You couldn't have picked a better place to find a permanent or temporary job.

Introducing the San Diego Reader's

Reach many unadvertised job openings in San Diego county.

Because it is extremely expensive to advertise job positions in th daily newspaper, many employers and employment agencies list only a small fraction of their available positions. The San Diego Reader Job Finders Hotline is different. It's a place where San Diego employers can list all of their jobs. And it's a convenient place for you to apply for them. (Employers call 235-3000 to list your jobs here.)

Discover that finding a new job is no longer a full-time job.

Using your touch-tone phone, you can now hear 24 hours a day about positions that you are interested in. Prompts quickly guide you to up-to-date job listings in your particular field. New jobs are listed each business day and as soon as a position is filled, it is removed from the hotline.

The best jobs go quickly ...

and one of them may go to you. During a 4- or 5-minute call, you can listen to a few job listings in your line of work and, in some cases, leave a personal message for an employer which expresses your interest in a particular position. Some Hotline listings also appear as printed ads in the Reader; but you can respond to them on the Hotline before they are printed in next Thursday's issue.

Free Job Finders Handbook

Everyone who calls 1-900-844-JOBS may request our free handbook which describes in detail how this job service works. The handbook also includes information about San Diego's employment market, resume preparation advice and tips that will help you perform better in job
