Warm and glowing: a business famed by the name of Dayton's, the idea behind the store is to make people feel good and to offer a sense of warmth and comfort. That's the spirit that the store's designers have put into the new wing, which is set to open this fall. The wing, which will be the first of its kind in the United States, will feature a large, open space with soft lighting and comfortable seating. The goal is to create a relaxed atmosphere where customers can come and shop in peace. The wing will also feature a number of new retail stores, including a cafe and a bookstore. The designers have put a lot of thought into the layout and design of the space, and they hope that it will appeal to a wide range of customers.
"These are seven sisters. I have made the wedding dresses for six of them."

Material World
By Mary Lang

As an example of the special delights that the sisters of the home offer, Mary Lang describes her work as a dressmaker for the seven sisters of the family. She has made wedding dresses for six of the sisters, and the seventh is about to be married. The sisters all live in the same house, and Mary visits them regularly to discuss their fashion needs. Mary describes the Each of the sisters has a distinct personality, and Mary tries to create dresses that reflect their individual styles. The sisters are all very close, and Mary enjoys being a part of their lives. She feels honored to be able to create dresses that will be a part of such a special occasion. Mary's work is not just a job, but a labor of love. She is passionate about her craft, and she takes great pride in creating something beautiful for the sisters to wear on their special day.
Mechanical MAN

"One of the difficulties you have to contend with when you're a repairman is space. Confined areas."

Mr. G. mentions about various dog bions on his rounds once upon a time and concludes the subject by commenting about his dog that is introduced with the above. He seems to have a special affection for animals and especially for dogs. Mr. G. is known to be a dog lover and has numerous references to dogs in his writing.

The conversation shifts to his work experience. Mr. G. talks about his time as a repairman in San Diego and mentions how he had to deal with various types of situations, including confined spaces and dog bions. He also shares some interesting stories from his time as a repairman, highlighting the challenges and rewards of the job.

Throughout the discussion, Mr. G. emphasizes the importance of communication and teamwork in the repairman profession. He also stresses the value of continuous learning and adaptability in a field that is constantly evolving.

Mr. G. then turns to discuss his current work, focusing on the challenges and joys of working in the appliance repair industry. He shares insights on the latest trends and technologies in the field, as well as his personal experiences and advice for aspiring repairmen.

The conversation concludes with Mr. G. expressing his passion for his work and the satisfaction he derives from helping customers solve their problems. He also highlights the importance of treating customers with respect and providing quality service, which is the cornerstone of his business.

The discussion is filled with rich anecdotes and practical advice, offering valuable insights into the world of appliance repair and the qualities that make a successful repairman.

"Jerry, I'm gonna explain to you what God wants from you, what's expected of you. All people should know this, and very few churches come right out and say this to individuals."

"...I'm afraid..."
**Architects**

Rodolfo Acosta, an architect, was selected to design the expansion of the Timpano Theatre. His vision aimed to create an iconic building that would stand out in the community. The project's scale and the need for a modern design challenged Acosta to think outside the box. With a background in urban planning and architectural education, Acosta brought a fresh perspective to the project.

The new architecture was a significant departure from the original Timpano Theatre, which had a more modest and functional design. Acosta's approach was to create a landmark that would attract visitors and become a point of pride for the city. The design features a striking facade with large glass panels, allowing passersby to see into the theatre from the outside, creating a sense of transparency and openness.

**The New Architect:**

**Rodolfo Acosta: Architect of the New Timpano Theatre**

Acosta's design philosophy is rooted in sustainability and community engagement. He believes that architecture can play a crucial role in shaping public spaces and improving the quality of life in cities. The Timpano Theatre project is an excellent example of his commitment to these principles, as it not only serves as a cultural hub but also enhances the city's visual landscape.

**Four hundred dollars a month**

With a $15,000 mortgage and 20 percent down payment for a 750 square-foot house with a small private patio and separate parking.

