Need Cash Before You Die?

Phil Marston

"I don't say you're the guy going to live two years," says Ted Martin. "Here's the way a breakdown would work. You take by $10,000 for six months. Never going to pay that guy up, $10,000, $10,000, $10,000 each. He's going to pay the guy on the third line, you know. A lot of these things. That doesn't mean that $10,000 a week doesn't go through the person. The person probably pays it."

The name of the game is to drive down, drive down on the interest. It's not a piece of art, it's driving down on the interest rate. You can't get the person. You can't get the person. You can't get the person.

Finally... The Truth about PCS.

The new PCS carriers in town have announced the end of cellular.
The Union-Tribune reports BIG GAPING HOLES in PCS coverage.
Who do you believe? Ma Bell and the cable company or the Union-Tribune? The truth is, digital technology is the future of wireless communications. It's just not ready yet.
Analog cellular has a 10+ year track record of unsurpassed reliability throughout the United States, Mexico, Canada and worldwide. Cellular is still the only wireless system that works in thousands of cities nationwide.
So let Ma Bell and the "pin-drop" company experiment with someone else's money while they get it together. Meanwhile, cellular is very much alive and will adopt new technologies as they become available and reliable.
As a consumer, you should let the facts below determine your wireless phone choice before you spend your hard-earned cash on a new experimental PCS phone that you will have problems getting coverage with in much of San Diego County as well as the rest of the United States.

Compare the facts...

Non-Surgical Vision Correction
UNNEARSIGHTEDNESS

There is now a non-surgical treatment for long-lasting correction of uncorrected myopia (nearsightedness) that is quick, safe, and effective. This vision correcting procedure was first utilized as a method of improving vision in the early 1980s but now vision can often be restored with an accelerated program, in a matter of weeks.

The procedure is designed to quickly reduce the patient's myopic condition and to improve vision with a success rate of over 90%. The first step is to create a customized treatment plan that is tailored to your specific needs. Special stabilizing contact lenses are also available to prevent or slow the progression of myopia.

Savage Britons Trounce Sophisticated Austrians

Shostakovich's Chamber Symphony is an embodiment of agony, hysteria, rage, sardonic mockery, and utterly hopeless despair.

The story of Chamber Music: A Tale of Three Cities begins with the 1968 premiere of Shostakovich's Fourth Symphony in a Moscow concert hall. It was a pivotal moment in the composer's career and a turning point in the history of Russian music. The symphony, with its four movements, is a dramatic and emotional journey, capturing the complex and tumultuous world of the composer's time.

Shostakovich's Chamber Symphony, Op. 14, is a unique and masterful composition that combines elements of chamber music and symphonic form. It was written in the late 1960s and reflects the composer's personal struggles and the political climate of the time. The symphony is divided into four movements, each with its own distinct character and mood.

The first movement, Allegro con brio, sets the stage for the rest of the symphony with its energetic and dynamic rhythm. The second movement, Adagio, is a slow and melancholic exploration of the human condition, reflecting the composer's own experiences and emotions. The third movement, Scherzo, is a light and playful interlude that contrasts with the somberness of the second movement. The fourth and final movement, Allegro molto, is a triumphant and affirmative conclusion to the symphony, with its powerful and resolute melody.

Throughout the symphony, Shostakovich's use of dissonance and complex harmonies creates a sense of tension and unease, while his use of melody and counterpoint provides moments of beauty and hope. The Chamber Symphony is a testament to the composer's ability to convey deep emotional and intellectual content through his music.

Music for the Eyes

Their mating dance attains maximum bump-and-grind suggestiveness with minimum removal of garments.

C H I C K E N S  F O R  B U L L S  M O V I E S

Their final scene, then, one breath-taking, long lingering prolonged scene, is the final scene of the film. The viewer, having been tantalized by the slow, sensuous dance of the central characters, is left with the image of two bodies entwined in a passionate embrace. The camera lingers on this intimate moment, emphasizing the connection between the characters. The viewer, having been seduced by the dance, is left with a sense of longing and desire.

REVIEW

On the整体, the film is a study of the complexities of human relationships and the exploration of the boundaries between the private and the public. The film raises thought-provoking questions about the nature of intimacy and the consequences of our actions. It is a film that challenges the viewer to reflect on the nature of desire and the importance of communication in building meaningful connections.

The film is skillfully directed and the performances are commendable. The interplay between the characters is convincingly portrayed, and the film successfully conveys the intensity of the human experience. Overall, it is a film that will leave a lasting impression on the audience and will be remembered as a significant contribution to the art of cinema.

I can't swallow oysters under any circumstances.

President Bill Clinton did not agree to a State Department meeting on the Middle East. In this era of international terrorism, the president's absence was noticed. The last time he attended a meeting, it was to discuss security measures in Jerusalem. The meeting focused on security measures and the atmosphere was tense.

The meeting was not as well attended as anticipated. Real security concerns related to the Middle East can be addressed by the president. The president's presence would have been welcomed.

Two of the world's most powerful nations are represented in the meeting. The United States and Israel are both involved in the talks.

The meeting was not well attended. The atmosphere was not as anticipated. Real security concerns related to the Middle East can be addressed by the president. The president's presence would have been welcomed.

The meeting was not well attended. The atmosphere was not as anticipated. Real security concerns related to the Middle East can be addressed by the president. The president's presence would have been welcomed.

The meeting was not well attended. The atmosphere was not as anticipated. Real security concerns related to the Middle East can be addressed by the president. The president's presence would have been welcomed.

The meeting was not well attended. The atmosphere was not as anticipated. Real security concerns related to the Middle East can be addressed by the president. The president's presence would have been welcomed.
INTERIOR of the Fisher Opera House, located on 6th Street, circa 1909. The theater, unique for its Renaissance editor and lavish productions, was hailed by locals as the finest theater west of Chicago.

On May 17, 1907, a young, black businessman named Edward W. Anderson, owner of the J.L. Fish Co. on 7th Street, had his orchestra removed, as a production of "Around the World in Eighty Days" was performed. The orchestra, led by John C. Fisher, became involved, citing his convictions that black people were allowed on the street and instead offering them a choice of a bowling alley or a restaurant. Anderson opted to sue Fisher, as an interference in the civil rights law against public houses from operating with blacks.

Anderson initially was awarded a $300 settlement in the court. The case was dismissed in superior court, however, because of insufficient damage done to the plaintiffs, and was dismissed again in an appeal to the state supreme court — in which Fisher argued that his theater was not a public house but rather a "public enterprise" and not subject to the new civil rights law.
