Over the years, the following stories have been offered as explanations of the margarita's origin and/or name.

1. A Virginia City, NV, bartender named the drink for his girlfriend after she was killed in a barroom shootout. The story seems to be set before 1900, but is probably of more recent origin.

2. The cocktail was developed by a bar-tender at Caliente, c. 1930.

3. Dona Bertha, owner of Bertita's bar in Taxco, Mexico, invented it in 1930.

4a The drink was named c. 1940 for Margo, the Mexican dancer who later mar-ried Eddie Albert.

There was a girl who shook the drinks in some Mexican bar in the 1930s, and her name was Margarita.

**6.** Daniel Negrete, bartender, invented the margarita at the Garci Crespo Hotel in Puebla, Mexico, in 1936.

8. It was invented at the Tail o' the Cock restaurant in Los Angeles (Sherman Oeks) in the 1950s.

9. There was a woman named Margarita king, who owned the Hamilton Ranch during the 1940s. (Note that this is almost identical to the story offered in the accompanying story by retired newman John Beck: significantly, this is the version given by Richard Hussong of Hussong's Cantina in Ensemada.)

In addition, it should be noted that there In addition, it should be noted that there are everal drinks with names similar to margarias. Vis Bergeroth 1948 Barender's Goide describes a Margaerite, involving Pernod and Inne and grensdine, and there is quite amother Margaerite drink listed in other books. Be on the lookoout also for the margarata (spelling varies) and "Celebrity" cocktails named Margaerit Tius-and-Such.

Last year alone, over 25,000 men and women in San Diego were handcuffed, booked, jailed, humiliated, and censured as a result of drinking and driving.

## If that's not your idea of a good time, call SOBER CHAUFFEUR.

### We have the life saving alternative.

We have the life saving alternative.

Maybe you wouldn't mind being fingerprinted and going to jail. Or having your car impounded and your driver's license taken eavy. Or
paying up to three times as much for automobile insurance when you finally get it back. And that's the
good news compared to being in an accident where
people are injured, or killed.

The problem has been that alternatives
are limited. You can try to designate a driver. You
can call a cab. Or you can 'risk if by driving. Risk
your carrier, your license, you life and the lives of

your career, your license, your life and the lives of

others, or jail.
It seems like there should be some other choice. Now, there is. SOBER CHAUFFEUR.

### How SOBER CHAUFFEUR Works.

All you do is call the SOBER CHAUF-FEUR Hot Line, and our dispatcher promptly radios the unit nearest your location. One of our profes-sionally dressed and bonded teams of drivers arrives to pick you up, as well as anyone with you,

### You, and your car arrive safely.

One SOBER CHAUFFEUR team member drives you in your car. You simply sign the required forms and take the passenger seat for a safe and comfortable ride to your destination. Others in your party are delivered along the way.

### Quick. Convenient. Inconspicuous.

The second team member follows in an unmarked car to pick up your driver. Once you have arrived, your car is parked in its usual spot, and your keys are returned.

No 'morning after' stigma.

In the morning, both you and your car are
in the same place, ready to go. No delays or cab
rides to go back for your car. No wondering if your
car has been damaged or stolen during the night.
No embarrassing explanations to friends or neighbors. And best of all. no overright in jail!

The amazing thing about SOBER CHAUFFEUR is how simple, economical and sensible it is,
and why it hasn't been available before.

With the follow-up to Billboard's 1991 "World Music Album of the Year", Stronz & Forah combine flamenco, clossical, and jazz influences in a celebration of Spanish puitar. This ten-song collection extends the boundaries of classical guitars in pop music, but never abandons their audience, or the rich history of their tradition.

Chris Mars exhibited a unique blend of reckless abandon and controlled musicality. Now add singing, songwriting, and the playing of multiple instruments to the mix. You get Chris' 14-song solo debut, and the emergence of a impressively sensitive artist...who rocks like crazy.
