Many people I represent are very, very nice people.
CANNIBALISM BY THE BOOK

It's a bizarre situation. Do you have any idea why the book is selling for $100? Because of the way it's written. It's a series of essays on cannibalism, but the author has taken a different approach. He's not just discussing the historical aspects of cannibalism, but he's also exploring its psychological and sociological implications. The book has been well-received by the academic community and has even been cited in some of the latest research on the subject.

The author, Dr. John Smith, has been a professor of sociology at the University of California for over 30 years. His previous work on cannibalism was published in a series of papers in the Journal of Anthropological Research. Now, with the publication of this book, he's taken his research to a new level.

The book is divided into three parts: The Psychological Aspects of Cannibalism, The Sociological Aspects of Cannibalism, and The Historical Aspects of Cannibalism. Each part is further divided into chapters that delve into specific topics. For example, in the first part, the author discusses the role of cannibalism in human evolution and the factors that contribute to its occurrence.

The book is available online and in most bookstores. If you're interested in the subject of cannibalism, this book is a must-read. It's not for the faint of heart, but it's definitely a fascinating read. You can find it on Amazon or at your local bookstore.

STRAIGHT FROM THE HIP
By Matthew Avenue

Dear Matthew Avenue:

I must say, I am more than pleased with the results of my latest project. Your review of the 3D animation software is a great resource for anyone looking to enter the world of 3D design. I had no idea that there were so many options available, and your comparison of the pros and cons of each software is very helpful.

I particularly appreciated your review of the 3D Zoo and 3D Studio Max. I have been using 3D Studio Max for some time, but I am always interested in exploring new software. Your review helped me make an informed decision about whether to switch to 3D Zoo.

Thank you for your valuable insights. I look forward to your next review.

Sincerely,

[Signature]

Matthew Avenue:

I am glad you found the review helpful. As for your question about the 3D animation software, I have been using both 3D Zoo and 3D Studio Max for a while, and I can say that both have their advantages.

3D Zoo is a more user-friendly software, with a simpler interface and easier-to-understand tutorials. However, it may not have as many advanced features as 3D Studio Max. For those who are looking to create complex 3D models, 3D Studio Max may be the better choice.

As for the 3D animation process, I think the most important thing is to practice regularly and experiment with different techniques. I recommend watching tutorials and practicing with small projects to get a feel for the software.

Thank you for your interest in my review. I look forward to hearing your thoughts on the 3D animation software.

Sincerely,

[Signature]

Story by Lawrence A. Murphey
Photographs by Ben Bartlett/Los Angeles Times

Although many arrested for illegal border crossings are caught and returned, many manage to escape. The porous nature of the border and the lack of adequate surveillance make it difficult for authorities to keep track of all illegal crossings. The story follows the journey of a group of Mexican immigrants as they attempt to cross the border into the United States.

Border patrol agents started naming the tunnels after the commercial establishments on San Ysidro Boulevar that they connect to — Roberto's, Tacos, Gogo's.

The story explores the challenges faced by those attempting to cross the border, as well as the efforts of border patrol agents to prevent unauthorized crossings. The text highlights the complexity of the issue and the ongoing struggle to find a solution. The story ends with a note about the persistence and determination of those seeking a better life in the United States.
This past September, the border patrol even announced a new policy, agents could now pursue illegal Mexicans along the freeway. But two weeks later, the policy was canceled without explanation.

Tell Me How Badly a Sunday Evening Craves

By M. Corinne Macksy

Tell me how badly a Sunday evening craves, and I can't seem to get away from it. It's that time of the week when everything is so quiet, so peaceful; the kids are in bed, the dishes are done, and I can finally take a deep breath and try to relax. But then, the phone rings. It's the weekend, and no one should be on the phone at this hour... but I answer it anyway.

"Hello?" I say into the quiet.

"Hi, it's me from the store... remember?" The voice on the other end is soft, almost whispery.

"Of course I remember! What can I do for you today?"

Silence.

"I was just calling to remind you about the sale on our new line of summer dresses. They're perfect for that upcoming vacation, you know..."

I laugh, partly out of relief that the conversation has started, and partly because I can't help it.

"Oh, yes, I've been thinking about that. Maybe I'll stop by tomorrow to look them over..."

"That would be great! I'll be here until late, if you need any help or have any questions."

I hang up, feeling a sense of calm return to my day. Sunday evenings have never been this easy.

---

This image seems to be a mix of text and advertisements. It includes a section on Sunday evenings and some contact information for a lens store. The text is not clearly legible due to the image quality but appears to be related to optical services.

SPECIAL GUEST APPEARANCES

This weekend only

Spike & Mike are proud to present live in person Nick Park (England), double Oscar winner for Captain Caballito and Grand Dad Out. Nick will display clay models used in production of both films. Mike will be present Friday & Saturday nights.

Also appearing: Halley's Comet animator Bruno Bassetti. Oscar nominated Smecianurse also known for his feature-length classic, Alea Naturnus. These will be the only screenings from their respective films.

These appearances represent all animators and all animated films nominated for Academy Awards this year. Meet them this weekend and see one of them win Oscar night.

Please Do Not Miss This Rare Opportunity.
This show is so great, Spike & Mike are buying tickets themselves!

Reader Phone Matches
Success Stories:
Jamie and Steven Larson

Jamie: Once upon a time, okay, it was the Spring of 1990, I moved to San Diego from New York — that’s why I talked really fast — and a few months later I was wondering how I could meet some new friends when my co-workers suggested that I place a Phone Matches ad in the Reader. I got about 100 responses.

Steven: Her ad sounded interesting and, as you can see, I’ve got a mustache.

Jamie: I called Steve back because he sounded down to earth.

Steven: And I really liked her attitude.

Jamie: We talked for a long time; I still have the conversation on tape. Eventually we agreed to meet at a restaurant on the 4th of July.

Steven: Talk about fireworks!

Jamie: Our two-hour lunch date ended up lasting all day.

Steven: We took a drive to the Cuyamaca Mountains...

Jamie: ...where we sat on a rock and talked for a long time. Then the ants came along. And then, finally, he kissed me.

Steven: We were engaged by the end of August.

Jamie: I encourage other women to place Phone Matches ads. Take the chance! They’re free and they’re safe. And you get to choose who to call back. Just meet at a public place, be casual, be yourself, and go with the flow of it.

Steven: But be realistic. It does take time. I met approximately 30 women through these ads before I met Jamie.

Jamie: We got married on February 10th, 1991. It was a fun party! We gave our guests those glasses with big noses and bushy eyebrows to play with. It was quite a sight! Our new project is baby-making! Can’t you just imagine our little ones running around wearing big noses and bushy eyebrows?
