MOTHER TERESA AND THE FOOLISHNESS OF THE CROSS · BY KEN KUHLKEN

A couple of years ago I was coming home from a wedding reception in Tijuana, in winter, about 2:00 a.m. While I waited in line at the border in drizzle and showers, a boy around ten years old approached my car. One of the legion of Chiclets vendors, he held out a box with little packs of candied gum and opened his mouth and moved his tongue. No sound. His face glistened with rainwater, feverish sweat, or tears. His eyes looked like chocolate milk, as if the brown had faded into the whites. He was rocking slowly back

and forth. I took a packet of gum and dropped two quarters toward his box from a couple of inches above it, but at the wrong moment he rocked back and the quarters dropped to the ground. His mouth opened, his tongue moved, he managed a step toward the next car, then paused and stood rocking as though gathering strength for the trip. I had to get out and pick up the quarters and place them in his box, which he then held up higher, thinking he still owed me a packet of chicle. (continued on page 20)

In the criminal complaint, Brannigan says the solicitors told the letter-writers that Sauvage would treat them for their illnesses if they would make contributions to him. Brannigan says the solicitors claimed Sauvage would not keep the money himself, but

would donate to various char-itable causes, which Sauvage claims he did. RESTAURANT PROBLEM NO. 4

Finicky Friends

They don't eat red meat, or dairy products or anything fried. And they don't like salads ("No rabbit food!"). No shellfish, no MSG. Don't like Italian, and they're tired of Chinese. So whom do they ask to pick a restaurant? Why, you, of course - the person who eats anything.

Solution: You gotta call Eleanor Widmer!

Eleanor Widmer's Restaurant Line has over 400 restaurant recommendations, including chic eateries where your friends can eat those few foods they will eat. And you can pick late-night eateries, fixed-price meals, coffeehouses, bruncheries, healthful-dining establishments - even romantic restaurants for finicky eaters on a budget! Eleanor will even tell you how much your average meal will cost.

Turn to page 65 for complete instructions and then

call Eleanor at 1-900-844-8600.

The line costs only 49c a minute, and you can call it 24 hours a day.

McRocklin: That song was released in England by Thin Lizzy, but I don't think it ever came out here.

Who are your favorite bands? Who do y. u all listen to? Cooksey: I've been listening to a lot of disco lately. I like Gloria Gaynor a lot.

How about a real answer? Cooksey: Right now, my favorite band is Rage Against the Machine [nods all around]. They're hard core, a rap-punk mix.

Sort of like the Chill Peppers, or Faith no Morel Cooksey: Sort of, yeah, but a step beyond that. Like I said, they're really hard core. They have an incredible guitar player. He does some amazing things with his guitar. I also like Mr. Bungle, Primus, Alice in Chains, and Pearl Jam.

Who else do you like? Who are you guys influenced by musically? Young: I like Rage Against the Machine, Primus, Mr. Bungle. I listen to Michael Anthony [Van Halen]. I like Bad 4 Good.

McRocklin: I listen to a lot of guitarists — Chet Atkins,
Roy Buchann, I like Alice Cooper a lot. I like his old
albums especially, like Billion Dollar Babies; I don't like
Traction as much. I've been listening to a lot of Danny
Gatton. And I love Ozzy, of course. One time back in

How about country music! That's your background, right, Danny!
Cookseys Yeah, but I don't listen to very much country anymore. In Oklahoma, it's all you hear. I guess there's still some of that influence when you hear me sing, and in my writing, but it's not what I listen to these days. I'm influenced pretty heavily by other kinds of music now, like Pearl Jam, I would say, among others. I listen to rap.

I saw a few groupies already lining up tonight back at the club. Do they like the fact that you guys are so

the club. Do they like the fact that you guys are so young?

Wackerman: They're always there, you know. You wouldn't believe. I mean, you would not believe the girls that come to our concerts. They come backstage, they show up. They're incredible, And sometimes they're older, a lot older. Ask Danny about that. How old was that one the other night, dude — About 27?

Cooksey: We can't do too much, you know. Our parents re usually at the shows, and they introduce more. But are usually at the shows, and they just take us away. But I just got my driver's license. I can drive now.

The first time I saw you guys was on the Headhangers Ball. What was it like to see yourself on MTV? Wackerman: It was cool, but they only let two of us talk in the interview, All four of us were on the show, but they only let two of us answer questions.

I mean, all the shift that has gone on has been blown way out of proportion. But that's tway in the past. I'm dedicated to the band at this point, to music. I don't want to give up acting, but I probably won't do as much of it now that I have this band.

Most metal bands sing about teen pain and sexual ten-sion, but most bands are singing from memory. Not you, What do your parents think of you guys singing such sexually explicit lyrics at your age? heads—all defeated by the quiet San Diego night.

As we left, I stopped for a moment to consider the Borter, San Diego's greatest architectural achievement. I've dunired the building since! I first came here half a year ago; he mammoth red. etters, the California gothic crubellishments, the three commons windows on the centre tower that sake it look like a three-eyed watchman of the city, and the redbedging red light at the ware. See of the discovering the properties of the control of the city, and the composition of the city, and the composition of the city and the control of the city and the composition of the city and the city

make it look like a three-yeed workbrian of the city, and the foreboding red light at the apec. Best of all, of course, is the pagoda-like windowed louinge near the top. San Diego at its bed has Couds in the sky, heavy, rolling clouds that at night reflect with a purple glare the light of the city. On a night like that, with the huge letters of the EL Cortez allbouetted, I could imagine the all-time-great louing show in that abandomed building, a lineop of discord to appeal to my vision of San Diego's grote-que heastly. If obstrow Mingus for hass, bring down that was chicked our noist-from where or downs; Charles Roberton and the conditions; Charles Roberton, and high-band man, on tramples, for woods. If of bring in some San Diegotaleatt — Tom Wajts — to share duets with Billic in her old, dying-woise pears.

Desgr ident— from Warts— to share duets with numer in ner old, dying-voice years.

I know a band like this could never work, even if they could sidestep those little obstacles of time and death. But since San Diego stopped playing early on the first morning of 19993, I had to imagine a sam data could up in bat to the old war with a proper death's head grin— a lonely sound for a just city in hardby 1992.

Mine shafts were sunk into rock ledges, with chunks of gold-specked hard blue quartz brought to the surface for processing. The Helvetia, like many operations in the area, used steam-powered

"stamp mills" to pulverize the ore, gradually Located one mile east of Julian on the reducing it to a powder from which the gold was extracted using mercury. This maneuver is also seen when one of the partner, becomes overly dependent on the other. Dependincy, involves the placing of responsibility for fulfillment of basic emotional nodes (e.g., self ensem) on another. Anxiety becomes stirred and one partner seeks to break or previous this attachment by having multiple partners.
