Radio Blabbermouth Hit In Tot-Sex Privacy Case
By Thomas K. Arnold

He will sex the f x if asked, but, "I tell them not to paint the room just yet." Sonar Family Fun Called "Femicide" By Jamie Reno

The trial of Dale Anthony Ankney, 18, of the 1870 S St. and Leblanc St. area second assault of a youth, by a police officer who was in the room at the time of the assault, under California law, which does not require any evidence of a "duty to act." The assault was reported by the victim, a 14-year-old male, to the police department.

The victim's mother, Jennifer Ankney, a police officer, said she was not surprised by the verdict, but added that she was relieved that the case was finally over.

One In A Series Of Four

Cropping a reliable water flow to every person in San Diego County has never been easy. The struggle for water development has played a major role in shaping San Diego history since Spanish missionaries Father Junipero Serra started the first California mission here in 1769. And still a struggle for reliable water continues.

Because San Diego County is located in a semi-arid region. The average rainfall is only 9.2 inches a year. There are no natural lakes. And also, the ground-water supply is seasonally limited.

Even so, local water supplies were sufficient in the early 1900s. Reservoirs had been built to capture winter rains. Water was piped into many homes. Those with wells in outside areas ran their wells on their property.

However, the county's natural water supply could only sustain a small population annually. But by the end of the 1930s, there were more than 250,000 people. And that number was increasing every day.

An additional fresh water source had to be found. In the 1950s and '60s, community leaders looked 200 miles east for new water. Their hard work paid off in 1947 when Colorado River water flowed through a new aqueduct to San Vicente Reservoir in east county.

San Diego County Water Authority
Coronado, San Diego, 811-1333

And in the 1950s and '60s, the State Water Project system was built to bring water down from Northern California.

But what does that mean to us? We still live in a semi-arid region with a limited ground water supply. Our rainfall is inconsistent.

And today the population of the San Diego region has stretched beyond 2.5 million.

So when California's Department of Water Resources on the U.S. Department of the Interior declared a dry year due to low snowpack in the high Sierra or Colorado River drainage basins, it has a dramatic impact on us.

Because today we import 60 percent of our water supply from Northern California and the Colorado River.

You see, San Diego County's very existence as a major industrial, agricultural, urban, tourist, and defense center is dependent on a reliable supply of imported water.

That's why we've tapped into the most complex water distribution system in the entire world. But that's another story. One we'll explain in the next segment of this series.

"It takes him 15 or 20 seconds to do it; it may take somebody working... two hours to get it off."  

Unsung Heroes Of Urban Scrawl  
By Patrick Daugherty  

What are you doing?  

As a child, Night had a vivid imagination. He would find dead cats,ewing on the rungs of a fence, or old shoes on the street and imagine a whole world of adventures.  

Tonight, however, Night is not playing. He is a young man, a child of the city, and he is working. He is on the streets, in the parks, and on the subways, doing what he does best—unscrambling graffiti.  

We are standing on a street corner in the heart of the city. Night is painting over graffiti, making a work of art of what was once just a random tag.  

"I paint over graffiti," Night says. "It's like a puzzle. You have to think about what the graffiti means and how you can make it better."  

As we walk, Night shows me the history of graffiti in the city. He points out different styles and techniques used by different artists.  

"Each piece is unique," Night says. "You have to understand the context of the piece to understand its meaning."  

The sun sets on the horizon, casting a beautiful orange glow over the city. Night continues to paint, making the city more beautiful with each stroke of his brush.  

"I want to make people see the beauty in the city," Night says. "Graffiti is not just a form of vandalism; it's a form of expression."  

As the night wears on, Night continues to work, making the city a safer and more beautiful place.  

"I paint over graffiti because I believe in the power of art," Night says. "Graffiti can bring people together and make the city a more vibrant place."  

As the night ends, Night is still painting, making the city a better place. He is a true unsung hero of urban scrawl.
A Revolution of Small Guns

"If you know how to handle them, they can be a powerful, devastating weapon," says John F. Thompson, president of the National Rifle Association, which has been fighting against gun control measures for years.

"The NRA believes that individuals should have the right to defend themselves and their families, and that their right to own and carry firearms is fundamental to our constitutional rights as Americans," Thompson said.

