Finally... The Truth

The new PCS carriers in fown have announced the end of cellular. The Union-Tribune reports BRG GAPING HOLES in PCS coverage.

Who do you believe? Ma Bell and the cable company or the Union-Tribune? The truth is, digital technology is the future of wireless communications. It's just not ready yet. Analog cellular has a 10+ year track record of unsurpassed reliability throughout the United States, Mexico, Canada and worldwide. Cellular is still the only wireless system that works in thousands of cities nationwide.

So let Ma Bell and the "pin-drop" company experiment with someone else's money while they get it together. Meanwhile, cellular is very much alive and will adopt new technologies as they become available and reliable.

As a consumer, you should let the facts below determine your wireless phone choice before you spend your hard-earned cash on a new experimental PCS phone that you will have problems getting coverage with in much of San Diego County as well as the rest of the United States.

Common the factor

	Phone Price	Phone Choice	Contract Required	Better Price with Contract	Price per Minute	Off-peak Discounts	Reliable Network	Free Incoming Calls	Safe Hands- free Options
PCS	\$150 to \$200	1	No	No	as low as 35¢ peak	No	No	Yes	No
Cellular	Free in many cases, ungrades available	100	No	Yes	as low as 20¢ peak	Yes	Yes	Yes	Yes

Plus Wireless is GTE Mobilnets award-winning authorized agent. Not the biggest, just the best. We built our reputation on telling the truth. We have never insulted our customers with silly givenaways read, we offer the latest state-of-the-art cellular equipment at a fair price. We will meet or beat any ally advertised price. So if it's great wireless communications and current information you are looking

THE TRUTH ABOUT HAIR TRANSPL

Ever notice a bad hair transplant? You know what I'm talking about ... even rows of follicles that look like a corn field. Now, have you ever seen a good hair transplant? You probably have, but didn't realize it.

The point is, the overall impression most people have of hair transplants is a negative one. The bad ones are noticed, and the natural looking ones are undetected. It's the difference between an "art" and an "assembly line."

It's about time someone told you the absolute, unvarnished truth about hair transplants. False beliefs and lack of good information have prevented many men (and women) from restoring their youthful appearance. In total, they have created bad hair days for ... talented surgeons and people who need transplants alike

DOES EVERYONE QUALIFY FOR A TRANSPLANT?

Simply put, no! Only an experienced surgeon can tell you. Surprisingly, even in the advanced stages of balding, there may be enough hair to successfully transplant the frontal forelock

It is important to understand that if the final result will not look natural and will not create result will not look natural and will not create the desired effect, you should be told so. Unfortunately, there are some hair transplant "mills" that are designed to do high volume work and will not advise patients up front. This is a medical procedure, though it is "elective." As such, the physician should be obligated to the first rule of medicine: "Above all, do no hown."

WE USE YOUR OWN HAIR...

When we use the term "natural hair trans plants," it means using your own hair. The hair that we transplant always comes from the back of a patient's own head. It is meticu-lously removed so that there are no telltale voids within these donor areas.

But, prior to performing any transplant, a thorough plan must be created. This is the artistic part of our process. It's the difference between how we work as compared to a "Hair Transplant Mill" that is in business for high volume. For us, every patient is a separate work of art.

noticeable appearance of a transplant. We first concentrate on the general hair pattern that would be most appropriate to the individual's head and age. The concept is to create a head of natural hair as if the individual had never experienced balding. For this reason we ask to see pictures of the patient when they were younger. We carefully plan every transplant session prior to commencine the procedure. The idea behind the "art" of our transplants is to avoid any prior to commencing the procedure.

> The final step is to feather the edges, often transplanting one follicle at a time. It's a tedious process, one that requires intense concentration by the surge

HIGH PRESSURE SALES VS. MEDICINE

Anist transplant is a personal matter requiring a one-to-one relationship with the physician. In our opinion, seminars or high-powered salespeople are not appropriate. Unfortunately, high-volume hair transplant companies have had to resort to promoting through seminars and other devices. We are a proponent of preserving traditional medical standards.

