Sensualistic Piece Of Trash

I thought the article "Christine" and "The Last of the Mohicans," August 17, was a

sensationalistic piece of trash. In reality, the author, while perhaps clever in the use of

words, is more a writer of trash, since a writer of trash is one who appeals to the

sensualistic desires of the reader. The author probably should take a course in

writing, since the article was written in an elementary manner. People who

read trash like this are not being educated by reading. Everyone should avoid

articles like this in the future.

Rod Williams City Heights

Mama-Say-Mama-See-Mama!!!

I was very disappointed to see the article "The Grammys and Rock and Roll" in the issue of

August 17. I have been a fan of rock and roll for many years and I enjoy seeing all of the artists

that are nominated for awards, but this article seemed to be more about the politics

and awards than the music. I think that people who enjoy rock and roll should

be able to see their favorite artists perform live without having to worry about

politics getting in the way. I hope that future articles will focus more on the

music and less on the politics.

Gary Thompson Palmdale

DIG IT OUT

Dixie Chicks, "Lullaby," August 3

I think this song is one of the best songs ever written. It speaks to me on a level that

no other song has been able to. The lyrics are beautiful and the melody is

memorable. The harmonies are perfect and the overall sound is just

amazing. I highly recommend this song to everyone. I believe that this song

has the potential to become a classic and I hope that it continues to

reach new listeners.
A Gay London Play about Miramar's Top Guns
By Bill Macdonald

"H"ave you ever had or do you intend to have sex with people of different nationalities, members of the Communist Party, or people of the same gender or small animals?"

It depends on what you mean by 'small'. I'm not a member of the Communist Party, but I have had sex with people of different nationalities. I don't think Communist Party members have sex with me, but I can't be certain. I don't have sex with small animals.

Susan's golden year
When Susan Golding arrived at the theater for her first night as a performer, she was wearing a short-sleeved blouse, jeans, and hiking boots. She had a confident demeanor and was greeted by the audience with applause and cheers. Golding's performance was praised by critics, who noted her ability to connect with the audience and her natural talent.

Susan and Pete's Bay Area Money Machine
By Thomas K. Arnold

With a year and a half still to go in her first term as San Diego mayor, Susan Golding has already amassed a campaign war chest of nearly $100,000, ostensibly for her reelection campaign but still subject to criticism.

Golding's campaign treasurer, John Smith, said that the campaign has been well-funded due to Golding's popularity and her ability to connect with voters.

However, some critics have expressed concern about the use of campaign funds for personal purposes.

Susan Golding, a former state senator, has been a prominent figure in politics for many years. She was first elected to the state legislature in 1980 and went on to serve as mayor of San Diego for two terms. Golding's campaign has received donations from a variety of sources, including union organizations and wealthy individuals.

Inside politics
Changes occur and San Francisco is no exception. But one thing that hasn't changed in a long time is the way that people think about politics. It's still all about money, and the rich continue to get richer.

But not all is lost. There are those who believe that change is possible, that the system can be reformed. And while it may seem like an uphill battle, there are people out there who are willing to fight for it.

``We must continue to strive for a fair and just society, for a world where every person has the opportunity to live a fulfilling life. We must not give up."

Editor's note
The 1995-1996 season has been a banner year for San Francisco theater. With a variety of productions taking place throughout the city, there is something for everyone.

The San Francisco Theater Scene
By Bill Macdonald

The 1995-1996 season has been one of the most successful in recent years. With a variety of productions taking place throughout the city, there is something for everyone.

The season kicked off with a sold-out run of "A Gay London Play about Miramar's Top Guns," which was well-received by both critics and audiences.

Other standout productions included "Susan and Pete's Bay Area Money Machine," a dark comedy about the world of politics and money, and "Susan's golden year," a biographical play about the life of San Diego mayor Susan Golding.

As the year comes to a close, theater lovers can look forward to a new season filled with even more exciting productions.

Thank you for supporting our local theater community. We look forward to seeing you next season!

"People's Republic of Coronado"

BY BILL MAHONY PHOTOGRAPHS BY BRYAN PEPPER

"Coronado is a very small town. It's a community of about 6,000 people. The town is located on a sandbar in the Pacific Ocean, surrounded by water on three sides. It was originally a military base during World War II, but it's now a popular place for vacation and retirement. The town is known for its beautiful beaches,游艇, and mild climate. Coronado is also a golfing paradise, with several golf courses located within the town limits. In addition, the town is home to the historic Coronado Cays, a collection of Victorian homes that are now a popular tourist attraction. Coronado is a great place to live or visit, and it's definitely worth a trip to"

Paranoia Falls Like Rain

Zip Dobyns Presents Astrological Charts Related to the Oklahoma City Bombing

On Sunday, April 19, 1995, a devastating explosion occurred in Oklahoma City, leaving a trail of destruction and shattering lives. The event, which claimed the lives of 168 people and injured over 800, remains one of the most tragic in modern American history.

The event was carried out by Timothy McVeigh, a former U.S. Army soldier, and Terry Nichols, a friend and fellow survivalist. They were members of a group called the Aryan Republican Army (ARA) and were part of a larger movement of white supremacist groups at the time.

The explosion was caused by a truck bomb placed near the Alfred P. Murrah Federal Building, which was the headquarters of the Oklahoma City offices of the Department of Housing and Urban Development (HUD), the Federal Bureau of Investigation (FBI), and other federal agencies.

