It Seems There Are No Motorheads
As someone who has been building motorcycles since 1961, I was very surprised to read in the April 1993 issue of "Cruiser" that you mentioned in a story about motorhead wear of the future that the "Motorhead" motorcycle squawked, "You ain't got a clue, buddy!" ("Cruiser," April 1993). It is surprising to see an article by an automobile enthusiast that is so off the mark.

Also, in the very next paragraph it states, "Second, motorcycles are not for the weak of will. In the coming decade..." This is a true statement, however, it is not the kind of rhetoric that would be expected from a national magazine.

I was very disappointed with the article and hope that you will take the time to review the article before it goes to press.

Sincerely,
Bob Smith

Motorcycle Owner's Association

The Main Cause Of Dangerous Cholesterol

"Cholesterol is not just a threat to your heart. It is also linked to your risk of developing heart disease. High cholesterol levels can damage your blood vessels, leading to a variety of serious problems.

The main cause of dangerous cholesterol is a lifestyle that includes obesity, physical inactivity, and a diet high in saturated fats and cholesterol. This lifestyle can lead to the accumulation of excess cholesterol in the blood, which can then cause the formation of plaque in the blood vessels. This plaque can narrow the blood vessels, impairing blood flow and increasing the risk of heart disease.

To reduce your risk of dangerous cholesterol, you should make lifestyle changes that include:

- Maintaining a healthy weight
- Engaging in regular physical activity
- Eating a diet low in saturated fats and cholesterol

By making these changes, you can help to lower your cholesterol levels and reduce your risk of heart disease."

Sincerely,
Dr. Jane Smith

The Cholesterol Foundation

CANCEROUS TUMORS INFLUENCED BY TYPE OF FAT IN THE DIET

Solid Gold uses canola oil and flaxseed oil (also known as linseed oil) in the Hund-N-Flocken (dry dog food flakes) and Katz-N-Flocken. Solid Gold also developed the Positive Pets Pinrose Oil for pets allergic to fish oils.

In a recent animal study at the Linus Pauling Institute of Science and Medicine at Palo Alto, Calif., evaluations were made about the effects of different oils on breast cancer. When the animals were exposed to breast tumor-carcinogenic agents, the death range depended on the type of dietary oil they were fed.

The animals that fared worst were those whose diets were supplemented with corn oil and soya bean oil—less than 10% of these animals lived past 40 weeks.

However, the animals fed flaxseed oil, pinrose oil or oil from fish had a 90% survival rate after 40 weeks.

The world famous nutritionist, Dr. Jeffrey Bland, who was involved in the study, said that there may be a profound relationship in such diet patterns and the risk of cancer.

Solid Gold uses no type of animal fat. For over 10 years, the Surgeon General has recommended a decrease in consumption of animal fat. It contributes to heart disease and cancer.

SOLID GOLD NEVER USES CHICKEN OR Poultry

In a recent Prime Time TV show the researcher said that chickens are given so many female hormones to develop large breasts, that it was found that breast cancer in women under the age of 25 went up by 18% in one year, these young people frequent fast food places serving chicken.

In the July 21, 1994 issue of Health Freedom News, the article interviewed Dr. Lendenton, a famous nutrition doctor. He said he had seen many cases of young girls developing breasts before puberty because of excess female hormones in the diet.

Another TV interviewer said that some young men were developing breasts for the same reason.

Dogs get breast cancer. It is called neoplasia.

For the Solid Gold Hund-N-Flocken, we use fish, lamb, milt, barley, blueberries for the eyes, yucca for bone and joint problems and color control of body and stools, and two polyelectrolytes for allergies and a long life. Our oils are canola and flaxseed. We don’t use beef, chicken, wheat, corn, soybeans, salt, sugar beet pulp, BHT, BHA, and, of course, no ethoxyquin.

No other pet food can even come close to our superior ingredients. We have our Hunchen Flocken for puppies. Available in 4-, 20- and 40-pound bags.

We are looking for health-conscious people and stores to be our dealers, or call us for the name of the closest distributor to you.

You are what you eat, and so is your dog. To receive a catalog of our many Solid Gold products, mention the name of this magazine and send $1.00 to:

1st Annual Summer Clearance Sale
Saturday, May 15, 10 am-6 pm • Sunday, May 16, 11 am-6 pm

Many of our manufacturers just made model changes and to help move our "last month" models, we’ve decided to have a blow-out sale. Unlike other stores who pretend to have a sale every week on merchandise not worth owning at fictitious savings, Sound Company only carries the "best" components money can buy – in each price range. Seldom do we have a sale, but when we do, look out.