Hair transplants are permanent surgery...and for that reason you should consult directly with the surgeon or a full-time surgical technician. Your decision must be an informed one that <u>isn't</u> made based on

Such unfounded fears and presumptions include the false belief that transplants are painful. The fact is they are as permissible partition the tack is they are as permissible as getting your teeth cleaned. Talk to a qualified physician such as Dr. Reed and you will get the real facts...and be delighted by what you find out. That's why we've saved one of the

TRANSPLANTED HAIR GROWS

That's right, it really grows...and requires combing and styling. It's a real head of hair, that will change everyone's outlook, especially your own. Ride in an open convertible, surf, jog, and even play sports. That's what hair transplants should be all about. They are the fountain of youth for your head and

"You say Q's punching Alan, but you don't tell me why this shir only goes down when I'm not here. Why do you think that could be, Professor"

If I crossed J.B., he might belittle me, encourage the boys to laugh and jeer. "Here's why."

I said. "I don't have any authority. Nobody does except you. All I can do is chase somebody out of the classroom. A dozen times you've told me, anybody gets out of line, report him to me. So I do like you asy, and what happens! Nothing, except the byc comes back graining at me. I mean, if somebody crosses you, you fine him or send him to juvenile hall, but when did you ever back me up.

J.B. Scied his arms. Smiling mensacingly, he let his gaze never the room. "What the professor's stelling me is he thinks you show me respect only because I'm the one who can send you back to the hall. How about it, is that so?" Most of them shouted, "Hell nof" or "No way!" or shook thar heads.

Are taryours another to know how much the Republican pep ally cost us! I call it as pep rally since it certainly wasn't a convention since no decisions were made there. I have been asking city hall and the seen any figure. I wonder whether taxyayers should fund a Republican pep rally at all. One of the most lucrative operations for developers is our housing commission. This, too, is something the Union doesn't core, but Med Shaping.

and Hans Jovishoff have been monitoring it for 20 years. The problem is the information they gather never sees the light of day since nobody seems willing to tackle this gravy train.

willing to tackle this gray train.

For your reader's information, there is now a watchdog organization to monitor local candidates and try to insure that only those who are not in bed with the developers or football team will be recommended. The name is Citizen by calling me at 697-3111.

As for the county, we still don't know how much we are spending on the il-conscribed care. Perhaps bistst Potter can tell us how much the Republican bash and the San Marcos scam are costing us. stately mansion in the sketchbook dis-solves to a night-time shot of the place itself, and, as a bit of music at last (but with discretion) joins the action, a ca-per gets underway. Eastwood, penlight between his teeth to free up his hands, disarms the security system. He makes

off the master bedroom, behind the two-way mirror. He bags several shelves worth of jewels, a drawerful of cash. But he is interrupted by voices, and seals himself off behind the mir-ror, from where he can see everything. Two interriated lovers stumble in.

"He better not think these chocolates can replace taking me to Anthony's."

Candy is dandy. But to really score brownie points on Valentine's Day, take your dreamboat to Anthony's. We vow to create a memorable lunch or dinner. With the freshest seafood, lovingly red and served with care. Call for details.

ductions, was hailed by locals as the finest theater weet of Chicago.

On May 17, 1897, a young, black businessman named Edward W. Anderson, owner of this LXL. Laundy on 7th Steech, lad his orchestrafloor takens for a production of Around the World in Egipty Days invalidated, the doorkeeper allowing him and his wife admission to the fover only. The theater's builder and owner, John C. Fisher, Bearnes involved, citing his carolicition that black paople not be allowed on the floor and

sense a strering them a choice of sear bulcomy sents or a refund. Anderson opted to sur Visiber, his case bolatesed by a fleeding state civil rights law against public houses from operating with radial biases.

Anderson initially was awarded a cash settlement in the court. The case was dismissed in superior court, however, because of insufficient damage done to the plaintiffs, and was thwarted again in an appeal to the state supreme court — in which Fidher argued that his theater was not a public house but rather a "private enterprise," and not subject to the new civil rights law.
