonic has announced that its upcoming season will feature a series of concerts that will focus on the music of Rattle. The concerts will be held in Los Angeles and around the country, and they will feature works by Rattle and other composers.

The Los Angeles Philharmonic has been a leader in the music world for many years, and it has a long history of presenting concerts that feature the music of Rattle. The concerts will be held in los Angeles and around the country, and they will feature works by Rattle and other composers.

One of the most important concerts of the season will be the Los Angeles Philharmonic's performance of Rattle's "The Selected Works," which will be held in Los Angeles on September 15th. The performance will feature works by Rattle and other composers, and it will be directed by the Los Angeles Philharmonic's music director, Gustavo Dudamel.

The Los Angeles Philharmonic's commitment to presenting Rattle's music has been affirmed in recent years, as the orchestra has been working to bring Rattle's music to a wider audience. In addition to the upcoming season, the Los Angeles Philharmonic has announced that it will hold a series of events in Los Angeles to celebrate Rattle's music, including a symposium, a workshop, and a series of concerts.

The Los Angeles Philharmonic's commitment to Rattle's music has been affirmed in recent years, as the orchestra has been working to bring Rattle's music to a wider audience. In addition to the upcoming season, the Los Angeles Philharmonic has announced that it will hold a series of events in Los Angeles to celebrate Rattle's music, including a symposium, a workshop, and a series of concerts.

PROJECTION PROJECT

The curated and unique collection of film and video installations during the annual "New York Film Festival," presented by the Museum of Modern Art, is now being held at the Museum of Modern Art in New York. The festival features a diverse array of films, both domestic and international, showcasing a range of genres and styles. Among the highlights of the festival is a special screening of "The Godfather," directed by Francis Ford Coppola. The screening is accompanied by a Q&A session with the director, providing insight into the making of the film. The festival also includes a selection of short films, documentaries, and experimental works, offering a comprehensive overview of contemporary cinema. The event takes place at the Museum of Modern Art in New York City, with screenings scheduled throughout the week. For more information and ticketing details, please visit the festival's official website.
OUTDOORS

Vernon and his band (1-14, 1-28, 2-18) are back with their annual New Year’s Day parade, which includes floats, music, and a festive atmosphere. The parade begins at 11 a.m. at the corner of Main and Broadway and ends at the civic center.

LOCAL EVENTS

Park Mills, the much-loved local artist, is hosting a solo exhibit at the Gallery of Contemporary Art from January 10 to 20. The exhibition features a variety of his paintings and sculptures, and visitors are encouraged to attend the opening reception on January 11 from 5 to 8 p.m.

HOST OF DENVER TEAM
Kahula KROSSWORD
A puzzling way to win a Bahamas cruise.

Windjammer Barefoot Cruises Ltd.

TOPIC: ISLANDS

Mail to:
Kahula
Dept. A2, Box 230
Los Angeles, CA 90078-0230

Rules:
1. Puzzle must be completed by crossword and returned no later than Friday, May 31, 1988.
2. Four winners will be drawn on June 1, 1988 from all entries received.
3. No purchase is necessary. Employees of Kahula, its affiliates, and all employees of Kahula and its associates are not eligible.
4. Only one prize may be awarded per household.
5. Entry form and rules are subject to change without notice.

ACROSS
1. Greek playhouse
2. Island country
3. Captain
4. Near L.A.
5. Off Italy

DOWN
1. No. __ is an island
2. Defeated by Britain
3. Island named after religious holiday
4. Rusted by Reagan
5. Brewed in Puerto Rico

Jan imagine...sun-drenched days...moonlit tropical nights...sailing barbecues in paradise. And all because you sent in Kahula's Krossword!

If you complete the puzzle on this page and mail it in, you could win one of the most popular cruises in the Bahamas.

Kahula and Windjammer Barefoot Cruises will present the lucky winner of our drawing with a fabulous six-day cruise vacation for two, including dinners.

So give this puzzle your best shot, then mail it with your favorite Kahula drink (try our own tropical delight, the Kahula Calypso). And be sure to look for other crossword entries in the coming months. There will be more to win.

Each puzzle you enter gives you another chance to win.
