On Saturday night, February 24th, the grand neon marquee over the Loma Theater will light up the sky again, as a new star is born. California's newest BOOKSTAR, A discount bookstore so breathtaking that it could only open in San Diego's own Theater of the Imagination.

Like its beautiful sister store in the new Costa Verde Shopping Center across from UTC, the BOOKSTAR in the Loma Theater has four times the

2.000 magazines. All discounted to every customer every day. A wall of bestsellers wider than a movie screen, with New York Times bestselling hardbacks and paperbacks always 1/3 off. And from 6PM to 10PM on February 24th, you can celebrate like it's 1945 again, under murals re-

created from the original theater design.

Paul Krueger's "City Lights" article last week reported that the land area of Camp Pendiction was 195,000 square miles. That was an editing and proofreading blander, but Krueger has to take some blame. If he'd been writing about Spain or Thailand in the first place, the figure would have been accurate.

Destined to become another legendary Klipsch speaker, this is the new Quartet. A tractrix Destined to become another tegendary kilpsen speaker, this is the new questies. A factor, hybrid design, the midrange hom of the Quarter provides extremely uniform dispersion, both horizontally and vertically. You get a stereo image of greater width, depth and stability. Using computer-modeling, Kilpseh engineers developed a new voice-coil-vented woofer for exceptionally clean, tight bass. Working in harmony with the rear-mounted 12" sub-bass radiator, this new woofer delivers higher output with less distortion. Like other Kilpseh speakers, the Quarter is meticulously crafted from your choice of genuine wood veneers. Each pair is matched for color and grain. \$1,050/pair (in walnut or oak)

The Denon DCM-444 is a brand new six-disc CD changer that gives you access to more of your favorite music. A double super-linear converter and eight-times over-sampling 20-bit digital filter with noise shaping are among the cutting-edge performance features. Convenience and flexibility are yours, too, with 32-selection program play, full random play, program random play and sequential random play of six discs. Wireless remote control is included. \$450

The NAD 6325 is a "no frills" cassette deck that emphasizes performance. The affordable 6325 includes two special circuits that enhance sound quality in the two most popular uses for a stereo tape deck – listening to pre-recorded cassettes and making recordings for playback in the car or in a personal portable player. Play Trim equalizes response in the top two octaves, restoring the brilliance to storebought tapes. When you are recording tapes for playback in your car or portable player, the CAR (Compensated Automobile Reproduction) processor boosts and equalizes low-level signals, ensuring that even the quietest passages in wide-range CDs remain clearly audible above distracting background noise. \$249

White belts them out with sass and style, as fearless as "Fats" himself. Her endiation of "Mean to Me" is one of the show's highlights. As is Eric Riley's

days. Cracked in several places, the set is more an eyesore than an ally of the production. Also, the cast plays almost exclusively to the first few rows of the house, seemingly, oblivious to the fact that two thirds of the audience at the Lyceum is sented in the halcony, high above the stage. But these annoyances are largely external and don't detract for long from