"However, we recognize that firearms can be dangerous if not handled properly. That's why the NRA is committed to educating the public about responsible gun ownership and safety measures."
GREAT WALL OF CHINA

The Great Wall of China is a series of fortifications made of stone, brick, tamped earth, wood, and other materials, built along an east-to-west line across the historically northern borders of China to protect the Chinese states and empires against the incursions and raids of nomadic groups from northern Asia. The Great Wall is not a single structure but a series of connected防御工事 and watchtowers, forming a continuous barrier of varying length and height. The Wall was built and maintained for various reasons, including military defense, tax collection, and cultural purposes.

The construction began in the 5th century BC and continued for centuries, with different sections being added or renovated. It is estimated to have been used as a defensive structure for several thousand years. Today, the Great Wall is a UNESCO World Heritage Site and a popular tourist destination.

\[\text{Length:} 21,196.18\text{ km} \quad \text{Height:} 7-15\text{ m} \quad \text{Width:} 4-7\text{ m} \quad \text{Material:} \text{Stone, brick, tamped earth, wood, and other materials}\]
Although Eugene O'Neill didn't visit the site, his novel was set in Grover's Corners, New Hampshire, where the narrator, John Proctor, is a farmer who works the land. The novel is a story of love and betrayal, and it's told through the eyes of the narrator. The setting is a small farm in Grover's Corners, where Proctor spends his days plowing and tending to his crops. The novel is a powerful story of love and loss, and it's told with great emotion and insight.

In Grover's Corners, Eugene O'Neill created a world that is both familiar and foreign. The characters are real people, and their struggles are relatable. But the setting is also a symbol of something larger, something universal. The novel is a reminder that love and loss are part of the human experience, and that even in the most ordinary places, extraordinary things can happen.

The setting of Grover's Corners is also a symbol of simplicity. The novel takes place in a time when life was simpler, when people didn't have to think about the future or the consequences of their actions. The setting is a place where time seems to stand still, and where people can be who they are, without worrying about what others think.

In conclusion, Eugene O'Neill's Grover's Corners is a novel that is both personal and universal. It's a story of love and loss, and it's a reminder that even in the most ordinary places, extraordinary things can happen. The setting is a symbol of simplicity, and it's a reminder that life is beautiful, even when it's hard. Grover's Corners is a novel that is both a love story and a love letter to the human heart.
TRUCKEE ROAD
Pacific Beach, Northeast

In its place we now find a pair of short cul-de-sacs named for two British MPs of the early 20th Century: Balfour Court and Bellloc Court.

WARD ROAD
Normal Heights and Mission Valley

Yes, they were descended from those Donners.
The two-story, wood-frame Murphy house stood on the west side of the canyon till the 1940s.

MURPHY CANYON ROAD
Mission Valley, Kearny Mesa East

Until the turn of the century, Ward Road north of University Avenue was honored in the names of Murphy, Murphy, and Murphy, but the street north of University was called Ward Road. This neighborhood was named Murphy for aSETS OF MANUFACTURED HOUSES, a tennant-house suburb that nestled from Washington, S.F. ... the city center and the city center and the city center. The road was constructed south of Mission Valley in the early 1900s as a part of a network of dirt roads to the north.

The first road development was a 1922-1923 installation, which was approved by the zoning commission. The road was named after the Murphy family, who lived in the area. In 1925, Ward Road was renamed Murphy Road.

1) Hillcrest, South Mission Bay

Originally, University Boulevard ran past the state normal school, or teacher's college, which local boosters hoped would soon blossom into an honest-to-God university.

FILLMORE AVENUE, FILLMORE STREET
Hillcrest, South Mission Bay

Hillcrest, now filled with high-rise apartments and condominiums, was a small neighborhood until the 1950s. The first homes were built in the early 1900s, and the area was known for its large mansions and estates. The street was named after the Fillmore Hotel, which was located on the site of the present-day hotel.

2) Fillmore Avenue. This was the original name of the street. It was renamed from University Avenue at Normal Street. Today, it is designated as University Avenue.

