Mayor Golding voted for the now-underway Chev-ron land project to use mil-lions of tax dollars to recon-figure the Stardust Golf Course until Chevron decides it's time to rip up this course it's time to rip up this course and replace it with 2500 con-dos, offices, and hotels. Chevdos, offices, and hotels. Chevon will also be enriched by millions for the west Mission Valley trolley right-of-way through their Stardust floodplain land. Another Golding-backed, taxpaer-funded project. And guess what? Chevron land officials have "maxed out" contributions in Gold-

out* contributions in Gold-ing's mayoral campaigning. Golding ran for mayor claiming opposition to flood-plain developments. However, she has supported the west Mission Valley trolley, which is designed to serve massive future developments of the valley floodplain. She has also ature developments of the sules floodplain. She has also repeatedly ignored city and consider floodplain flood

damages as a result of in-creased flooding from the trolley.

Joubin Bral is a pledge in the Zeta Beta Tau fraternity. He's a freshman business major from Los Angeles. Describing his rush experience, he says, "I came here, and the second I came here, I just loved it and I stayed here. i went on the house tours and then I walked by one house, went into another, and then I came in here and everyone was friendlier than in all of the other ones."

Brd says he joined a fraternity for "friendship and family away from family." He explains, "It's hard to move away, so you find people that have things in common with you to help you adjust to your new lifestyle. There are the parties too, but you'd still have the parties if you didn't join the fraternity. You get the whole college experience when you come to a fraternity."

Non-Surgical Vision Correction FOR NEARSIGHTEDNESS

There is now a non-surgical treatment for long-lasting correction of nearsightedness (myopia) and astigmatism that is quick, less costly, and without risk.

This vision-correcting procedure was first utilized as a method of improving vision in the early '848 but now vision can often be restored with an accelerated program, in a matter of weeks.

Orthokeratology is designed to quickly reduce the patient's myopic condition and to improve vision with a succession of specially fitted therapeutic contact lenses which pently reshape the curvature of the cornea. Advanced techniques and new technology in specialized contact lenses

have revolutionized eye care in the field of vision restoration.

Special stabilizing contact lenses are also available to prevent or retard the gradual increase of nearsightedness.

Dr. Michael Satterlee is highly qualified in this procedure, and holds a fellowship certificate from the International Orthokeratology section of the National Eye Research Foundation, with over 25 years of orthokeratology experience. His practice is devoted to contact lenses and corrective vision care.

Sings Along With Social Distortion

When the "Blurt" reports came on the scene, I thought, "This is great." It's about time that someone is reporting the news I'm interested in. The news by, I'm interested in. The access by, for, and about use. The "Butt" is mostly bozing except for Larry Harmon. And the "Of Note" section is just trite and ridiculous. I'm not going to bag on Gina Arnold, except that she doesn't live in San Diego; she reviews her bands from the Bay Area, and she is

not part of this music scene except by proxy. I am going to say that William Crain's "Of Note" about Social Distortion (Nov-ember 14) was the most ridiculous piece of embarrassing journalism I've read in a long time. He admits right in the article that he only stayed for

ten minutes of the show. What an ideal He calls himself qualticen minutes. And then he whines about their cover of

Two

snails bumping uglies (to an operatic musical track) are self-explanatory. But what does the Sisyphean dung bee-tle want with his jumbo meatball and where is he trying to take it? And what where is he trying to take it? And what possible injury can two bellicose rhinoceros beetles hope to inflict upon one another? And what is that bustlingly amphibious spider getting up to in the underwater air bubble? There is no narrator to help out (and the average viewer will not have ac-cess to the press notes), so that the movie clearly intends to excite won-der—and horror—and mirth— rather than to impart information.
