A lot of people think ridesharing is hard. It really isn't.

It's changing from driving your car alone once a week to driving in a carpool. Or vanpool. Or taking the bus or trolley. Biking. Even walking.

It's changing because you know the facts: Ridesharing once a week cuts smog 20%. And half the smog out there comes from just turning the key in your ignition.

Deja Vul Once more Congressman Hunter is at it.
Twelve years ago he set a
precedent of splitting his lot in
this R15 area on Linda Rosa
Avenue in Bird Rock, La Jolla,
so that his lot was subdivided
into two substandard lots. He

declared he needed to do this because of "hardship" due to his return from Vietnam. This was during the Wilson regime. Who knows who intervened for him then? The neighbors were asleep. So then we had Hill, Beecham, Preist — all Hill, Beecham, Preist — all speculators — and they got permits to do the same. The Bird Rock Neighborhood Association was formed to fight the effect this was having on the neighborhood. Councilperon Abbe Wolfshiemer is to be commended for the city ordinance that finally went through to stop this. Congressman Hunter, you would do well to stop circum-

One of the chief instruments and symbols of this interaction is the ritual mask, which trans-

The decimanted people that now worship historical oppression secretly triumph over the Catholicism that has been imposed upon them: it is not the student of the characteristic imagination the desirects spiritual energies in rocks-fallen from the sky.

Although the bizarreness of this form of worship is quite startling, it does not dominate the photograph. It takes an exceptional artist to confront us with the artifacts of a religion we have been led to ignore or to treat with in-

persition of a primiter mind but a true perception of numi-ner temperature of numi-ner still able to understand the language of spirit. Flor Gar-duño evidently understands that language herself — per-haps not the way the Maya do, but far better than the great ma-jority of artists these days, in photography or any of the other arts. 8

Easier than losing weight.

A lot of people think ridesharing is hard.

It's changing from driving your car alone once a week to driving in a carpool. Or vanpool. Or taking the bus or trolley. Biking. Even walking.

It's changing because you know the facts: Ridesharing once a week cuts smog 20%. And half the smog out there comes from just turning the key in your ignition.

Rideshare. It's a change of pace that's good for the environment. Good for you.