3) Hillcrest, South Mission Bay

The neighborhood on the north side of normal school was called the North District. Hillcrest, in turn, was a part of the city's normal school, or teacher's college, which local boosters hoped would soon blossom into an honest-to-Good university. The site of the hotel was later named for one of the San Diego streets named after him.

4) University of San Diego, California State University, and the University of San Diego.

What's now 37th Street in San Diego was then 3rd Street in East San Diego.

ACHILLES DRIVE
East San Diego

In the early 20th Century, the street plan of East San Diego was that of a grid. As the city grew, the streets were extended to the north and south. By the mid-20th Century, the grid was extended to the east and west. Achilles Drive was a new street that was laid out in the area of what is now 4th Avenue and 37th Street. The street was named after the Greek hero Achilles, who was known for his strength and bravery.

CHESTNUT STREET
Old Town

The northwestern block of Chestnut at Taylor was one of the largest of these, with a strip of tourist cabins and a big lot for trailers.

NASHVILLE STREET
Sports Arena Eye Care

Former Nashville Street resident Ralph Willis reminisced that Nashville was the "main drag" in the neighborhood during the 1930s.

IN HEAT

THEY WON THE WORLD
THE WAY WOMEN WIN MEN

BY ANA MARIA CORONA
PHOTOGRAPHY BY SANDY HUFFAKER, JR.

YOUR MOUTH FEELS LIKE IT'S FULL OF MALIGNANT SCORPIONS.

Malaria is the spring of Europe and Latin America dominated the world. It was originally caused by the Plasmodium vivax, a protozoan that invades red blood cells and multiplies within them. Unlike other diseases such as cholera or typhoid fever, which are caused by bacteria, malaria is a parasitic infection of human cells. This makes it extremely difficult to treat, as antibiotics are ineffective against the parasite. Over the years, there have been many attempts to eradicate malaria, but they have been largely unsuccessful. In 1952, a team of researchers led by the World Health Organization launched the first large-scale anti-malaria program, and by 1955, the incidence of malaria had declined by more than 80% in some countries. However, the disease continues to spread, and there is still no effective vaccine against it. In recent years, there has been a resurgence of malaria in some regions, particularly in Africa. This is due in part to the spread of malaria-resistant strains of the Plasmodium vivax, as well as to the breakdown of health care systems in many countries. Despite these challenges, there is hope that new treatments and vaccines may eventually be developed to help control the spread of malaria and combat this deadly disease.
An American Gulag
A Banned Classic Meets The Public

T

The screening committee for the Palisades Library, which is必需

screening the film "A Gulag Named America," by freelance

journalist Neil Young, said it would not be showing the docu-

mentary because two of its actors are Jewish. The library's

director, Robert B. H. Green, said the library would not be

showing the film because it was "too controversial." The lib-

rary's policy is to screen films that are not controversial.

The film, which is available on VHS, was banned in Russia

and Poland and was not shown in the Soviet Union.

The library's policy is to screen films that are not con-

troversial. The library's policy is to screen films that are not

doctrinal. The library's policy is to screen films that are not

Wandering Skipper Confronts Annihilation

Most People, Aside From Entomologists, Could Give A Damn

Deborah Jannotti, as research assistant with theEntomology Department at UC San Diego, had long been aware of the Wandering Skipper's decline. But it was only recently that her focus turned to the butterfly's plight. "The species is in trouble," she said. "But few people seem to care."

The Wandering Skipper, a small butterfly with blue and yellow patterns, is native to California and is found in areas with open grasslands and woods. But due to habitat loss and climate change, the butterfly's population is declining.

"It's really sad," Jannotti said. "But people just don't care."

Jannotti has joined forces with other entomologists and conservationists to try to save the butterfly. They are working to raise awareness and fund conservation efforts.

"We need more people to care," she said. "It's not too late. But we need to act now."

The butterfly's decline is just one example of the many issues facing California's wildlife. Climate change, habitat loss, and pollution are all contributing factors.

The Wandering Skipper may be small, but it is a symbol of the larger problem of biodiversity loss. The fate of the butterfly is a reminder of the importance of protecting the natural world.

Hermes, a small butterfly with blue and yellow patterns, is native to California and is found in areas with open grasslands and woods. But due to habitat loss and climate change, the butterfly's population is declining. Hermes is shown in the image on the right.
**Even With All These Qualifications, Still A Limb Worth Going Out On**

A four-and-a-half-minute experience of Paradise...