Saturday, May 15 and Sunday, May 16 Sound Company will be having showroom sales on large-screen TVs, laser disc players, TVs, audio components, Willkomm, car stereo, camcorders, furniture, and more. Now you can afford to own the best - don’t wait.

Nakamichi CD Player only $249

Delivering exceptionally musical CD reproduction and smooth, reliable operation, the CD-4 exemplifies Nakamichi’s uncompromising standards for sonic accuracy and quality manufacture.

The CD-4 is the ideal choice for the enthusiast who desires the basic operational simplicity of a straightforward single-disc CD player, but who nonetheless demands uncompromising musical accuracy. Benefiting from Nakamichi’s many years of fundamental research at the forefront of optical disc and digital signal processing technologies, the CD-4 incorporates the most advanced and sophisticated mechanism and circuit design. And like all Nakamichi products, the CD-4 is the result of an extensive development cycle that includes numerous "live to reproduce" listening tests. It is thus capable of revealing the interiormost detail with effortless transparency. Soundstage and ambiance information, so often lost during playback with inferior equipment, is reproduced intact with unerring accuracy. Superbly musical and astoundingly affordable, the Nakamichi CD-4 represents an exceptional value among today’s CD players.

Award-Winning Polk CS100 at its lowest price ever - FREE!!

Not to be missed! The Polk CS100 was the ultimate "Budget" speaker. This is the time to get it at the lowest price ever. FREE!!!

Norris had never seen such carnage: bits of body everywhere, girls with their stomachs hanging out, old men beheaded.

World-Weary Brit Wings It Alone To San Diego

By Jamie Reno

Not long, veteran journalist Bill Norris, 46, was on his "last great adventure" when he took off on a solo trip in his small airplane from St. Petersburg, Florida, toward San Diego. He had been flying a single-engine Ford Tri-Motor, which has a 790-horsepower engine, a top speed of 250 mph and a cruising speed of about 140 mph, with no plans to stop at all in between.

It was his first solo flight, and he had only been flying for a few months. He was determined to see how far he could go without stopping, and he hoped to make it to San Diego.

His first stop was Crystal River, Florida. He flew for about 10 hours, and then he flew to Las Vegas, where he spent the night.

His final destination was San Diego. He landed safely and was greeted by a crowd of admirers. He was the first person to fly solo from Florida to San Diego, and he did it in 18 days.

The experience was thrilling, but also exhausting. He went without food for 18 days, and he had to fly through some difficult weather conditions. But he was determined to see it through to the end.

In the end, the trip was a success. He made it to San Diego and was greeted by a crowd of admirers. He had accomplished something that very few people had ever done before.

The Bicycles of San Diego

San Diego boasts a large circle of bicycling enthusiasts, and although several regional events are held during the year, the most impressive are those conducted by the International Bicycle Club. The annual tours are held in February, and the May and June events are sponsored by the San Diego Bicycle Club. On Sunday, May 15, the Tour de San Diego is held, with the starting point at the University of San Diego. The event consists of a 50-mile ride, which is divided into two equal parts, with a rest stop at the University of San Diego. The tour is open to all ages, and participants are encouraged to wear helmets and ride at a comfortable pace. The event concludes with a celebration at the University of San Diego. The Tour de San Diego is an excellent opportunity to experience the beautiful scenery of Southern California while enjoying the camaraderie of like-minded cyclists. Do not miss this opportunity to participate in this exciting event!
"It wasn't until 1985 that I had my first big experience, by Mere Haze —
I saw something landing in a field on my way to the library.

Then, we examine our conscience. We are told that we should reflect on our actions and their consequences. We are told that we should consider the ethical implications of our decisions and the impact they may have on others.
I took the tour and the tour guide was telling us about the places that were there, and maybe even according to the tour guide, it was in the tour guide's mind. But I honestly don't remember where all the places were. I was there so many years ago, it was just a place to go to and then leave. There's a lot of old friends there that I knew, and I used to know them well. It's a place that I can come back to and see people who I used to see all the time. If you don't want the same thing, you can't have that. It's a place that is not good for you, but I'm very proud of it. I said, "Yes, the words "wonderful". The first time I met you, you were wonderful. People can come from all over the country to come back in time, and that's what that is all about. I've always enjoyed coming back to the old times, and I think that's why I come back. You are the only one who can do that. It's a place that I can come back to and see people who I used to see all the time. It's a place that I can come back to and see people who I used to see all the time.

