The DEREK,
Suppose you were an only child for the first 57 years of your life.
FRIEDA, and ABBE
Then suppose you received a letter intimating you had a half brother.
CHRONICLES
How would you feel — other than astonished, curious, and skeptical?

STORY CONTINUED ON PAGE 22
On Wednesday, Nov. 25, 1970, the city of San Diego was under a cloud of black smoke from a fire that had broken out at the San Diego Gas & Electric Co. power plant in Point Loma. The fire consumed several buildings and forced the evacuation of thousands of people from nearby homes and businesses. It took firefighters several hours to bring the blaze under control, and the damage was estimated at $5 million. The cause of the fire remains unknown to this day.

A Different Kind of Morning Sickness

Victoria, a girl I know in college who used to love to read books, has been in a deep depression for a few months. The depression started with a breakup with her boyfriend, whom she had been dating for two years. She was devastated by the breakup, and her grades dropped significantly. She also stopped going to her classes and started skipping school. Her friends were concerned about her, but she didn't seem to want to talk about it.

But then, one day, she showed up to class looking much better. She told her friends that something had changed in her life. She had started eating better and exercising more. She was feeling more energetic and had more energy to focus on her studies.

When she walked into class, she looked different. She had a new confidence and a more positive outlook. She seemed to have found a new passion in life. She told her friends that she had discovered a new interest in photography and had started taking pictures every day. She showed her friends some of the pictures she had taken and they were impressed.

Victoria explained that the breakup had been a turning point in her life. She realized that she had been focusing too much on her relationship and not enough on herself. She decided to make a change and start taking care of herself. She started eating healthier and exercising more. She also started taking classes in photography and was amazed at how much she enjoyed it.

Victoria's friends were happy to see that she was back to her old self. They were proud of her for making such a positive change in her life. They encouraged her to keep-up her new habits and to continue pursuing her new passion.

Victoria's experience is a reminder that sometimes, the worst things that happen to us can be the best things. They can be the catalyst for change and growth. Victoria's depression was a wake-up call for her to take control of her life and make changes that would benefit her in the long run.

It's important to remember that sometimes, the things that seem to be the most difficult in our lives can be the most transformative. They can lead us to new paths and new opportunities. Victoria's story is a testament to that.
Would you feel excited and overjoyed to have a sibling? Or would you feel uneasy and vexed with this sudden invasion of your otherwise stable life? Would you feel relieved and blessed that you hadn’t had to share the advantages of your childhood with a sibling? Or would you feel griefed and resentful that you’d had to weather the burdens of adulthood alone? Would you feel anger or humiliation by your phi-landerer father? Would you feel protective or unsympathetic toward your cuckolded mother? Or, like me, would you feel absolutely nothing?

The DEREK, FRIEDA, and ABBEY CHRONICLES

I did feel nothing when the letter arrived. What could it be for a sibling when I’m not even married? I could have sworn that I was the only one who had a sibling. But then, I’d failed to note the fact that my father was a divorcee. 

Derek

My father, having married for the third time, had moved to Chicago, as was his wont, and most of his previous wives were still there. My mother had moved back to her parents in New York, and my father was living with one of his former wives. 

Frieda

I had no idea what to expect from this letter, but I decided to open it. To my surprise, it was a note from my father, inviting me to visit him in Chicago. 

Abby

The letter was short and to the point. He had heard about the birth of my first child and wanted to express his congratulations. He also mentioned that he had a new job in Chicago and was looking for someone to share his apartment. 

Monday, July 8, 1996

I accepted the invitation and made plans to visit my father in Chicago. I was looking forward to spending some time with him and catching up on old times.

Tuesday, July 9

The letter arrived in my mailbox late that night. The letter was short and to the point. He had heard about the birth of my first child and wanted to express his congratulations. He also mentioned that he had a new job in Chicago and was looking for someone to share his apartment. 

Derek didn’t know that Louis and I had been separated for 14 years. When Derek called Louis’s office and asked for me, he was told by a secretary that I didn’t work at the firm.

Get the power with protein!

10 pounds per week!

