system. And where do chickens fit into this picture? Well, muscles that work hard contain more mysjobins, since they have a greater need for cropps. And mysgobins is pigmented. A randi-ressed chicken or turkey that stands coursed a sit and never like will have more reysjobin in the leg muscles than in its bettart muscles, ergo, darker fields in the legs than in the breast. Wild block, which fit ye is chose breast mean at odds at their legs muscles.

n the table before me sits the fossil imprint of a 45-million-year-old leaf that grew just north of where Scripps Ranch lies today. It was captured in a chunk of siltstone, which dusts my fingers with powdery tan grains every time I hold it. The fossil rock is heavy, solid, and as incomprehensible as God. I live with minutes and hours, weeks and months. Five thousand years of recorded history seems knowable vaguely. Forty-five million years is so far beyond

comprehension that it makes me laugh. Yet here's this leaf, that old, and so well preserved I can count the delicate tertiary threads branching off the secondary veins.

I watched a local paleontologist pry the leaf fossil out of a hillside just north of where Mercy Road runs east off I-15. He had already collected so many similar specimens from this site that he gave me this one. His gesture underscored what I have learned: that stupefyingly ancient objects come out of the ground here routinely, abundantly. Over the past 20 years, dozens of amateur and professional paleontologists have been drawn to local fossil beds that in some cases rank among the richest in the world.

Those fossil beds are located, broadly speaking, in two areas: the Anza-Borrego Desert and the coastal zone. (Most of the local mountains contain no fossils because they're made of granitic rock, formed from magma deep within the earth, where nothing lived.) The story of paleontology in San Diego is thus two

Marvin and Aletha Patchen introduced me to the former The Patchens have a comfortable home set among the cluster of desert dwellings known as Canebrake, a tiny community just outside the state park boundaries, about 20 miles northwest of Ocotillo. Their living room faces east, where in the distance, across highway S2, stretches a choppy sea of brown. That's the Vallecito Badlands. "But we call them the Goodlands," Aletha interjects. "They're full of surprises." (continued on page 22)

Chris and Joann Wright Joann: Our second date was spectacular. We went to the wineries in Temecula. I had so much fun, I giggled — he really opened up.

BEST FRIENDS FIRST. Shy, adventurous, unpretentious 46-year-old, 158 lbs., 5'11'; seeks attractive lady, 46 or younger, for lasting romance and new adventures.

Joann: I liked the "shy, adventurous" part of Chris's ad. I thought that

Chris: I placed an ad because I've always thought that people in bars put up facades.

Joann: When he called me, he sounded shy on the phone so I said, "This sounds extremely painful for you—and very, very difficult."

Chris: I felt I hadn't projected myself very well on the phone. She was more pointed in her questions...

Joann: ... ever the New Yorker ...

Chris: With Phone Matches we had a chance to talk on the phone first and get to know each other. I found the things she said intriguing.

Joann: On our first date, at dinner, he was so quiet during the meal, I thought, "Oh no, this is a real winner." After dinner we went to the Grover Washington Jr. concert at Humphrey's. Chris: We didn't really have a chance to talk because we were focused on the concert, so I asked her if she would like to go out a second

Joann: Since then, it has been absolute joy. There's no way to describe it. We both have a lot in common: education, travel, hiking, camping and sports. He always tries to trick me with sports trivia questions, but generally, I know the answers. Really he's my best friend. Chris: This woman is different. There isn't superficiality. There's intelligence. She's a person you can talk with. Joann: We had our wedding in the most beautiful plece. We had classical guitar music, French food and lots of champagne.

## HOW TO RESPOND TO PHONE MATCHES

## 1-900-844-6282

If you choose an ad from the Phone Matches<sup>500</sup> column, use the 5-digit mailbox number printed in the ad to listen to the person's introduction and leave a response. (An advertiser may not have recorded an introduction by the time you call. If not, you can still leave a message in his or her mailbox.) The

date at the end of the ad is the last day to reply to the mailbox. Or you can "browse" through all the introductions and response to the ones that sailt you.

The charge for using Phone Matches" will appear on your phone bill under "DATING." If you have any questions, call 225-8200, x255-

235-3200, 2208.

I you're calling from a rotary phone, you cannot listen to box holders' introductions. To use the system, stay on the line until you hear the rotary phone instructions. After the tone, leave your message including the number of the maltibuty you're responding to. Rotary phone users can only respond to one ad per call; you must call back to respond to another ad-