**Jaime Venguier:**

"Casa in Timpano"

Jaime Venguier is an architect and real estate developer based in Mexico City. He has been involved in the renovation and expansion of several historic buildings across the city. Venguier's design philosophy centers on preserving the historical context of buildings while updating them to meet modern standards. His projects often feature a blend of traditional and contemporary elements, creating spaces that are both functional and aesthetically pleasing. Venguier's work on the Timpano Theatre renovation adds to his growing list of successful projects, further cementing his reputation as a leading figure in the Mexican architectural landscape.
Beginner's Guide to Tijuana Architecture

You've been in Tijuana a little while. Tijuana architecture: 'The best of Los Angeles, right here on the border,' they say. How do you like it? You may have noticed one or two things. You may find the old or new sections of town.

The Old

Arenal Revolution is a good place to begin. The second or third house to the left, left at the old San Dieguito Avenue, is one of Arenal Revolution's most impressive buildings. It's a two-story structure with a flat roof and a large balcony. The façade is painted white and the windows are covered with wrought iron grilles.

The architect is unknown, but it's believed to be a work of the early 1900s. The building has been restored and now houses a restaurant. The interior is decorated with old photographs and paintings, and the atmosphere is very welcoming.

There are hints in Coahuila of what a neighborhood must have been like a hundred years ago in the United States.

As you walk down the street, you'll notice the old wooden houses and the small, narrow streets. The buildings are made of wood and brick, and the roofs are covered with tin or metal.

The style of architecture in Coahuila is similar to that of the United States in the early 1900s. The houses are small and simple, and the streets are narrow and winding. The buildings are made of wood and brick, and the roofs are covered with tin or metal.

The most striking feature of Coahuila is the use of wrought iron. The balconies and railings are made of wrought iron, and the windows are covered with wrought iron grilles.

The buildings in Coahuila are well-maintained, and the atmosphere is very cozy. It's a great place to take a walk and enjoy the old architecture.

In the 1960s, the city of Carlsbad was in the process of constructing a new public school system. The new school was named Carlsbad Junior High School, and it was designed by the architect John Galen Howard. The school was completed in 1963, and it was one of the first modernist schools in California. The design of the school was influenced by the International Style, which emphasized simplicity and functionality. The school was constructed using concrete and glass, and it featured a large, open courtyard that provided outdoor learning spaces for students. The school also had several art installations, including a series of murals created by local artists. The building was an important example of modernist architecture in California, and it helped to establish Carlsbad as a center for arts and education.
burning bridges

a young man takes a slow, last ride into the past

by jeff sharlet

The desert seemed like the ridges and valleys of thoughts, moving past too quickly to do anything but be absorbed. I fell in love with the desert that afternoon.

Slouching towards the old man, I noticed his arm. He seemed to have Kai's arm. I wondered if the old man had been Kai's father. The old man was wearing a hat, and Kai was wearing a hat.

The old man's hat was a cowboy hat, and Kai's hat was a baseball cap.

I walked up to the old man and asked him, "Is this your hat?"

He nodded, "Yeah, it is."

I smiled, "That's cool. I wonder what you do with it."

He looked up at the sky and said, "I don't really wear it much anymore. It's just for show, you know."
that the train stretched clear across the two curves. When it came down, those cars went to the bottom of the gorge. That engine gave it full throttle...and those cars kept on going down.

She'll Say "Yes!" A band of familiar words says "I Love You"

Reward!! Old Pens Wanted

She was happy, I knew, as she stretched out her arms to hug him. The smile on her face was a thing of beauty. He held her tight, kissing her deeply. She turned her head, her eyes shining with love. "I love you," she whispered, "I always have, and I always will."

"You're the best thing that's ever happened to me," he said, "and I'm so grateful to have you in my life."

In the distance, the mountains loomed, their peaks reaching towards the sky. The wind was cool, carrying the scent of pine and freedom. They stood there, holding each other, lost in the moment. And then, as if nothing could ever tear them apart, they pledged their love to one another, forever and always.
Somewhere, always a few feet ahead, lay a place where the light failed and darkness swallowed the rest of the tunnel. I began to wonder if Roy meant to go there.

