No Clock in the Forest
An early weekday morning in Coronado. A pair of schoolboys about 11 years old are slowly skateboarding down the sidewalk, making that clattery train track noise: click, click, click, click as they cross each crack in the cement. One of them has a pack of Marlboros in his hand, neither carries a book. We’ve been walking parallel to them.
Lady Sings the Blue
By John Beagley
For 38 years you knew where to look for Henrich Boll, Celine, Jack Kerouac, Jane and Paul Bowles, William Burroughs, and America's Saint Saver. Now, for the first time, you can find them in one place. The City Lights Book Shop and Cafe. It's a new direction for the famous bookstore, and it's a direction that will take you on a journey.

The City Lights Book Shop and Cafe is located in the heart of San Francisco, on the corner of Grant and Sacramento. It's a small, cozy space that's perfect for a quiet cup of coffee and a great book.

The shop is filled with a wide variety of books, from classic literature to contemporary fiction. You can find everything from Hemingway and Salinger to Proust and Woolf. The cafe offers a selection of specialty coffees and teas, as well as a menu of light snacks and pastries.

But the real star of the show is the atmosphere. The City Lights Book Shop and Cafe is a place where you can sit down, relax, and lose yourself in a good book. Whether you're a seasoned reader or a casual browser, you'll find something to love here.

And for the true aficionados of literature, the City Lights Book Shop and Cafe also offers a selection of rare and out-of-print books. You can find first editions, limited editions, and rare collector's items. It's a treasure trove for anyone who loves books.

So why not drop in and see for yourself what makes the City Lights Book Shop and Cafe so special. Whether you're a fan of Hemingway or Hemmings, you're sure to find something to love at City Lights.

**SHEEP AND GOATS**
Places of Worship Renewed

Last Sunday saw "Easter" (Easter) celebrated in many churches worldwide. While springtime and Easter are associated with new life and growth, the religious significance of Easter is often overshadowed by the many secular elements that have come to be associated with it. In many cultures, Easter is marked by the celebration of new life and the renewal of hope. This is reflected in the decorations and traditions that are observed during this time, including the use of eggs, which symbolize new beginnings.

Easter is a significant event in many religious traditions, particularly in Christianity, where it marks the resurrection of Jesus Christ. The story of the resurrection is central to the Christian faith, and Easter is celebrated as a time of renewal and hope. In addition to religious significance, Easter is also celebrated in many cultures as a time of family gatherings and special feasts, with traditions that vary depending on the location.

Overall, Easter is a time of reflection, renewal, and celebration, offering a reminder of the power of new beginnings and the hope they bring.

A character is not a simulation of a living being; it is an imaginary being. An experimental self. — Linda
If for a time you weren’t a louse, there were other ways to belong to life. — Gino Bernard

When I started my novel, I was unhappy. I could hardly make myself flush the toilet. I talked myself through the simplest acts. “Now, let’s take out the trash.” “Now, let’s water the ficus. Let’s feed the ficus.” “Let’s bring in the mail.” I did, eventually, always water the ficus. I did bring in the mail. I couldn’t, though, make myself open it. I didn’t fear what was in the envelopes and packages. I had no interest in their contents. Nothing that came via post could make a difference.

Why I was so unhappy I don’t know that I want to say. Will you, or anyone, profit by my writing here? I was unhappy

I had begun to despise his insistent cheerfulness, his questions about my writing, my garden, my children, my grandchild, my dog.

because, “I do not know, or I do not yet know. Perhaps when I started my novel I was feeling my birthdays, my age, my disappointment with myself. I’ve made mistakes. I’ve done things wrong.

Standing as we do in hermetic pleas or, we think it impossible that the we can’t undo what’s done. Europeans know better. Europeans know you can change things for which no forgiveness, no forgetting is possible. The French, the Germans, the Dutch and Swans, the Italians and Sicilians and Greeks know you can ruin your life. We believe there’s no way we can’t make mistakes. We can fix anything, make anything right. We believe that there’s a way to make a way. We believe in boots. We believe so deeply in boots that we’ve fashioned them a transition verb: to bootleg is to promote and develop by use of one’s own initiative and work without reliance...

No Clock in the Forest

STORY CONTINUED FROM PAGE 1

"Sure, man. They call me "Old Clock.""

"What time is it?"

"Quarter to eight."

"Don't forget, son."

"I know, I know."

He shuffled back through the leaves and swallowed hard before looking up.

Fog was rolling in from the sea, obscuring the eastern horizon. He could barely see the house now, just a shadow in the mist.

He turned to go back into the woods, but then saw something shiny through the foliage.

It was a pocket watch, gleaming in the dim light. He had seen it before, but never this close. He picked it up, examined it closely.

It was a rare piece, with an ornate design and a delicate clockwork. He knew the value of such things, but he couldn't bear to sell it. It was too much a part of him.

He put it in his pocket, feeling its weight and knowing that it would be there to remind him of the forest and the stories he had heard.

He turned to go back into the woods, but then remembered something else.

He took out his own watch, a simple one he had found in the forest, and set it to the same time as the pocket watch. He was going to keep it, as a reminder of the past and the stories he had told and heard.

-and story continued on page 2-

-John Smith, chief technician, handcrafted wooden watches, one of the few remaining watchmakers in the country.

The watchmaker turned to go back into the woods, but then saw something shiny through the foliage.

It was a pocket watch, gleaming in the dim light. He had seen it before, but never this close. He picked it up, examined it closely.

He turned to go back into the woods, but then remembered something else.

He took out his own watch, a simple one he had found in the forest, and set it to the same time as the pocket watch. He was going to keep it, as a reminder of the past and the stories he had told and heard.

What happened next is a mystery, a testament to the power of legend and the stories we tell.

Angelica Confusion

"I am now uttering a profundity."

In the English language, the word "profound" is often used to describe something that is deep, meaningful, or significant. However, in this case, it seems to be used in a more humorous or ironic way. Perhaps the character is trying to sound more sophisticated or artistic by using the word in a way that is not typical or expected. It's possible that the character is attempting to express a complex idea or feeling, but the way they are saying it makes it seem like they are making a joke or being playfully silly. Overall, the use of "profound" in this context adds a touch of humor and lightness to the scene.

Takamori, also known as the "piano," was an innovator who combined both traditional and Western elements. His music was influential in the development of modern Japanese music.
Did you ever have SETS while you eat?

It's great isn't it? Everyone should give it a try. We definitely feel it's the novelty that makes everything taste a whole lot better. (Except for maybe the brussels sprouts.)

Okay, it's time to lay it all out on the table. We've SETS 102.9FM. (If you've had SETS before, forget the ‘7.) And we're the rock music station San Diego's rock radio people listen to. The people who know pure rock and roll music programming when they hear it.

Real rock music, Baby. It's why everything goes a whole lot better with SETS.

Kid Stuff

The Dye family was lacking a new seat for their kids in the rear of their minivan. One day, they decided to turn the backseat into a bed for their children. They used a piece of foam to cover the seat, added a pillow, and voila! Perfect bed for road trips. The kids loved it and the parents were happy. It was a great solution for long family trips. The family now has a bed in their minivan for their kids to sleep comfortably. It was a fun and practical solution to a family problem. The Dye family was thrilled with their new bed for the backseat.