San Diego Opera went out a limb in staging "The Pearl Fishers" in the current season. It was first performed in 1864 in its current version. The opera, set in the near East, is a tale of love and betrayal and the struggle for freedom. The music is by Amilcare Paganini, and the libretto is by Alphonse Royer. The production is directed by San Diego Opera's general director, Michael Kurowski.

**Review**

By: JOANNA SAVELLE

"The Pearl Fishers" is a grand opera that combines music, drama, and spectacle. It is a story of love, betrayal, and the struggle for freedom. The music is by Amilcare Paganini, and the libretto is by Alphonse Royer. The production is directed by San Diego Opera's general director, Michael Kurowski.

T.G.I.F.
The great, long-beaked storks rising majestically from their nests...

You've heard that huge brotherly spread of storks rising majestically from their nests in the morning glory, Gabriel Church (which resembles something tiny but very strong through the glass). However, this gem has been always at the center of attention for its majestic storks. The same phenomenon was repeated in the same day. We are so glad that we had the chance to join the family of the storks.

Igor Stravinsky's "Oedipus Rex" is the most spectacular and powerful work of the latter part of Stravinsky's career. The piece is a re-creation of a Greek tragedy and also the first opera written for modern orchestra. It's a powerful work that continues to captivate audiences today.

A new CD from Sony Classical presents works by Gershwin and Stravinsky. The Gershwin pieces include the complete Rhapsody in Blue and An American in Paris. The Stravinsky works include the ballets Pulcinella and Agon. The recording features world-renowned pianist Evgeny Kissin and the Russian National Orchestra conducted by Russian maestro Andris Nelsons.

Do not miss this opportunity to experience the magic of Igor Stravinsky's "Oedipus Rex".
Calendar

The gigantic figure seemed to move forward under his own motive force.

The persistence of pagan religious observances has been particularly strong in Spain.}

uncomfortable with these pre-Christian customs, which form part of the fabric of Spanish life. The pagan traditions have been firmly entrenched, Chrismated, but that does not mean that they are not challenged or contested by the dominant Christian culture. In Spain, the national spirit of hoodwinking, which seeks to add a satirical connotation to the ancient traditions, is not uncommon. This phenomenon has spread to other parts of Spain, including the Basque country, where the local traditions have been adapted to suit the national spirit.

The calendar for the Church in the South Atlantic is printed on high-quality paper in a manner that is similar to the printing of religious calendars in Europe. The church calendar is designed to be used in conjunction with other religious observances, including the traditional observances of the Roman Catholic Church. The calendar is also used as a tool for teaching the history of the Church and its traditions.

Sole On Ice?

...the musical is a metaphysical mess...

[Article begins with a quote and continues with a review of a play or musical, discussing its themes, performances, and overall impact.]

---

For our grand finale of this masterpieces season, we've gone to great ends to bring you a singer who is compared with both Domingo and Pavarotti. Richard. But this explosive performer together with 2 artists like mazo-soprano Joan Birby and bang! you have an unforgettable performance of Werther, the heartbreaking tale of a poet driven to destruction by his love of a woman he could not have.

---

HOW TO RESPOND TO PHONE MATCHES

1-900-844-6282
Mon-Fri 7:00am - 10:00pm ( PST )

To respond to Reader Phone Matches™ ads, call 1-900-844-6282. Any time, 24 hours.

When you call, you will from the Phone Matches™ column, use the 3 digit response number assigned to the ad, plus the 4 digit number that is the person's telephone number. In the ad's text is the

The first digit of the response number is the last digit of the ad's telephone number. The second digit is the first digit of the person's telephone number. For example, if you want to respond to an ad

FROM OUTSIDE SAN DIEGO COUNTY CALL 1-800-454-2378
$1.49/minute (16 cents per min)

To return the call, enter the response number along with the 4 digit telephone number. You will not be billed for calls from your phone, you cannot return calls from a pay phone. If you may not have recorded an introduction by the time you call, if you can, you can still have a message in his or her mailbox.

THE MOTHER OF ALL PHONE MATCHES

Introducing Reader Phone Matches™: Great Place to Meet Single People.

