Moe Greenberg Can Still Make Me Cry

On Yom Kippur, the Day of Atonement, Moe Greenberg puts on his suit jacket without a word and drives to temple for the second time, this time alone. During the morning service, my father felt entitled—between call and response, a lackluster sermon, the unseemly organ music of our Reform congregation—to sneak outside the sanctuary.
Mario's Story
By Alex Oppen

Mexican Hit Man Laughs, Forgives Before Execution, headlines read the morning after the State of Virginia executed 26-year-old Mario Rios Martinez.

It was a good day for him. He was not surprised as he lay in bed. He was sitting in a prison cell at Greensville Correctional Center, near Danville. Before dawn, he was taken to a room filled with cameras. He was strapped to a table and injected with a lethal mixture of drugs.

He told the reporter that he was happy, even though he was afraid of the needle. He was in love with his wife, Nieves, and he was happy to be with her. They had two children together.

He said he didn't regret anything he had done. He had made some bad choices, but he had learned from them. He was sorry for what he had done, but he was ready to move on.

He was relationships with his mother, father, and siblings. He was close with his father, who was a farmer in Mexico.

He said he was happy to be alive, even though he was going to die. He was happy to be with his family, even though he was going to be alone.

He was a good man, he said, and he was happy to be with his family. He was happy to be with his wife, Nieves, and he was ready to move on.

Give Me Back My Baggie
By Bill Manns

Legalize it, legalize it, being in America should be about being free! Legalize it, it's a basic right for you and me.

The story of Norman "Sugar Bottom" Talley, who got a baggie of coke by buying a red paper bag, shows how ridiculous it is to keep people in prison just because they're caught with a little bit of coke.

On December 24, 1994, Talley was in jail for a minor drug offense. He was arrested after he was found with a little bag of coke in his pocket. He was sentenced to a year in jail and fined $500.

He was innocent, he said, and he was happy to be free. He was happy to be with his family, even though he was going to be alone.

He was relationships with his mother, father, and siblings. He was close with his father, who was a farmer in Mexico.

He said he was happy to be alive, even though he was going to die. He was happy to be with his family, even though he was going to be alone.

He was a good man, he said, and he was happy to be with his family. He was happy to be with his wife, Nieves, and he was ready to move on.

Switchblades at a Dance

You rarely see a cast as energetic or a stage as alive.

San Diego Opera opens its 1997-98 season with a concert version of Giacomo Puccini's beloved opera "La Bohème." The production features a cast of dynamic singers, including soprano Maria Callas as Mimi, tenor Giacomo Puccini as Rodolfo, and baritone Wallis Budge as Marcello.

"La Bohème" is a story of love, friendship, and the passion of youth. The opera follows the lives of a group of young artists in Paris, including Marcello, Rodolfo, and Mimi. As the story unfolds, the characters struggle with love, loss, and the harsh realities of life in the city.

The production is directed by San Diego Opera's Artistic Director Michael Stolar, with musical direction by San Diego Opera's Music Director Alain Lombard. The set design is by San Diego Opera's Designer of the Year, David C. Knight, and the costumes are by San Diego Opera's Costume Designer, Marsha Katz.

"La Bohème" is presented at San Diego Opera's Copley Symphony Hall on October 24, 25, and 26. Tickets are available through the San Diego Opera Box Office, online at www.sandiegoopera.org, or by phone at 619-234-0405.

Love at First Bang

There seems to be a connection between rhythms I feel while swimming and the rhythms I create while drumming.

As a child, I was often called an "odd one out" in my family, as I was interested in music and drumming while my family members were not. My mother had no understanding of my passion for playing the drums, and I often felt alone in my pursuit. However, I found solace in my drumming and writing my own rhythms, which allowed me to express my emotions and creativity.

Drumming became a form of therapy for me, and I found that it helped me cope with the pressures of life. It allowed me to escape from the daily routines and responsibilities, and to immerse myself in the world of music and rhythm. Through drumming, I discovered my true passion and realized that I wanted to make music my career.

I started playing in different bands and eventually formed my own group, where I could express my creativity and explore my musical abilities. I have been fortunate to have met other musicians who share my passion and have contributed to my growth as a drummer.

Drumming is not just about playing the drums; it's about connecting with the music and the rhythm. It's about feeling the beat and letting it guide you. It's about letting your emotions flow through the music, and letting the rhythm take you on a journey.

Drumming has been a source of inspiration and a way for me to express myself. It has brought me joy and fulfillment, and has helped me find my place in the world. I am grateful for the opportunity to pursue my passion and to share my love for music with others.
My wife is a pragmatist who prefers to sing the praises of the portable harmonica.

This is our logo. Look for it if it's real.
Big Baby

The heavy overlay of stone-work does not transform the material, does not revitalize it, does not postmodernize it.

With all due respect to "Big Baby," the movie is a well-meaning attempt to be more than it is. Producer, Steven Spielberg, with his "80s" cap does his best to deconstruct the mythology of a sacred space. However, the results are a bit too predictable.

There had to be a road to get that homesteader to look over Palomar Mountain. Looking ahead in pioneer prospectors, a 1900 road crew takes a photo break.

A real Palomar Mountain pioneer story is Nathan Harrison's, a slave from Kentucky. According to explorer documents, "Nigger Nate" was one of the first people to settle on the peak then called Smith Mountain in the 1850s. After the road up Palomar Mountain was built, Harrison gave spring water to travelers, told stories, and "...he waited there for a handout at well. Sometimes it was food and sometimes tobacco and sometimes both," Harrison died in 1920 at 101 years of age.

(From the San Diego Historical Society, Photograph Collection)
Jeepers, Flo and Joe! Even perfect people have problems. Like which dress to wear on my date tonight, for instance.
Slaughterhouse Mishap

By Anne Albright

Kid Stuff

Lucy was a little girl with big dreams. Her favorite place to be was the kitchen, where she would often pretend to make meals for her family. One day, while Lucy was preparing a special lunch for her parents, she accidentally dropped a bowl of hot water on her right shoulder. The pain was excruciating, and she cried out for help. Her mother rushed to her aid, and they both called for the doctor. The doctor examined Lucy's shoulder and recommended ice packs and over-the-counter pain medication.

A long, deep, jagged wound zigzagged down the middle of Lucy's tongue.

Lucy's parents were concerned about her injury and decided to take her to the hospital. The hospital staff cleaned the wound and administered antibiotics to prevent infection. Lucy's tongue was stitched back together, and she was given pain medication to manage the discomfort.

Lucy is now recovering at home, with her family by her side. Her parents have also promised to be more careful around hot objects in the future. Lucy is looking forward to going back to school and showing her friends her new scar.