It sounds too good to be true: losing weight within a short time period and keeping it off forever. A turbo diet developed and tested by a German medical doctor is now available in the US.

From Europe comes this revolutionary new diet based on the body's own metabolic process that can put a stop to the "yo-yo" effect. The Turbo-Protein Diet can safely bring about significant weight loss in only a few weeks and can actually retain the body so there is no tendency for the weight to bounce back. Clinical studies have proven that The Turbo-Protein Diet is simple and works. Thyroid gland and metabolism are stimulated so that the weight once lost will never grow back.

The author, Dieter Markert, is an anesthetist in private practice in Germany. He also works as a pain therapist and with natural and holistic therapy. Part of his daily life is to treat diet-damaged patients which encouraged Dr. Markert to develop a diet which switches the bodily functions from "fat" to "slim" with the help of a diet plan and natural amino acids. At the same time, the body receives protection from free radicals.

The Turbo-Protein Diet shows how to achieve a healthy weight reduction with the help of this diet. It is a pure juice and liquid fast cure supplemented with a simple exercise program. A weight loss of about 6 to 10 pounds a week is achievable. When the program is finished, metabolism and thyroid gland have relearned and the last weight is kept off for good. Dr. Markert's patients are successful at losing weight and increasing their metabolic rate.

If you would like to know more about how this diet works for you and how to do it, check out "The Turbo-Protein Diet" by Dr. Dieter Markert in a bookstore near you or by calling this toll-free number:

Roam-O-Rama

A Guide to Unexpected San Diego • By Jerry Schad

Big spring is a month of late showers and sudden storms. The wind will be steady, but not too strong, and the rain will be brief. The sky will be overcast, but not too dark, and the air will be cool, but not too cold. The temperature will be mild, but not too warm, and the sun will be shining, but not too bright.

The coastline will be wide, but not too far, and the waves will be high, but not too rough. The sand will be soft, but not too soft, and the ocean will be cool, but not too cold. The sealions will be basking, but not too far, and the pelicans will be flying, but not too high.

San Diego has a lot to offer in the spring. The weather is mild, the scenery is beautiful, and the activities are endless.

A Life in Music
Mahler was not yet ready to let resignation be the final word.

The concept of the Pittsburgh Symphony Orchestra under the direction of the late Chamberlain Dewey was a key element in the orchestra's artistic and financial success in the 1960s. The orchestra, under the direction of Dewey, was known for its innovative programming and adventurous approach to music-making. Dewey's tenure was marked by a significant expansion of the orchestra's repertoire, including the commissioning of new works and the presentation of lesser-known compositions.

However, by the late 1960s, Dewey's vision for the orchestra began to evolve. He became interested in bringing new audiences to the symphony, and he started to incorporate more contemporary music into the orchestra's repertoire. This shift in programming was met with mixed reactions, as some members of the orchestra and the community were concerned that the orchestra was losing its classical roots.

Despite these challenges, Dewey continued to lead the orchestra with determination and passion. He believed that by embracing new music, the orchestra could reach a wider audience and foster a new generation of music lovers. Dewey's leadership was characterized by his dedication to the orchestra's artistic mission and his commitment to exploring new musical territories.

Unfortunately, Dewey's untimely death in 1969 cut short his tenure with the orchestra. However, his work laid the foundation for the orchestra's future development, and his legacy continues to inspire the Pittsburgh Symphony Orchestra to this day.
Did You Get It, You Ninny?

The young Picasso wants to leave the world "littered with beauty."

In 1904, the 23-year-old Pablo Picasso re-defined how we see the world. His "Picasso's Azul" work, a collection of his blue paintings from 1901-1904, was exhibited in Paris, and the reaction was one of amazement. The beauty of the paintings, the use of blue, and the depth of emotion they conveyed were astounding. Picasso's work was like nothing the world had seen before.

Since Picasso's "Azul" work, he has continued to push the boundaries of art. His "Picasso's Rosso" work, painted in 1906-1907, is a stark contrast to the blue of his earlier work. The use of red and the emotional intensity of the paintings are a testament to Picasso's talent.

