We Fight Dirty and They Love It
But God Help Us If Things Get Out of Hand

By Lawrence Osborne • Photographs by Sandy Huffaker, Jr.
Why pick someone up, when you can pick someone out?

If you're still hoping to meet the person of your dreams by chance at a bar, supermarket, gym or car wash, then keep dreaming. At Great Expectations we provide an exclusive environment where you can meet hundreds of eligible singles who share a common goal: Not staying single. What we do best is take the guesswork and the awkwardness out of dating. Through up-close and personal videos, you have an opportunity to get to know the person before you ever meet face to face.

Let's Talk

The Reader welcomes letters for publication. You may phone in your letter to Reader Letters at 616-5511. Letters are accepted by mail at Reader Letters, Box 14518, San Diego, CA 92109 or fax them to 616-5555. Letters may be edited for clarity and space. Please limit your letter to 250 words. Please include your full name and address, and telephone number if you would like to have your letter printed.

Hate Groups Linked To Antigue Trolley Sniffs

I read with interest the response from a number of readers to my letter, "Antique Trolley Sniffs," which appeared in your paper on October 19. The letter was written in response to a letter I had written to the editor on November 17. What I gather is that some of these groups, like those who were targeted by the Sniffs, are still with us, albeit in a more subtle and clever manner. In particular, I refer to the New York-based "New York City Trolley Riders," who recently purchased a trolley car in San Diego and are using it to promote their agenda.

Pick up a pen and fill out and mail this profile to take control of your romantic future.

Longstanding War Of Words Over Eleanor Roosevelt Continues

The latest round in the ongoing battle between Eleanor Roosevelt and her son, Archibald, centered around the release of a new biography, "Eleanor Roosevelt: A Life of Passion and Power," by Caroline Kennedy. The book, which was released on November 17, has been praised by some, and criticized by others, for its portrayal of the former First Lady.

Lawrence was a hard man to find. He used to hang out at a pool hall, but no one knew where he was or if he was even alive. One day, someone saw him walking down the street, looking for someone. When they approached him, he asked them if they had any money. They said no, but he laughed and walked away.

"I suppose you could say that with a mask, the human individual supplanted and sublimated himself. He became part of a symbolic drama bigger than himself. You had to use a mask to communicate with others that he was more than himself. And the masks people created brought into being a demon, into a galactic being, a limitless protector, a figure of light and love."

It is a double edging of one of the people where he beholds what he is and is not in the ring, in their black hoods and glittering black helmets. For them, the mask is not just a literature. It becomes a living, breathing creature in which we see the power of the mask, the mask of the devil of the world - an image of the devil of the world. When most of the audience are left, Leda Tanev comes out in a shiny T-shirt and walks in the ring towards the female, who is using the sails - members of a family who also run several bars and clubs in Tierra. Before getting into the back exit into the parking lot where thegregarious sometimes quite wild, he says, "I really did Thunderbird in, and How the feel like my deep sky, but you are lost in it. You wouldn't think 10,000 feet would more that last, would you?"

The wrestlers are now all in the parking lot exchanging words and exchanges. They seem pleased with the performance. Their gauntly painted pick-up trucks and minibuses will soon disappear from all the streets, but not before Pensamiento Negro has made its last gesture of defiance towards his fellow men.

"These are the last extraordinary people," he says, indicating the wrestling ring with the swing of the hand. "Where else in the world would you have wrestlers like this? We're more than wrestlers, we are arts here too. That's all. Good night."

The soap's sting is not the most destructive.

When she was pregnant with me, my mother discovered my father in bed with

another woman. This information came to me after many years, when
I got around to it. I knew the key, I could not find the trigger for the feeling that
was planted in my parent's house.

I never saw my parents share a bed. I never saw a single bag, kiss, or touch of the hands. When I walked across some photographs of them embracing—dated 1944—I was astonished.

My parents were never able to say, "I love you." We drifted through San Diego neighborhoods, each one we'd been in, and a solid, growing sense of guilt formed in me. I never knew how to console a

sick child. She worked in the kitchen, wept in her infirmity. She got him to amount to something. This was easy, in the long run, his refusal to succeed.

Any family therapist could point out the myriad ways in which my family functioned—such as a technical, mechanical work area where people functioned in a manner that was familiar to them. The soap's sting is not the most destructive.

As a boy, I apparently didn't ask "normally." This notion came about as the product of my mother's casual observation of the behavior of my shows. She informed me once that they weren't wearing down evenly, and also surmised that my legs were crooked. I was startled to hear that I was to begin wearing a metal brace. I was told of this in my father's presence, and he seemed glad that I would be wearing one. He didn't seem sad, but he did seem sad that day, and he was sad that I wore one. He couldn't even describe the brace, let alone why it was needed. He was wearing a metal brace, and he was glad that I would be wearing one. He didn't seem sad, but he did seem sad that day, and he was sad that I wore one. He didn't seem sad, but he did seem sad that day, and he was sad that I wore one.

BY GURPIN SHEPARD

REVIEW

The anticipated movie that the audience has been waiting for, Malcolm, is finally coming out. The film tells the story of a young boy who is struggling to fit in at school and at home. Malcolm is a shy and introverted student who finds it difficult to make friends. He is constantly bullied by his classmates and feels isolated from the rest of the world. Malcolm's parents are concerned about his social skills and try to encourage him to open up more. Malcolm's father, John, is a successful lawyer who is always busy with work. His mother, Sylvia, is a stay-at-home mom who tries to provide a loving environment for Malcolm. Scott, Malcolm's best friend, is a popular boy who helps Malcolm cope with his social anxiety. Malcolm's life changes when he meets a new girl named Angela who helps him overcome his fears and become more confident. The movie is a heartwarming story about friendship, family, and overcoming challenges. Malcolm's journey is both entertaining and thought-provoking, making it a must-see for all ages.