...
CRIME INCIDENT

Continued from page 7
It was the 20th in a series of crimes that began two years ago.

Witness Statement (Continued): I was at the scene at 10:20 p.m.

The witness, a 45-year-old man, said he was walking his dog when he heard a noise.

He turned to see a group of people running away.

He said they were all carrying bags and were dressed in dark clothes.

The witness said he immediately turned around and called 911.

He then waited for the police to arrive and gave them a description of the suspects.

The police arrived at the scene within minutes and searched for the suspects.

They found no trace of them.

The witness said he was shocked and scared by the incident.

He said he had never experienced anything like it before.

The witness said he was considering hiring a lawyer to help him with the investigation.

The incident has caused him a lot of stress and anxiety.

The witness said he is considering moving to a different neighborhood.

The witness said he is grateful to the police for their help.

He said he hopes they can catch the suspects and bring them to justice.

The witness ended his statement by thanking the police for their hard work.

**BATTERY ON POLICE OFFICER**

**Incident Date:** July 14, 2023

**Location:** 1234 Police Station

**Description:** The witness, a 50-year-old man, said he was on duty when he was attacked by a group of individuals.

He said the group of people were carrying guns and knives.

They started attacking him and he was able to fight them off.

The witness said he was injured and had to go to the hospital.

He said he is grateful to the police for their help.

He said he hopes they can catch the suspects and bring them to justice.

The incident has caused him a lot of stress and anxiety.

The witness said he is considering moving to a different neighborhood.

it's a lot of fun to watch as the cast of characters has no trouble getting into character. The scenes are well-directed and the performances are solid. The film is worth watching for its humor and its ability to keep the audience entertained. Overall, "The Mighty Ducks" is a fun family movie that will appeal to both kids and adults. It's a great addition to the Disney catalog and is sure to be enjoyed by all who see it.

**Mighty Ducks**

**Rating:** 4/5

**Run Time:** 1h 23min

**Director:** Ron Clements & John Musker

**Stars:** Emilio Estevez, Adam Baldwin, Tom Carvela, Morgan Freeman

**Synopsis:** In "The Mighty Ducks," we follow the story of a hockey team in a small town who are struggling to find a coach. They eventually find a retired hockey player named Bombay (Adam Baldwin), and under his guidance, the team begins to improve. Bombay is a tough but fair coach who helps the team learn the game and grow as individuals. The team faces several challenges along the way, but they eventually make it to the championship game. The film is full of heartwarming moments and teaches valuable life lessons about teamwork and perseverance.

"The Mighty Ducks" is a classic family movie that has stood the test of time. It's a great film that will inspire kids to never give up on their dreams, no matter how difficult they may seem. The film is also a great source of entertainment for all ages, with its catchy theme song and memorable moments. If you're looking for a fun and heartwarming movie, "The Mighty Ducks" is definitely worth checking out.

Although She Loved Picasso, She Always Flirted with the Dance
Françoise Gilot's Stunning Paintings for the Stage

The relationship between art and dance has always been a fascinating one. From the ancient Greek theaters to modern ballet, the interplay between visual and kinetic art forms has created a rich tapestry of works. Françoise Gilot, known for her love of both art and dance, has captured this dynamic in her stunning paintings. Gilot’s works, featured in an exhibition at the Museum of Convergence in San Diego, showcase her unique perspective on the connection between dance and painting. Through her paintings, Gilot invites viewers to explore the rhythm, movement, and emotion that define both art and dance.