The immediate aftermath of the explosion was a wave of shock and disbelief across the nation. The world watched in horror as the city of Oklahoma City was reduced to rubble.

In the years that followed, the investigation into the terror attack continued, with numerous questions remaining unanswered. Despite the passage of time, the families of the victims and survivors continue to seek justice and closure.

At the time of the bombing, Zip Dobyns was a well-known astrologer and psychic, known for his chart predictions and horoscopes.

Dobyns had predicted the Oklahoma City bombing before it occurred, using his astrological charts to forecast the event. He had published the charts in his newsletter, which was a part of his primary line of work.

The charts predicted that there would be a significant event in the United States, one with the potential to cause widespread destruction and loss of life. Dobyns had also predicted that the event would be carried out by a terrorist organization.

In the aftermath of the terrorist attack, Zip Dobyns was interviewed extensively by the media, and his predictions were widely discussed. The charts were seen as a disturbing example of how astrology can be used to predict violent acts.

Dobyns himself was not involved in the Oklahoma City bombing, and the charts he had published were not intended to be a prophecy.

The tragedy of Oklahoma City serves as a reminder of the destructive power of hate and the importance of peace and understanding in our world. The events surrounding the bombing continue to shape contemporary discussions about terrorism, hate crimes, and the role of astrology in society.

As we remember the victims and survivors of this tragedy, it is important to reflect on the lessons learned and to work towards a future where such acts of violence are not repeated.

End

As seen on TV

Point-and-Click Death
By Abi Opincar

I sometimes wonder what people are good for. I mean, do we really need television? I don't know. I think we should all just turn off our TVs and go outside. Maybe then we'd all be happier. But I guess that's just my opinion. I'm really not sure what's going on these days. I mean, everything seems to be changing so fast. It's hard to keep up with it all. I don't know what to believe anymore. It feels like everyone is talking about something different every day. I don't know what to think. I wish I could just go back to the good old days when things were simple. I miss the old days. But I guess that's just my perspective. I'm sure there are other people who feel differently. I don't know. I just know that I'm tired of trying to figure everything out. I think I'm just going to keep my mouth shut and let other people figure it out for me.
Sennacherib Would Have Hated This Review
It is not easy to love the ancient Assyrians.

L

Aren't you sorry to see the old Assyrians leave us? They are so ugly, so cruel, and so primitive. They had no sense of humor. No, they were not the jokesters of history. They were the warriors of history, the conquerors of the ancient world. They were the people who destroyed the great cities of the Egyptians, the Babylonians, and the Medes. They were the people who brought the world to its knees.

One of the great collections of Assyrian art is to be found in the British Museum. Beginning with the excavation of Nineveh in the 19th century, the Assyrian empire was uncovered, and the art of this great empire was revealed to the world. The British Museum, with its vast collection of Assyrian artifacts, is the place to go to see the best of this ancient civilization. The museum has a vast collection of sculptures, tablets, and inscriptions, all of which are beautifully presented.

The Assyrians were great artists, and their work is still admired today. Their statues, reliefs, and inscriptions are masterpieces of art, and they are a testament to the creativity of this ancient civilization.

So, what can we say about the ancient Assyrians? They were cruel, brutal, and primitive. But they were also great artists, and their work is still admired today. So, next time you are in London, make sure to visit the British Museum and see the best of this ancient civilization.

We Don't Want to Think That Far
"Nobody knew what happened to Leo J. Porter, he didn't come home again."

Porter was a musician whose career took a turn in the summer of '39. He decided to go on tour with a band called The Shadows, and he never returned home. His family and friends searched for him, but to no avail. Theories about his disappearance range from suicide to foul play, but the truth remains unknown.

As the years went by, the Porter family continued to search for answers. They could never shake the feeling that Leo was still out there, somewhere, waiting to be found. The family held vigils and embraced each other for comfort, hoping that one day, the mystery of Leo's disappearance would be solved.

Meanwhile, the world moved on, and The Shadows continued to perform without Porter. The band's popularity waned, and they eventually disbanded. The family was left to pick up the pieces of their lives and carry on, never giving up hope for a miracle.

The story of Leo J. Porter and The Shadows has become a legend, one that continues to captivate and inspire people to this day. It serves as a reminder of the importance of family, friendship, and perseverance in the face of adversity.

The family is still searching, just as they have for decades, hoping that one day, they will find answers to the questions that have haunted them for so long.

He is not acceptable, soft and squishy as he is, as a Douglas Fairbanks acrobatic swashbuckler.

The 

The glue budget of 'Waterworld' — a $175 million washout to be the biggest movie of all time — comes as no surprise when you consider the visual effects side of making a movie and, in this case, just a good ol' film set out to be the second biggest thing in the world. The visual effects side of making a movie is nothing without a good 3-D printer to make it all come together, but the visual effects side of making a movie is also nothing without a good 3-D printer to make it all come together.

Keeping things in mind all the while, 'Waterworld' is full of nautical thrills and is worth a look. It's a great film, and the audience will enjoy it. The film is a worthy successor to the original 'Waterworld' and is a triumph of visual effects and storytelling. The film is a worthy successor to the original 'Waterworld' and is a triumph of visual effects and storytelling.

The film is a worthy successor to the original 'Waterworld' and is a triumph of visual effects and storytelling. The film is a worthy successor to the original 'Waterworld' and is a triumph of visual effects and storytelling.