One of Those Fabulous, Fun-Filled Mid-Life Crises

By Roderick the Hard-Backbone

For every hard-boiled man, there is a soft one underneath. And for every hard-boiled woman, there is a soft one underneath. The only difference is, the hard-boiled one has a much harder time showing it.

Be Roderick the Hard-Backbone. One of those guys who's always been hard-boiled, but underneath he's got a soft side that he's never shown. His friends think he's cold and unfathomable, but they're only seeing the surface.

He's been through a lot in his life. Lost his job, his wife, his dog. He's been through heartbreak and betrayal. But through it all, he's managed to stay hard-boiled.

But Roderick's life is about to take an unexpected turn. He's invited to a party where he meets a woman who's just as hard-boiled as he is. They hit it off and hit the town.

As the night goes on, Roderick begins to see a softer side to the woman. She laughs at his jokes, she's fascinated by his stories. It's as if a switch has been flipped in his mind.

Roderick realizes that he's not just a hard-boiled man. He's also a man who can love and be loved. And he's not the only one.

Roderick and his new friend decide to take a walk. As they talk, they talk about their lives, their dreams, their fears.

Roderick realizes that he's not just a hard-boiled man. He's also a man who can love and be loved. And he's not the only one.

As they walk, they realize that they've found something rare and precious. They've found each other.

In the end, Roderick realizes that he's not just a hard-boiled man. He's also a man who can love and be loved. And he's not the only one.

Roderick takes off his hard-boiled exterior and shows the world the real him. And it's a beautiful thing to see.

REVIEW

The play is so fascinating and so rarely seen that it transcends the
medium. Yet it manages to be a convincing and
engaging piece of theatre. The performances are exceptional,
and the production values are top-notch. The
scripts are well-crafted, with a good balance of
action and dialogue. The set design is
impressive, and the lighting enhances the
tone and mood of the play. The
sound design is also noteworthy,
with a great use of music and
sound effects.

Kathy Mattea returns to her country roots, holiday gift ideas

For many years, Kathy Mattea has been the epitome of good taste in country music, known for her unique voice and albums that range from soulful to country-pop. She offers a truly special gift of fine country music and no flashy light show. The voice meant on songs like a beautiful voice in a corner. She is truly talented and a great quality singer. The song on "Tennessee Waltz" by Jerry Reed, her latest White Mattea has turned back into standard after the first exploration of Time for Time. She is still one of the brilliant songwriters other than her music. I think I admire the country music albums quite a lot. Most notable here are "New Journey," "Listen to the Radio," and "Jimmy Buffett's" title track. As well, the same reliable instrumentation of harmony like Rode and Loretta Lynn rather than the loud band coming out of today. Indeed, there are times when the voice sounds almost as if it's more like a novelty and there's a need to hear her... And as expected, this is all you need to know about this. Listen to her... and you'll hear a lot why she has influenced everyone from Garth Brooks to Eliza Cotton.

Risk Takers

The 1960s were a time of social and cultural upheaval. A new generation came of age, challenging established norms and expectations. This period was marked by a profound sense of exploration and experimentation, as people sought to redefine their identities and the world around them. Amidst this backdrop, the concept of "risk-taking" took on new significance. It became a way of life for many who sought to break free from the constraints of tradition and conformity.

In music, the 1960s saw the emergence of daring performers who were willing to push the boundaries of what was considered possible. Concerts were no longer confined to classical concert halls; they took place in unconventional venues, such as art galleries, swimming pools, and even on streets. Musicians performed in intimate settings, engaging directly with their audiences. The idea of "risk-taking" was not just about the act of performing itself, but about the courage it required to explore new forms and ideas.

As we look back on the 1960s, it becomes clear that the concept of risk-taking was not just a fleeting moment in time. It was a cultural shift that continues to influence our understanding of art and performance today. The willingness to take risks is essential for innovation and progress, and it is something that we can all aspire to embrace in our own lives.

The text continues with additional commentary and analysis, discussing the impact of the 1960s on contemporary society and culture. It highlights the enduring relevance of the "risk-taking" spirit and its role in shaping the artistic landscape.

Overall, the article explores the significance of risk-taking in the context of the 1960s, drawing parallels to current trends and encouraging readers to consider the importance of taking risks in their own lives and careers.

UNDERGROUND CLUBS

John Lennon's former manager, Yoko Ono, played a small role in the film. Ono is also known for her avant-garde artistry and activism, particularly in the realm of peace and women's rights. Her presence in the film highlights the diversity of the music scene at the time, as it included not only traditional rock and roll but also experimental and avant-garde performances.

One day the police made us stop playing, and people started hissing.

The film depicts the struggle against authority and conformity, which was a common theme in the underground music scene of the time. The police's intervention in the film's performance is a nod to the real-life restrictions faced by artists trying to express themselves freely.

After receiving an elephant from an admiring maharajah, Marilyn Monroe spent days fretting over how to graciously decline, finally confessing that her house was too small.

Had the maharajah settled on something a little smaller but no less exotic, like some Starbucks Arabian Mocha Java, Miss Monroe probably would have accepted with pleasure.