The first time I met you, you were wonderful. People can come from all over the country to come back in time, and that's what that is all about. Easier than losing weight.

A lot of people think ridesharing is hard. It really isn’t.

It’s changing because you drive your car alone once a week to drive in a carpool. Or, you share the bus or trolley. Biking. Even walking.

It’s changing because you know the facts:

Ridesharing once a week cuts smog 20%.
And half the time there are three car users from just turning the key in your ignition.

Rideshare: It’s a change of pace, and good for the environment. Good for you.

Chill out on Monday. Rideshare Oneaday.
237-POOL for free information.
Announcing a radical new concept for busy adults.

A Song Without a Tune Is An Omelette Without An Egg

If you’ve heard one, you’ve heard them all, as Ronald Reagan remarked about seeing redwoods.

For nothing less than music—local music would have to be granted to some Richard Gold or be prepared to pay rock star George Martin to conduct this composition of 285 country tunes in a wide range of styles. I imagine the members of George’s orchestra to be the Firehouse Serenade band, with guitar, bass, strings, and all types of redwood trees present.

Since there are no performers, no microphones, and no grandstands, there is no need to worry about the audience. The music can be enjoyed at home or on a walk in the woods. The only requirement is a good pair of ears and a willingness to be swept away by the beauty of nature.

If you’re interested in purchasing a copy of this album, please contact George’s office at 123-4567. The album is available for $20 plus shipping.

REVIEW

Jonathan Galvan

The San Diego Times

What could be a better way to spend a summer afternoon than sitting in a hammock by the river, sipping on iced tea, and listening to the soothing sounds of nature? With the release of George’s latest album, “A Song Without a Tune Is An Omelette Without An Egg,” music fans have a new favorite to add to their playlists.

The album features a variety of styles, from country to folk to bluegrass, all performed with George’s signature style. Whether you’re a fan of traditional music or more modern sounds, George’s ability to capture the essence of the moment is evident in each song.

A standout performance on the album is “A Song Without a Tune.” With its simple yet effective arrangement, the song perfectly captures the beauty of nature. The lyrics are thoughtful and introspective, inviting listeners to reflect on their own experiences and emotions.

Other highlights include “Omelette Without An Egg,” a playful and adventurous ode to the great outdoors. The track features a catchy melody and a fun, upbeat tempo that is sure to get anyone dancing.

Overall, “A Song Without a Tune Is An Omelette Without An Egg” is a beautiful and timeless addition to any music collection. It’s a reminder to take a step back and appreciate the simple pleasures of life, and to never lose sight of the beauty around us.
ART MUSEUMS

The New Museum of Contemporary Art, 800 S. Spring St., 213-622-7563, presents the annual "New Museum Biennial," an exhibition of works by emerging artists. The exhibit is on view through May 15. Chipmunks Resurrect Wretched Beatles

You know how the Chipmunks draw out a lot of their words, and put "pings" on the consonants to make them clearer?

Randy, who grows into a short man whose features were eight years old at age 11.

The music has moved into a

New, eager era, a whole generation's
dreams with clear, clean, only slightly
shady humor, with charm, but

The six years between my

at the roots of the Beatles, for me

very same old song. And yet that didn't stop

As far as I'm concerned, I think

And we got the same songs

Along with old songs, and

Seven nation army

When people enter the grooves and are all the

They're back!

The Low Cost of Getting Fresh

You want combo plates, family dinners, beef with green peppers, and the ubiquitous kung pao chicken?aising Tao will prepare them...

During the Golden Rush Chinese chefs moved from one camp to another cooking for prospectors and miners. These experiences were called "Woo Chang," which brought their skills and techniques to parts of the U.S. where Chinese were happy to learn from and incorporate. The Chinese in San Francisco, in particular, brought their skills and techniques to parts of the U.S. where Chinese were happy to learn from and incorporate.

In the '70s, when you went to a Chinese restaurant, you could enjoy fresh and delicious. During the time of our revolution, we began to serve up some of the finest restaurants in the world. We now serve up some of the finest restaurants in the world.
