## Goodbye in the Morning

Phis began as a story about breakfast. I had been thinking about breakfasts and the near obsolescence now of extravagant morning meak. These meak were earthy pook on America's farms and in its small towns; they were earth in the dark in winter and in gazd wash in spring and summer. Fried eggs, yolks straining against tense, transparent membrante bacon slices out from sugar-cured slabs, the bacon fat cames white between dark facen ibacut that steams. I remember all this. My grandmother has spread the morning paper open under my bowl. I dawdle with my oatmeal, pat its stucco surface with the back of my spoon. ## **Phone Matches Success Stories:**

Larry and Danielle Yano

YOUNG 46, white female seeks someone honest, fun-loving, 40-55, who shares like interests in music, dancing, outdoors, walks, movies, travel, communication, touching, North County,

Danielle: I read the Phone Matches<sup>114</sup> ads for a long time before I decided to try my own. Once I finally wrote it, I got this great feeling of relief. Then it became fun. I tooked forward to seeing what happened.

Larry: I dated people through Phone Matches™ for a year, and I never came across anyone who wasn't a decent, hardworking person. I met a lot of really neat people and even made some friends.

Larry: I lived in Rancho Bernardo, and she lived in Escondido. We were geographically compatible.

Danielle: The first time we met was at Denny's, for coffee. I expected the meeting to last for 10 or 15 minutes. But Larry was so easy to talk to that I didn't want to leave.

Larry: It turned into dinner at Denny's.

Danielle: I didn't have any money with me, so Larry had to pay.

Larry: She stiffed me on the first date.

Danielle: It's hard to say how the whole thing evolved. I liked his ideas, and we agreed on a lot of people issues

Larry: We have the same value system. Things like religion, justice, honesty, respect for each other's ideas.

Danielle: I wasn't looking to get married, but marriage was something we talked about early on.

Larry: It was pretty mutual. We both knew that we had something special. We got married on October 2, a year and two weeks after we met.

Danielle: Having been married before, I can spot where the

Danielle: Larry's very gentle, and I can't rattle him. He's a good balancer for me.

Larry: She does the laundry and I take care of the kitchen. The household work divided up naturally, without us even discussing it.

Danielle: We both like to travel, to take car trips. But we don't always agree on who gets to drive.

Larry: I think there's a lot of people, like us, who are so busy that they don't run across others they can date. Phone Matches<sup>TM</sup> is an easy way to do that.

San Diego Reader Phone Matches Danielle: It's also a good way to prescreen people. I think it's safer than going out with the guy next door. When I hear women say, "I'm not that desperate" or "It's not safe," I say, "Well, that's how I met my husband."

Another persistent feature of Gaugain's view of realty is his implicit belief that the world is made up of distinst, a tuntomous, individual things, each obeying its own inner laws of being (rather than universal scientific laws). In science, individual objects are not valued for themselves but merely used as instances of more general principles. So is his sense of the way the units of shape and color paradoxically form a meaningful whole, an overarching unity and totality of the real. The separateness of all these individual entities (in-dicated by the prominent outlines) is integrated not into a general theory — as in science — but not into a general theory — as in science — but the colors.

His most obvious means of communicating this fusion of the many and the one is in his treatment of his davorice type of subject, figures.

I'm cranky this week. I'm trying to get ready for a trip. Next Sunday morn-ing at 7:20, my husband, Jack, almosting at 7:20, my husband, lack, almost-three-year-old Rebecca, eight-month-old Angela, lack's parents and I will wedge ourselves and 12 jetices of carryon luggage into a narrow row of underpadded coach, triplane seats. We'll fly to Dallas where we'll lug our carryons to another plane and fly to Boston. In Boston, we'll stoop into a computer plane and fly to Natucket commuter plane and fly to Nantucket Island off the coast of Cape Cod. Jack's parents decided to celebrate their 50th wedding anniversary in

Nantucket. Nantucket.

For most people, preparing for a trip means packing. I've got plenty of packing to do. The house where we'll be staying has no crib or highchair. We'll need to bring Angels's port-e-crib and bedding and portable high-chair. We'll need to take our gargan tuan double stroller to get through the airport with all our stuff. Beca none of our flights have meal serv

none of our flights have mod service. I'll need to bring jave of bally food. Tuppeware containers of rice cered, and bottles of per juice for Angels. I'll pack Nutri-grain bars, life cered, rasins, apples, and juice for Rebecca. I'm on Weight Watchers and wor'd be able to eat fast food in the arport. I'll bring a sandwich, carrot sticks. I've been working the western for floston and Cape Cod. One, day the I've sealth maps says. in front of our house between the sidewalk and the street, the previous tenants planted a patch of flowering succedent ground cover and some ice plant. For the past month, every day when I backed the car out of the garage, the weeds growing up and around the ground cover called to me, "Pull us!" Whenever I came home, I had something dee to do, unload and put away groceries,

One day the TV weather map says, "Frost Warnings." The next day the news-

paper says, 'Hi 79, Lo 63, 'I'llhave to pack every piece of clothing Jack, the girls, and I own to be ready for indian summer or killer frost. I'l also need to bring a bag of surprises to keep Rebeca occupied on the plane-coloring books, sticker books, card games, a miliature Magna Doodle. Have I done any packing! I put on my green-and-white flowered gardening gloves and carried my bucket out to the patch. Bermuda grass from the lawn had grown under the ice plant and ground cover. Long green blades pushed up between the succulent leaves and waved in the breeze. I

knelt down and started feeling my way down the blades to where the grass-had taken root. Some pulls brought up the whole blade, root and all, and cleared a little spot in the soft earth. Other times I got only the top of the weed. The root stayed put. For half an hour I worked my way toward the drivews.