You are provided with a free personal matching ad in the Reader Classifieds.

You also receive a free "voice mailbox" - a phone service that allows you to record and receive messages from any touch-tone phone.

HOW TO PLACE YOUR AD:

To place a free Phone Match ad, fill out the coupon below and mail it to P.O. Box 533, 10046. Please photocopy the coupon first and then fax it. The newspaper's name is printed with the ad.

The deadline for receiving free Phone Matches ads is Saturday at 5pm. Fee ads are 29 words and run for two weeks. Fee ads will be accepted over the phone at any time. Ads with more than 25 words will be charged an additional $1.35 per additional word. We will not accept more than one ad per person per two-week period.

You may also place a fee ad (per 400 words at $30.46), in our office (1031 India St. at 5th St., downtown), or by fax (255-3702). The charge for these last ads is $30.46 for the first 25 words plus $.20 per additional word. Ads placed by phone or by fax are with Visa or MasterCard only. Limit one Phone Match ad per person per two-week period.

You can also respond to any ad by phone or by fax. All correspondence must be mailed to the address given in the ad.

HOW TO USE YOUR VOICE MAILBOX:

Your voice mailbox is a secure, private line that allows you to store messages and retrieve them by phone number or by name and phone number. You can change the name and phone number or address. You can also use the voice mailbox to send messages to other readers.

SPECIALS:

- Free 10-week Phone Match™ ad inclusion ($95 value)
- Free 10-week phone number inclusion ($45 value)

**Phone Matches Success Stories:**

Dan Rose and Ann Lazok

Dan: I placed my ad in January of 1991. I was looking to meet some new people. I'm a quiet person, and the bar scene just isn't my style.

Ann: This was the third person I met with through the Reader. After the first date, which didn't really work out, I wanted nothing more to do with Phone Matches.

Dan: I really wanted to like her at that point. We had a lot in common. During lunch, she asked me if I wanted to come to dinner that night at her friend's house — with her family.

Ann: I was having fun and felt comfortable with Dan, and I was sort of daring him: Can you take this? Do you really want to meet my family and friends on our first day together?

Dan: Her parents didn't like me at first...

Ann: Not at all. He was so mysterious. But they like him now!

Dan: After a second date with Ann, I didn't see her for a week. I had a prior commitment with another Phone Match date, but I didn't enjoy myself. I kept wishing I was with Ann instead of the other girl.

Ann: I never imagined meeting someone like Dan through the Reader. I was just looking to make a new friend. And now we're getting married on July 17.

Dan: Ann's personality attracted me from the start. She understands other people, and I admire that about her.

Ann: And Dan makes me feel so special... he loves me more than anything else in the world! He's my honey.

City By City...

Monterey Bay's remarkable history and beauty is so breathtaking that once you visit you may never want to leave. Here's a close-up look at each of our special cities, towns and villages.

Big Sur

Peppered with small, unique communities that are a world away from the hustle and bustle of big cities, the Big Sur region is a treasure trove for nature lovers and outdoor enthusiasts. This area is known for its stunning coastal views, which can be experienced along the scenic coastal drive. Whether you're hiking, camping or simply enjoying the beauty of nature, the Big Sur region offers a wide range of activities and attractions.

Atwood's Wharf

The Atwood's Wharf is a charming maritime village that offers a unique blend of historic charm and modern amenities. With its picturesque harbor and charming shops, restaurants and galleries, Atwood's Wharf is a must-visit destination for anyone visiting the region.

Monterey Bay Aquarium

Located in Monterey, the Monterey Bay Aquarium is one of the world's most popular aquariums and offers a fascinating look into the marine life of the Monterey Bay region. With its interactive exhibits and daily animal presentations, the aquarium is a wonderful place to learn about the marine world and enjoy a day of family fun.

Cannery Row

Cannery Row is a historic district in Monterey that was once home to the city's fishing industry. Today, the area is a popular destination for visitors who want to explore the history and culture of the region. With its quaint shops, restaurants and historic landmarks, Cannery Row is a must-visit destination for anyone visiting Monterey.

