This is the time of year when the natural world transformation begins. The leaves turn and fall, the temperatures drop, and the days grow shorter. It’s a time of transition and renewal, a time to appreciate the beauty of nature in its changing form.

Pledge night itself is, to some degree, a fabrication, far better at raising money than telling the truth.

He said, "Oh, by the way, I should tell you something that's going to happen, because you might read about it in the newspaper."

"I'm afraid we're going to have a bit of a problem," Mr. Jones said to the committee. "The program director wants to use the money for a new set of equipment, but the budget is tight."

The public face of KFBS is seeking a new engineer to replace Mr. Smith, who has left to join a rival station. Mr. Smith was responsible for maintaining the station's technical operations and ensuring it was ready for prime time. Mr. Jones explained that the search for a new engineer would begin immediately, and that the station was hoping to find a candidate who could start in a few weeks.

The station's technical staff had been working overtime to keep the station on the air, and Mr. Jones added that the station was facing increased costs due to the ongoing maintenance. He urged the audience to support the station financially and ensure its continued success.

Mr. Jones then addressed the audience, saying, "We're facing some tough challenges, but I'm confident we can overcome them with your support. Thank you for your commitment to KFBS."
In the TV-movie version, Anne and I realize that we must adopt Elizabeth that is the child for us. One of us will quit work or school to give her the quality of time she will need for years to come.

TROMBONE TIME

The trombone is an instrument that has evolved over time. Its origins can be traced back to ancient civilizations, where it was used in military bands. In the 17th century, the trombone became more popular in orchestras and ensembles. Today, it is a staple of jazz and brass bands.

TRISTAN THE SAILOR MAN

Tristan is a character from the opera "Tristan und Isolde" by Richard Wagner. He is known for his tragic love for Isolde, which ultimately leads to his death. The opera is considered one of the greatest works of the Romantic era.

SIXTIES FLICK

The 1960s were a time of great cultural and social change. The Vietnam War, the civil rights movement, and the counterculture all played a significant role in shaping the decade. Films from this period often reflected the issues of the time, such as the Vietnam War and the role of women.

A FIGHTING DANCE

The film "A Love" is a Vietnam War drama that explores the complexities of love and war. It follows the story of a soldier who falls in love with a Vietnamese woman, and the challenges they face in maintaining their relationship.

African percussion provided the driving rhythms for the film. The music was composed by David R. Louder and featured a variety of instruments, including drums and percussion, played by members of the film crew.
