That's the GOOD news

Story by Jon Cohen

When you hear hoofbeats, think horses, not zebras. It's an often-repeated med-school axiom that means consider the simple solution first. Dr. Clarence "joe" Gibbs, Jr., a researcher at the National Institutes of Health (NIH), hears hoofbeats, and unlike many of his colleagues, he's thinking horses.

A Model T Ford came in one color - black.

Well, that was also the plan for Carver electronics. And after several attempts they succeeded; finally all components match each other. Sound Company was able to purchase 100 of the "original color" IT-3200 CD players. Once they're gone the price will be \$116 more. This is one of the best sounding CD players regardless of price.

Determining an audio component's worthiness relies as much in its convenience and usefulness, as in its ability to provide exceptional sound. The advanced thinking behind the Carver TL-3200 is called "human engineering." The advanced features are: 4

Remote Volume Centrol

Accessed by the volume buttons on the remote control, this feature is of particular use if you do not have a remote control stereo system.

The TL-300 will decide in what order to play the disc when you select RANDOM PLAY. The six-digit display gives you a visual check on track, disc playing time, and time remaining.

Digital Time Lens

When Bob Carver first listened critically to CDs, he immediately detected differences between the digital version and well-mastered analog versions. These differences continue to exist on many compact disc releases. The Digital Time Lans restores both the lost ambience and the balanced response originally intended by the mulsician and recording engineer.

Naming Names

One wonders, after reading the article on San Diego's favorite names for children ("City Lights," November 9), what is behind this movement — begun by parents about ten years ago — to give children these ridiculously protentions named?

The favored boy's names evoka stalewar Bugital gentlemen strelling stalewar strelling stalewar strelling manner are supported for a Puritar until or a binshing Victorian Isas stagoping through the heather. San Digge children in their little T-hitrs, Nikes, and pinel rungiasses, or a typical crowd of cyteids, coday, between the control of the control children these ridiculously pretentious names?

Is it another symptom of the self-obsessed posturing and narcissism of the '80s, or is this retreat into a fantasy world of foth-oentury Gothic romance a pathetic reaction to the frightening ugitness and breakdown of our culture?

Single San Diegans: If You're Free, So Are We.

Introducing Reader Priore Marches, a Great, New Way to Meet Single People. You are provided with a free personal matching ad in the Reader Classifieds. You also receive a free "voice mailbox"— a phone service that allows you to record and receive messages from any touch-tone phone.

HOW TO PLACE YOUR AD: Fill out the coupon below and mail it to us. The first
15 words are free; additional words cost 60¢ each per week. Ads pleed by
mail run for two weeks. We'll send you a 5-digit mailbox number (to be printed in your ad) and a 4-digit private security code for exclusive access to

your responses. You can also place your ad by phone (235-8200) or in our office at 1703 India Street (at Date), Downgown. There is a \$10 per week fee for the first 15 words, and additional words cost 60e per week (two-week minimum). The voice mailbox is free. Ads placed by phone are with Visa or MasterCard only. HOW TO USE YOUR VOICE MALBOX: After you receive your mailbox number and private security code, you can record your personal introduction. Call 527-1966, 24 hours a day, and follow the easy instructions.

Use your introduction to tell more about yourself than your ad does (see below for guidelines). Give your first name: but DON'T give your last name, honen number or address. Make sur you ask your callers to leave their names, phone numbers and the best times to call them. You can re-record your personal introduction whenever you want. All introductions are reviewed by the Reader and go on-line within 24 hours.

To listen to your responses, call 527-1966 any time, 24 hours a day, and follow the easy instructions. You can replay any response or move ahead to the next one. If you choose to move ahead, the previous response will be erased, so have a penicil and piece of paper ready! You must have a touch-tone phone to record a personal introduction or listen to responses.

PRESIDENT BILL By Wm. L. Brown @1989

Olidays are a time to celebrate the old traditions, the very old traditions, the ones observed by our ancestors before missionaries imposed a certain Judaean cult on them. First we changed the national holiday from the 25th to the 21st of December the Solstice On that day we torched the National Yule Log to make the National

Bonfire, accompanied by a ritual fertility dance, all televised. In the old days they would have slaughtered an ox for a feast, but as many in my administration, myself included, were vegetarians, we

made a substitution.

In recent years, automotive sound systems have increased in complexity, sophistication and price. Equalization, multi-amplification, digital discs, advanced noise reduction, and monitor-quality speakers have resulted in systems capable of wide dynamic range and high volume levels. Yet ruse mustcal purity in the mobile environment has largely been ignored. Until now. Soundstream amplifiers, digital crossovers, tuner/decks and cassetter/receivers produce the cleanest, smoothest, most detailed and open sound available. And now for a limited time Precision offers REE installation on all SOUNDSTREAM

products purchased here. That's right: a FREE PRECISION INSTALLATION!
