I AM FURIOUS YELLOW

Could this be the end of affordable cab fairs?

Right now, San Diego taxi cab owners can charge any fare they like up to $1.40 for the flag drop and $1.80 a mile thereafter. Some of the city's 892 cabs are charging the full $1.80 a mile; many more charge only $1.20 a mile. Competition reigns in San Diego's taxi business. But the Metropolitan Transit Development Board (MTDB), which licenses cab drivers, is powerless to set forth a fare policy. The last time the board struggled for such authority, the cab owners paid for a consultant to fight the board's case in court. Ironically, the consultant advised the board to get tough on cab owners, and the board acceded.

WHY SHOULD YOU JOIN FAMILY FITNESS?

ASK OUR MEMBERS...

"Results: That's why."

"Great equipment, facilities and service."

FAMILY FITNESS specializes in State-of-the-art fitness equipment that can help you get results fast. We have aerobic classes throughout the day, seven days a week. Plus our 2 for 1 special lets you and a friend join Family Fitness for just one low initiation fee. So, join today and take advantage of our super low priced offer of two memberships for the price of one.

Family Fitness Centers

Now there are 33 locations in San Francisco.

• Must enroll on first visit. Monthly dues are on bank draft. Must be at least 18 years old. Incentives may be offered for enrolling on other memberships. Racquetball and babysitting are available for a nominal fee.
STRAIGHT FROM THE HIP
By Matthew Alice

Dear Matthew Alice,

You reference a study about the effect of air travel on the heart and lungs. I'm interested in what you found out about the changes in lung function after a long flight. Can you provide more details on your findings?

Sincerely,
[Name]

Matthew Alice responds:

Thank you for your interest in my research on the effects of air travel on the respiratory system. Our study involved a group of 50 volunteers who flew on a long-haul international flight. We measured their lung function pre-flight and again 24 hours after arrival.

We found that the volunteers experienced a slight decrease in lung function post-flight, but this was not statistically significant. The changes observed were within the normal range of variability and did not indicate any serious health issues.

However, we did observe a trend towards decreased lung function in the elderly participants. This suggests that older individuals may be more susceptible to the effects of air travel on their respiratory system.

We also noted that there were no significant differences in lung function between male and female participants. Our study is ongoing, and we plan to further investigate the factors that may influence the respiratory response to air travel.

Matthew Alice

P.S. For more detailed information, please refer to our research publication in the Journal of Aviation Medicine.

There were so many girls. Too many. It was a shame. There were three girls who killed themselves because of him. Didn't your father ever tell you?
A Picture of My Uncle

There are three great photographs in the book. The first is of my Uncle John when he was a young man, about ten years old. The second is of my Uncle Bill when he was a young man, about ten years old. The third is of my Uncle Mike when he was a young man, about ten years old.

The uncle's head — its pale, reeling irregular surface — is the face of the full moon. Each ear, each forehead, each indentation is a symbol of the uncle's individual microcosmic astrology.

A much more animated portrait of my uncle is shown in the pictures that are spread throughout the book. He seems to be enjoying himself, sometimes laughing, sometimes smiling, sometimes just grinning. The pictures are all black and white, and the lighting is very dim, as if he were in a dark room.

The pictures are arranged in a way that seems to tell a story. My uncle appears in different positions, sometimes standing, sometimes sitting, sometimes sitting on the floor. The pictures are all taken from a distance, and the uncle's face is framed by the edges of the frame.

The book is a wonderful tribute to my uncle, and I am grateful to the photographer for capturing so many different aspects of his personality. The book is a beautiful reminder of the many qualities that made my uncle so special.
**A Picture of My Uncle**

A young man is shown with a long, thin, white beard and mustache, wearing a black suit and a white shirt. He is standing in front of a large, ornate window that appears to be a part of an old mansion. The background is blurred, with hints of a garden or yard visible through the window. The overall atmosphere is one of solemnity and introspection.

FURIOUS

In 1977, when the city allowed independent owner-operators into the market, the number of cab companies jumped from 9 to 77. When the cab industry was fully deregulated in 1980, the number of cabs on the street increased to more than 800 in two years.

The deregulation mini-bus craze also exacted a toll on city councils, with three members resigning in less than a month. The city was left with a cabinet responsibility to manage the competition.

On the部落 the companies in action, the yellow cabs (in yellow) and the black cabs (in black) are shown in action.

In the end, the deregulation led to an increase in the number of cabs on the streets, with more than 800 in just two years. The city council was left with the responsibility to manage the competition, which led to a mini-bus craze that exacted a toll on three members who resigned in less than a month.
Evil with a Will

BY JEFF SMITH

In his book, "Evil with a Will," author Jeff Smith explores the dynamic and volatile relationship between Viola Davis and August Wilson, the renowned playwright. Smith highlights the intensity of their artistic collaboration and the personal connection they shared on and off the stage. The book delves into the challenges they faced and the triumphs they achieved together.

That we can feel somewhat sympathetic to a butcher at the end of the Playhouse's production, and we do, means that Vickery has done a remarkable piece of work.

SIZZLING SALSA

Dark, old Havana. The sound of a salsa band filled the air, and we were immediately drawn into the rhythm. The dancers, dressed in traditional Cuban attire, moved in perfect synchronization, their movements a dance of passion.

ABIT Hairy

"Here's to Houdini!"

The circus legend, renowned for his daring feats of escape, was the talk of the town. His performances were nothing short of spectacular, mesmerizing the crowd with his skill and ingenuity. But tonight was different. He was performing a new act, one that would test his limits and ours.

EIGHT HANDS ON TWO PIANOS

The event was described as a unique musical experience, with eight hands playing on two pianos simultaneously. The audience was filled with anticipation, eager to witness the synchronization and precision of the performance. It was a testament to the musicians' talent and dedication.

Performers were described as being in perfect harmony, their movements in perfect rhythm. The audience was captivated, and a round of applause erupted as the curtain closed on yet another remarkable performance.
FRIGHT NIGHT
THE TALE OF THE BUDTHIRSTY VAMPIRES.
Every year, as the harvest moon grows full, and crispy autumn leaves fall prey to the winds, an ice-cold chill cuts through these parts. A chill that stabs the back of your shivering throat with a clean, fresh flavor. A crisp, smooth taste that turns the dead of night into a celebration of life.
So be sure you keep plenty of Bud and Bud Light on hand for friends to suck down this Halloween season.
And make your Fright
Night party a howling success.

FEATURING "BLACK SHEEP WALL"
PRODUCED BY LARRY KLEIN**

ALL RIGHTS RESERVED

The first two murder scenes are paranoid epiphanies from Lancaster, Pennsylvania with an exhausted approach to music. Readily spruce that conversation on drugs, and a celebrity presence in the punk-rock, to a volume of their bands "aggrieved and evolving and evolving," magnetizing "To hear the Innocence Mission is to enter a world of uncorrupt love, hope and imagination. Over and over, you won't want to leave."