If You Can’t Do It in Your Head, You Can’t Do It
Physicist Abandons Science for a Career in Incredibly Complex Jigsaw Puzzles

The story of a scientist who leaves behind the complexity of quantum mechanics to pursue the intricacies of jigsaw puzzles is a testament to the beauty and challenge of both fields. In his talk at the Science Museum, John Smith shares how the puzzle-solving skills he honed as a physicist have translated into a career where he designs and creates complex puzzles. His work not only provides a mental workout but also challenges the viewer to think outside the box, much like physicists are trained to do. Smith’s journey is a reminder that creativity and problem-solving are universal and can manifest in many unexpected ways.
A Bunch of Hungry, Squabbling Babies

Maguy Marin's Spectacular and Weirdly Unsentimental Reinvention of Cinderella

One of the most important latter 20th century co-creators of the musical Cinderella is a French director, choreographer, and dancer named Maguy Marin. She has been adapting and exploring this classic fairy tale since the late 1980s, and her latest production, "A Bunch of Hungry, Squabbling Babies," is a testament to her unique vision.

The story of Cinderella is well-known: a young girl who is mistreated by her stepmother and stepsisters, but is transformed by a fairy godmother into a Cinderella with a glass slipper, and eventually marries the prince. However, Marin's version is anything but traditional. She sets the story in a contemporary urban environment, using a mix of dance, theater, and film to bring the characters to life.

The production features a cast of all-female dancers, all of whom are wearing black, and the costumes are made of silhouettes of black fabric. The setting is a dark, urban landscape, with the dancers moving in a choreographed manner that is both graceful and powerful. The use of film and projection adds a layer of visual interest, with images of the dancers superimposed over the live action.

The music is a mix of classical and contemporary, with a heavy emphasis on electronic sounds. The overall effect is a striking and thought-provoking piece of theater that is sure to captivate audiences of all ages.

Cinderella's story continues to evolve, and Marin's interpretation is a testament to the enduring power of this timeless tale. The production runs from October 11 to 14 at the La Jolla Playhouse, and is not to be missed.

Reader's Guide to THEATRE

A Heart Hotter Than Fire

by John O'Connor

The program for the La Jolla Playhouse's latest offering is a treat for the eyes as well as the ears. The program is bright, colorful, and full of life, with images of the actors, the set, and the costumes. The program includes a brief synopsis of the play, which is set in the 1920s in a small town in California. The play is about a young woman who is trying to break free from her traditional upbringing and find her own voice. The program also includes a list of the cast members and a photo of the director, Stephen H. Freer.

The play is performed by a small ensemble cast, and the actors are in top form. The production is well rehearsed, and the acting is excellent. The play is a comedy, and the audience will enjoy the humor and the clever dialogue.

The set design is also noteworthy, with a small house that doubles as a train station. The actors move seamlessly between the two settings, and the lighting is perfect. The sound design is also top-notch, with the actors' voices clearly heard.

Overall, this is a wonderful production, and I highly recommend it. The play is a must-see for anyone who loves a good comedy. The cast is excellent, and the direction is spot on. The production is a testament to the talent of the La Jolla Playhouse's artistic director, Christopher Ashley.

Kiss Me Again, Said the Old Man Who Confuses Himself with James Brown

One of the most repeated stories about any bluesman, with the exception of that told about Robert Johnson selling his soul to the devil in exchange for supernatural skills on guitar, is the one about how James Brown arrived at his first hometown of Augusta, Georgia.

In Chicago in 1949, Wells—at either 14 or 15, depending on which biography you consult—wanted to go to New York to make his mark on the music world. He knew he had to hitchhike there, but he wanted to go as quickly as possible. He was tired of waiting for a bus or train, and he couldn't afford a cab. So he started walking, and he walked all the way to New York City. It took him two weeks. He got there and started making records, and he became one of the biggest stars in the world. He died in 1997, but his music lives on.
The musical excitement was generated by the band and the idea of Watts, whose presence was almost a formality.

...this almost manic beatrice—whose prominence in the 1960s and 1970s white collector scene has somewhat overshadowed the reality of his contributions and somewhat muted Watts' himself too.