Atwood's Wharf

The Atwood's Wharf is a charming maritime village that offers a unique blend of historic charm and modern amenities. With its picturesque harbor and charming shops, restaurants and galleries, Atwood's Wharf is a must-visit destination for anyone visiting the region.

Carmel

Carmel is a small seaside town that is known for its laid-back atmosphere and charming streets. With its picturesque harbor and historical landmarks, Carmel is a charming destination for anyone looking for a peaceful getaway.

Monte Rio

Monte Rio is a small town located in the heart of the Redwood region. With its scenic rivers and natural beauty, Monte Rio is a popular destination for outdoor enthusiasts who want to enjoy the beauty of nature.

Fort Ross

Fort Ross is a historic site located on the northern California coast. Once a Russian settlement, Fort Ross offers a fascinating look into the history and culture of the region. With its restored buildings and interactive exhibits, Fort Ross is a must-visit destination for anyone interested in history.

Monte Rio

Monte Rio is a small town located in the heart of the Redwood region. With its scenic rivers and natural beauty, Monte Rio is a popular destination for outdoor enthusiasts who want to enjoy the beauty of nature.

Carmel

Carmel is a small seaside town that is known for its laid-back atmosphere and charming streets. With its picturesque harbor and historical landmarks, Carmel is a charming destination for anyone looking for a peaceful getaway.
The Inns & Outs of Monterey.

Carmel Valley

Carmel Valley is a rural retreat, yet only a 10-minute drive from the popular Monterey Peninsula. It offers a serene and picturesque landscape, perfect for nature lovers and those seeking a peaceful getaway. From its lush forests to its picturesque countryside, Carmel Valley is a must-visit destination for anyone looking for a touch of wilderness in an otherwise bustling area.

West Coast

The West Coast is known for its beautiful beaches and vibrant cities. Monterey is a must-visit destination known for its rich history and stunning natural beauty. Visitors can explore the iconic Monterey Bay Aquarium, the historic Monterey Fish Market, and the charming downtown area. The coastline is dotted with picturesque towns, each offering a unique charm and atmosphere.

Discover Monterey's Shopping Attraction

Enjoy shopping and dining in style at the AMERICAN CANNERY FACTORY OUTLETS. Located near the Monterey Bay Aquarium and other popular attractions, this outlet offers a wide selection of clothing, shoes, and accessories at discounted prices. Whether you're looking for a new outfit or a special gift, the AMERICAN CANNERY FACTORY OUTLETS is the perfect destination for all your shopping needs.
Weirdly Wonderful Jellies.

A jellyfish isn’t a fish. A jelly has no brain, no heart, and no face. Jellies are almost all water and only the most primitive tissue. Washed up on a beach, they seem no more than shapeless blobs. But in the sea, pulsating through the water, trailing delicate tentacles, they are creatures of magic. Exquisite beauty. Jellies are among the most diverse creatures on earth and, with their stingless tentacles, some of the most deadly. Yet, as simple as they appear, their lives are complex and mysterious. And there’s much we don’t know about them. Or the part they play in the ocean’s ecosystem.

<table>
<thead>
<tr>
<th>JELLY NAME</th>
<th>DESCRIPTION</th>
</tr>
</thead>
<tbody>
<tr>
<td>SCOURING JELLIES</td>
<td>Jellies in the shallow waters near the shore often develop a slimy, almost translucent appearance. Jellies also feed on the sponges and corals in the reef.</td>
</tr>
<tr>
<td>DUVET JELLIES</td>
<td>When sleeping, jellies retreat into their protective coverings, called duvet jellies. This is a protective strategy to avoid predators.</td>
</tr>
<tr>
<td>SUNKEN JELLIES</td>
<td>These jellies lie quietly on the ocean floor, using the tides to move from one area to another.</td>
</tr>
</tbody>
</table>

Sandstone impressions of jellies have been found dating back as far as Cambrian times—some 600 million years ago. As fragile as they undoubtedly are, it’s ironic to think that jellies, in all their wonderful diversity, will likely survive as long as the seas support life.

MONTEREY BAY AQUARIUM
Theaters

Monterey Bay is home to more than 20 theater companies, two symphonies, and several classical music series. Here are the best locations for seeing the performing arts:

**Carmel Mission**
- Located in the heart of Carmel
