Our Phone Matches No Longer Need An Introduction. **But You**

Introducing Reader Phone Matches. A Great New Way To Meet Single People. Free.

It works by providing you with a free personal matching ad in the Reader Classifieds. You will also receive a free "voice mailbox"—a phone service that allows you to record and receive you. There's no need to reveal messages from any touch-tone phone.

Phone Matches are:

Simple. The Phone Matches system guides you, put yourself on the line today? step by step. You can re-record your introduction

any number of times—until you are satisfied with it. Quick. It's not necessary to open a P.O. box and

wait for letters. You can listen to your phoned-in responses any time, day or night. Confidential. Only you can

listen to your responses. Respondents wait to hear back from your phone number or address.

So if you're free, why not Turn to Section 3 for details.

STRAIGHT FROM THE HIP By Matthew Alice

Dear Matthew Alice:
Vesterday, I was westering a bird stiring in a
tree. It looked like it was sort of dozing off,
and it sademly occurred to me, How do birds
keep their grip on the limb when they sleep?
Do they prop themselves against something
to they don't fill out of the tree? Do they sleep
in nexts?
Mary 2D.

Birds that sleep perched in trees have a
nifty little pulley system in their legs that
pretty much guarantees they won't take a
nosedive onto the grass when they drift off
to slumberland. The bird lands on the tree nosadive onto the grass when they drift off to stumberland. The brid lands on the tree to stumberland. The brid lands on the tree to stumberland. The brid lands on the tree to for its knees. As that joint bends, two flexor tendons tighten and cause the brid's toes to card firmly around the perch. As long as the did stays in that position, its grip on the tree to the stays of the position, to grip on the tree of the stays of the position of the part. In flexor tendons are the equivalent of our calf muscles. And it's currous, but the part of a perching bird's leg that is bare of feathers in actually a very long extension of starbers in extension of the part of a perching bird's actually walk on their toes, not all the starbers of the part of

THE NATIONAL HEART ATTACK RISK STUDY

What's Heart Disease?

C ardiovascular disease is this country's number one killer. Every 32 seconds someone dies from it. Vet most Americans do not know the five key risk factors associated with cardiovascular disease - cholesterol, blood glucose, blood pressure, excess weight and smoking. Or what to do if they are at risk. But now you can find out as part of a nationwide study.

Heart Profile - Your Risks

This privately-funded, five-year nationwide project will study cardiovascular disease and what people can do to be healthier. Throughout the country, 500,000 people will be enrolled. In San Diego, 10,000 people will take part in Heart Profile, sponsored exclusively by Sharp HealthCare and KGTV/San Diego's 10.

It's Easy To Join

Joining is easy. Just call to schedule an appointment for a free, 30-minute Heart Profile screening. You'll find out your cholesterol, blood glucose and blood pressure levels as well as be evaluated for body weight and smoking. Then if you choose to become a member, you'll be checked on all risk factors twice a year over the next five years for only \$10 each time. That's all you have to do.

Get The Facts

As a Heart Profile member, you'll receive practical information to help you lower your risk of cardiovascular disease and heart attack. And you'll also be eligible for discounts on Sharp education classes that teach you how to take care of your heart.

For more information on Heart Profile or to schedule an appointment call 1-800-233-3400. And find out your risk of cardiovascular disease.

Somehow they determined my sister was the one who ate it, and they rushed her off is to the hospital. I guess by the firm they got there, my sister fessed up, and they had to come home to get me. I don't remember much of it. They took me to the hospital, and my stomach was pumped. I survived.

All you have to do is fill in the answer key with arbitrary letters and then solve the puzzle as you would any normal cryptogram. The message was from Isaiah 40-4.

Every valley shall be exalted, and every mountain and hill shall be made low; and the crooked shall be made straigh and the rough places plain.
