"A heavy-weight's speed is in his hands, and Foreman still has that."

BY NEAL MATTHEWS

A portion of the passage is not visible due to the image quality. However, it appears to be about a boxing match and the skill of a boxer, Foreman, who has speed in his hands.

Small and very plain, dressed in jeans and a big T-shirt, she was on crutches and had a large bandage across her forehead.

Immediately I thought "battered wife."

"My roommate comes home," she said. "I wish he was here."

"Victor," I said. "He was a man of words."

"Patty," I said. "He was a man of action."

"I was just out in the yard," she said. "I thought I heard him say something."

"He was always doing things," she said. "I never knew what was going on in the house about that man."

"I was just trying to do my homework," she said. "I had a lot of work to do."

"You understand," she continued, "when you're a student, you have to work hard."

Copley

In America and in other countries, a government job is a significant undertaking. It is not easy to find a place where you can manage the affairs of the community and run a business at the same time. But in America, it is possible to find such a place. The Copley family has done just that with the Copley News Group, which includes the San Diego Union-Tribune, the Los Angeles Times, and the Orange County Register.

Mrs. Copley made a decision that if we are to properly manage these papers, we need some of the management rights.

I was very much in favor of this decision. There were many who thought that we should have all the management rights. But I believed that we needed the ability to make decisions that are best for the company. This decision has allowed the company to grow and become a major player in the media industry.

On June 1, 1987, the San Diego Union-Tribune, the Los Angeles Times, and the Orange County Register were sold to the Copley News Group. This was a major event for the company, as it allowed them to expand their reach and influence.

In conclusion, I believe that the decision made by Mrs. Copley was the right one. It allowed the company to grow and become a major player in the media industry. I am proud to be a part of this great company.
Copley

The U-1 wants its circulation managers to begin using their own vehicles, rather than company-supplied vans. The issue has developed into a major snag in the talks.

The new proposal appears to have particularly irked the Copley, where the cost of fuel is much higher due to the high mileage of the fleet. The Copley has been using its own vehicles for years, but the recent rise in fuel prices has made it more expensive to operate them.

The Copley feels that the proposal is a way to reduce its costs and increase efficiency. However, the circulation managers argue that their use of company vehicles is necessary to ensure the timely delivery of their publications.

The U-1 has been trying to negotiate terms that are fair to both parties. They are hoping to come to an agreement that will allow the Copley to continue using its own vehicles while reducing their costs.

The negotiations are expected to continue in the coming weeks. Both sides are committed to finding a solution that works for everyone.

NEW UNIQUE TRAINING SHOWS YOU HOW TO TURN YOUR FEAR INTO THE POWER TO ACT

DOES FEAR CONTROL YOUR LIFE?

It just doesn't add up.
You're smart, talented and mostly successful. But something's missing. You're asking medals. Something's keeping you from reaching the depths you know you could be.

Sometimes called fear:

How is fear holding you back - right now?
Does fear keep you from getting a fulfilling, vibrant relationship? Does it stop you from healing the job or career of your dreams - because you're never quite ready to?

How many financial and personal opportunities have you missed out on because you were afraid - or insecure - or uncertain?

Has fear kept you from experiencing and accepting and living life to its fullest?

You're not alone.
There are more of us than you probably think. We're the "inner circle" people. The ones who don't nearly reach their potential. The ones who feel stuck, afraid, or uncertain. The ones who just can't seem to get their lives together.

You see, fear is the number one reason people don't reach their dreams.

Some call it the greatest "hidden epidemic" of the late 20th century.

How much could you accomplish if you could:

- Break through your fear now?
- If you could overcome your fear - and take confident action to reach your dreams - How would that change your life?
- What new opportunities would you embrace?

How much more money would you make?

What kind of relationships could you enjoy?

Close your eyes for a moment and imagine what your life would be like if you knew you could handle whatever came up.

Exciting isn't it?

Whatever your fears, we can help.

We're the W.I.N. Corporation, and we've been researching what makes people successful for nearly eleven years.

We've discovered that most fears are simply "learned responses" that can be unlearned with the right tools. Often you can eliminate your fear, or simply take action in spite of it.

We've developed a full-day training that can show you how to change your fear of failure into the self-confidence necessary for success.

How the W.I.N. training can change your life

The W.I.N. training has helped over 2,000 people turn their fears into the power to act.

The result?
One Orange county woman silenced the training point by point. Speaking in public, in fact, when asked to address the group, she began shaking uncontrollably. In less than twenty minutes, she spoke to the group of 53 - completely calm, smiling, and self-possessed. And that's only the beginning. She returned home, joined Toastmasters, and went on to win a trophy for best beginner speaker!

A San Diego man overcame his 16-year fear of rejection and lost 34 pounds.

Another woman increased her income by 65%.

More than a few couples have saved their relationship after going through the W.I.N. training.

We have literally hundreds of success stories. Call us, and we'll gladly share them with you.

How will you benefit?

At the W.I.N. training, you'll learn:

- How to use the magic of positive programming to change your fears.
- How to take control of learning success.
- How to grow confidently.
- How to change your thinking patterns.
- How to take charge of your life.
- "Secret" techniques that will remove 95% of your fear in less than 20 minutes.

PLAIN RACY

We couldn't help but notice the racy language used in the advertisement for the latest issue of a popular magazine. The ad promises a thrilling adventure that will leave readers breathless. However, we think it's important to consider the impact of such content on a wider audience, especially children and young adults. As responsible citizens, we should strive to promote positive values and encourage more family-friendly entertainment options.
