ROMANCE WRITERS OF AMERICA SELL THEIR DREAMS

STORY BEGINS ON PAGE 20
"What people call mysticism or voodoo is just normal body melanin. That's why we get happy in church."

**The Real Dr. Huxtable**

By Jesse Smith Scott

Over the past few decades, the image of a black doctor in a white coat has been a prominent one in society. This is the image that often comes to mind when we think of a medical professional. However, in recent years, we have seen a shift towards more diverse images of doctors, including those who are African American. This shift is a reflection of the changing demographics of the medical profession, and it is an important step towards creating a more inclusive and accessible healthcare system.

By focusing on the lives and experiences of African American doctors, we can learn more about the challenges they face and the unique contributions they make to the field of medicine. It is important to recognize these contributions and to celebrate the diversity of the medical profession.

**Streets of Asian Dreams**

By Margaret Strohan

The streets of San Francisco are alive with the sights and sounds of the city's vibrant Asian community. From the bustling Chinatown to the serene Japanese Garden, these streets are a treasure trove of culture and history. Whether you're a local or a tourist, there's something for everyone to enjoy.

During 1991 and 1992, rents on new storefront leases dropped about 35 percent.

**Gay Refrain of Biax and Latis**

By Rose Emma Scott

May 18, 1985

The bar is hopping. The music is blasting. The drinks are flowing. This is the scene at the Gay Refrain of Biax and Latis, a popular gay bar in San Francisco. The atmosphere is electric, with people of all ages and backgrounds coming together to dance and celebrate.

"I'll walk with you, so nobody bothers you. It's dark out."

a week fluid diet, with a big green smoothie for breakfast and a small salad for lunch. After a few days, her stomach felt noticeably flatter. This is why eating more fruits and vegetables is such a great idea. It's not just about getting more nutrients, but also about digestion. Eating more green foods can help break down food more efficiently.

Spencer Tracy’s Protege Goes to Medical School

by Toni Volk

When the leading character of "Dr. Doolittle" announced his intention of going to medical school, he was met with ridicule. "You mean you're going to be a doctor," said the colleague. "Why, you can't do surgery with your left hand," was the general chorus. But Dr. Doolittle persisted, and finally achieved his goal. His story is one of triumph against odds, a tale of perseverance and determination.

The same story can be told about Spencer Tracy's protege, who was accepted into medical school despite facing numerous obstacles. From a humble background, he worked hard to make his dreams a reality. His success is a testament to the power of determination and the importance of pursuing one's goals.

Cromwell, too busy with his studies to read newspapers or listen to the radio, had no idea the troubles Tracy had been having.
Dear Spence

I am writing to express my concern about the recent developments in our organization. As you know, we have been facing some challenges lately, and I believe it is important to address these issues openly and honestly.

The leadership team has been working hard to find solutions, but it seems that our efforts are not being acknowledged or appreciated by the stakeholders. This is causing morale to decline and affecting our ability to operate effectively.

I understand that change can be difficult, and I am committed to supporting our team through this process. However, I believe that we need to communicate more clearly with our stakeholders and show them that we are taking their concerns seriously.

I would appreciate it if you could take some time to listen to my concerns and provide guidance on how we can move forward. Let's work together to find a solution that benefits everyone involved.

Sincerely,
[Your Name]

### LOCAL EVENTS

**"When I Die, Every Flag Will Show Up At My Funeral"**

Judy Garland, The Gays' Own Cult Heroine

On Sunday, Oct 9, IFPS will honor Judy Garland, the superstar whose films remain some of our favorites beginning in the late 20's and continuing into the early 70's. A former IFPS member, Judy's name means a lot to many of us, but we never really appreciated how much she meant to the world. After her untimely death from a heart attack in 1969, at the age of 47, Judy's legacy lives on. During IFPS, we'll be showing a series of her movies, including "Meet Me in St. Louis," "A Star Is Born," and "Full of Life," which will give us a chance to appreciate her talent and her contribution to the world of cinema.

**What's In My Mind After Death**

For Marvin Stein, Aging Well by No Accident

On Saturday, Oct 8, IFPS will present a workshop for those interested in aging well. The workshop will be led by Marvin Stein, who has written extensively about the topic. Stein will discuss the importance of maintaining a healthy lifestyle, both physically and mentally, as we age.

**The Attorney General Comes Home**

San Diego Issues The Amazing To: Places

On Friday, Oct 7, IFPS will host a special screening of "The Amazing To: Places," a documentary that explores the life of the late San Diego attorney, Jack To. The film will be shown at IFPS headquarters.

**Phone Matches Success Stories:**

**Andy Mirabelli and Morgan Wonderly**

**CLASSY, VERY ATTRACTIVE, **Transporting: **San Diego Reader Phone Matches 1-900-844-6282**

**Andy:** All the nice things about Phone Matches is you know pretty well where each other match and there's no game playing once the purpose is clear.

**Morgan:** We discovered we both had a bit of romance-like flair, dining, dancing, and being creative. We found we can even work together. I started doing the design work for Andy's country music act. Morgan's operation.

**Andy:** It worked out great. I discovered Morgan's skills as a stage designer and decorator. He is right in what I needed in my business. Shortly after we met, we formed a company, Morgan and Andy, and hired a client and became a major developer in the entertainment industry. Morgan handled the whole thing. I just showed up and received the money.

**Morgan:** Andy's design work and promotion stayed the same.

**Andy:** What I loved about San Diego Reader Phone Matches was that I could call for a date or a friend. Morgan showed up, and I didn't expect him to be so good looking. They hadn't mentioned anything about his looks on the phone.

**Morgan:** Morgan was the best by far. He was well-thought out. He was always there when she wanted, and she always wanted something.

**Andy:** Morgan's old was the best by far. It was well thought out. No one was short when she wanted, and she always wanted something.

**Morgan:** I started with the best guy I knew. After our first date I wasn't interested in meeting anyone else.

**Andy:** For our first date we went to Top of the Cove for dinner and then went for a long walk at the Cove and then.

**Morgan:** I rolled up in a Tesla and saw something for everyone. I'll find something for everyone.

MEXICAN PAINTING

Between Nightmare and Geometry

by Guillermo Alarcon Martinez, Mexico City

REVIEW

A considerable number of the U.S.-based artists, particularly those who have been part of the Soberane Gallery in Mexico City, have shown an interest in the themes of the Mexican painting tradition. This interest is reflected in the work of the contemporary Mexican artists, who have sought to create a bridge between the past and the present. The connection between the two is evident in the use of traditional materials and the incorporation of elements from the Mexican landscape. In the works of the artists, the use of color is particularly striking, as it is used to create a sense of depth and contrast.

For many of these artists, the subject of painting in the mystical, fantastic, and often threatening world of the unconscious is particularly fascinating. The artists seek to evoke a sense of the ineffable, using color and form to create a world that is both beautiful and disturbing. The use of color is particularly striking, as it is used to create a sense of depth and contrast.

The artists' use of color is particularly striking, as it is used to create a sense of depth and contrast. The use of light and shadow is also particularly effective, as it is used to create a sense of movement and energy. The artists' use of line is particularly striking, as it is used to create a sense of rhythm and energy. The use of form is particularly striking, as it is used to create a sense of space and depth.