With Watts introduced by one of the band's percussionists, the song began with a driving bassline and a driving drumbeat. The rhythm section was tight and focused, setting the stage for Watts' vocals. Watts' voice was clear and strong, with a slightly rough quality that added to the raw energy of the performance. He sang with conviction, delivering each line with passion and intensity. His delivery was precise, with a slight twang that added to the Southern feel of the song.

The emotional core of the song was Watts' delivery of the lyrics. He sang with a sense of intensity and urgency, building to a powerful climax that left the audience in awe. His performance was powerful and emotionally charged, leaving a lasting impression on those who witnessed it.

In conclusion, Watts' presence was almost a formality. Despite this, his contributions to the band were significant, and his influence on the music was undeniable. His energetic delivery and powerful vocals made him a driving force in the band, and his presence is impossible to ignore. Watts' impact on the music world cannot be overstated, and his legacy will continue to inspire musicians for generations to come.
REVIEW

Formless, Soulless, Pseudo-Intellectual Stuffy Clanging—or Truly Hip Tunes?

The sound—that’s the thing about Sontu—truth that matters. No one, the 11-year-old New York group has been formidably influential in the global music underground. See in some versions the Velvet Underground, if you will, as a rock comment. Sontu are supreme innovators of the dual paradigm: that of the existentialist rock group and that of the pure, cerebral, political concept band. They are a conceptual band that have a true talent for making music that is both accessible and challenging. Their sound is characterized by a mix of electronic and acoustic instruments, creating a unique and captivating listening experience. Their music is experimental and influential, setting a new standard for the genre.

The group’s unique sound is evident in their live performances, where they showcase their mastery of different instruments and styles, often incorporating sampling and digital manipulation into their music. Their performances are not just about the music itself but also about the experience of being part of a vibrant community of artists and fans. Sontu’s music is a reflection of the complexity of the world and the challenges we face, making it both thought-provoking and enjoyable.

Underground Clubs

The group has gained a devoted following, and their music is not just enjoyed by fans but is also admired by critics and fellow musicians. Their sound has been described as a mix of avant-garde and pop, with influences ranging from electronic music to classical compositions. Sontu’s music is both accessible and challenging, making it a favorite among fans of diverse musical backgrounds.

In conclusion, Sontu is a group that is not afraid to push the boundaries of what is considered music. Their sound is a reflection of the complexity of the world and the challenges we face, making it both thought-provoking and enjoyable. Their music is a testament to their creativity and dedication to exploring new horizons in the realm of music.

was April 15, 1888, and the fledgling seaside community of Ocean Beach was celebrating its first anniversary with a band concert, complimentary mussel roast, and the above-pictured balloon ascent. San Diegans Billy Carlson and Frank Higgins had developed the area the year before, purchasing much of the land on the ocean side of Point Loma and submerging it into Los. Carlson weathered the vagaries of San Diego's real estate market better than his partner; Higgins committed suicide in 1889.

You’re Single. We’re Free. Why Wait?

Introducing Reader Phone Matches®! It’s Free to be Single People. You are provided with a free personal matching ad, in Reader Classifieds. You also receive a free "Voice Match®", a voice service that allows you to record and receive messages from any match you phone.

HOW TO PLACE YOUR AD: To place a free Phone Matches ad, fill out the coupon below and mail or fax it to 233-7647. Please note: phone numbers are restricted to 25 words or less and not for two weeks. No form will be accepted over the phone. To place a Voice Match, call 226-5820 for additional word. You will need a 5-digit matches number to place an ad and a 4-digit only to receive your messages. You may also place one ad in all three Sunday Times, for $30, 25 words or less and not for two weeks. No form will be accepted over the phone. To place a Voice Match, call 226-5820 for additional word.

HOW TO USE YOUR VOICE MAILBOX: After you receive your matches number, you may record your personal introduction. Call 226-5820, 24 hours a day, and follow the system instructions. Your introduction is received by Reader Phone Matches and recorded for you.

QUESTIONS? Call 226-5820, x 268
