SPORT OF SURFING

Formerly Hitch's
An Excellent Business Opportunity

To commemorate the official birth of surfing in San Diego, READER congratulates the 1960s with a tribute to the sport's early days. The story begins with the creation of Bonneville Surf Shop in 1955 by C. B. Hitch, a local businessman. The shop quickly became a hub for surf culture, attracting surfers and enthusiasts from around the world.

As the sport gained popularity, Hitch's Bonneville Surf Shop evolved into a thriving business. It became a central gathering place for surfers, with an emphasis on quality equipment and apparel. The shop's success was further bolstered by its association with local surfers and the reputation it earned as a purveyor of quality surf gear.

In addition to its retail operations, Bonneville Surf Shop also offered surf lessons and organized surf outings, making it a pivotal part of the local surfing community. The shop's dedication to the sport and its loyal customers contributed to the growth and development of San Diego's surfing culture.

Meet a man with no patience for medical fraud

LAFFERTY, like many others, was shocked
when he learned about the latest
medical fraud. The fact that it was
apparent in the newspapers, on the
newssheets, and even on the streets was
shocking. He decided to do some
research on the topic to see if he could
find anything that he could use to
stop this fraud once and for all.

LAFFERTY then set out to
research the topic. He found
several articles, interviews, and
reports that provided him with
enough information to take
action. He knew that he had to
act fast if he wanted to make a
difference.

In his research, Lafferty
found that medical fraud was
gettin
growing
at an alarming rate. He
noticed that many people were
being
cheated,
and
that
the
system was failing them.

Lafferty then took action. He
contacted his local
government officials and
organized a summit to
discuss the issue.

The summit was
a
success.
Many
people
attended,
and
everyone
agreed
that
something
had
to
be
done.

Lafferty
then
served
as
a
leader
in the
movement
to
stop medical
fraud.

He
began
writing
articles,
producing
videos,
and
speeches
to
raise
awareness
about
the
issue.

Lafferty's
efforts
paid
off.
Medical
fraud
rates
started
to
drop,
and
people
began
to
feel
more
secure.

Today, Lafferty continues
his
work
in
the
fight
against
medical
fraud.
He
believes
that
every
person
should
have
access
to
quality
healthcare,
and
he
will
continue
to
fight
for
that
cause.

Lafferty's
story
is
a
reminder
that
everyone
can
make
a
difference.

SURFING IS:

A sport, a lifestyle, an art form, a culture. It's a way of life for many. Surfing is about more than just riding waves; it's about the bond between man and nature, the thrill of the hunt, and the respect for the ocean. It's about community, about coming together to share a common passion.

Many surfers feel that surfing is a personal journey, a quest for inner peace and balance. It's a way to connect with something greater than oneself, to feel a sense of freedom and freedom. Surfing is a way to escape the stresses of everyday life, to let go of worries and just be in the moment.

For some, surfing is a way to express themselves, to communicate with the ocean through their movements. Others see it as a way to challenge themselves, to push their limits and see what they're made of. No matter what your reason for surfing, it's a shared experience that brings people together.

In the end, surfing is about more than just catching waves. It's about living a life that is full of adventure, of excitement, and of discovery. It's about being part of something bigger than ourselves, and about being connected to the world around us.

TALK OF TOSCANINI

When the Chicago Youth and the Chicago Civic Orchestras appear in the Auditorium Theatre on Friday, September 19, it will be one of the most exciting events of the season.