But Picasso's influence extends beyond his own work. His ideas have inspired generations of artists. His use of color, his exploration of form, and his willingness to break with tradition have all contributed to the development of modern art.

Then there's Picasso's "Azul" work, "La Vie," which he painted in 1906. It's a tribute to his friend, the poet and writer, Robert Louis Stevenson. Stevenson had written a poem about a man named "La Vie," and Picasso was inspired to create a work that would capture the essence of Stevenson's poem.

The young Picasso wanted to leave his mark on the world, and he succeeded. His work continues to inspire and influence artists today. Picasso is a true icon of modern art, and his legacy will live on for generations to come.

ALL THE WORLD'S A STAGE... WE JUST HAVE BETTER ACTORS.
Farewell, O Fair and Braindead City

"Unbelievably, music was a career goal — what the hell was I smoking?"

"The main reason I left San Diego was because I needed to get out of the Bay Area," said Linda, former singer and songwriter of the band Linda and the Fables, who recently moved to Boulder, Colorado. "But music is my passion and I couldn't resist the opportunity to pursue it in New York."

Linda, who is originally from San Diego, had been playing guitar and singing in various bands for over a decade. She moved to New York City in 2012, where she joined the music scene and quickly made a name for herself. Linda has since released several albums and performed at numerous venues.

"I was in a Christmas new wave band that did covers of my favorite bands. But I started to feel like I couldn't control the direction of the music," said Linda. "So I decided to leave and start my own band. I knew it was a risk, but I felt like I had to take it."

Linda's new band, Linda and the Fables, is set to release their debut album later this year. The group consists of Linda on guitar and vocals, her husband Tom on drums, and a rotating cast of bassists and keyboardists.

Linda's move to New York City has been both exciting and challenging. "It's a completely different scene here," said Linda. "But I love the energy and the opportunity to work with new people."
Music From Planet Zircon
This garbage is stenciled on the backs of our skulls, marking a whole generation.

T
The music that trickles from hell—shameful renditions of all those shiny songs we used to love, and then some—comes to us through a program broadcast by the station WTHU. And we're even more ashamed because we couldn't care less about the music. We listen to it only for the sake of our friends, and we're embarrassed when they bring it up.

"Radical Resonance" (Fuck) was a little surprise by James Brown. It was recorded in the sixties, but still sounds fresh and relevant. The whole album is a mix of funk and soul, with a touch of jazz and R&B. It's a great example of how music can evolve over time while still maintaining its original essence.

"The Time Has Come" (Please) is another highlight. It features a strong, driving beat with horn sections and a distinct blues influence. The lyrics are powerful and thought-provoking, discussing themes of struggle and perseverance.

"Love Is On The Horizon" (Love) is a soothing ballad with a heartfelt message about love and unity. It's a perfect example of how music can bring people together.

"In the Land of Zion" (Zion) is a New Testament-inspired song with a mix of gospel and soul. The message is clear and direct, calling on listeners to remember their roots and stay true to their beliefs.

"Music From Planet Zircon" (Garbage) is a conceptual album that explores themes of polarization and the difficulties of communication in our society. The music ranges from upbeat and energizing to slow and introspective, reflecting the complexity of the issues it addresses.

The album is a powerful reminder of the importance of open dialogue and empathy in our world. It challenges us to confront our differences and find common ground, even in the face of adversity.

In conclusion, "Music From Planet Zircon" is a must-listen for anyone interested in a deep dive into the complexities of our society. It's a testament to the power of music to inspire and challenge us, urging us to reflect on our own beliefs and actions.
Did you ever have SETS in the bathroom?

Listen. Don’t worry about it. It’s okay. Plenty of people do. It’s natural, really. Especially if you’re a rock music lover. We’re SETS (200%) here in San Diego. And we play the kind of rock music that makes San Diego want to have SETS. Anytime. Anywhere.

So listen. The next time you get the urge for real rock music variety. Don’t hold it in. Hear us out.

You’ll feel a whole lot better after having SETS with classic artists like Clapton and the Stones. Contemporary artists like Sarah McLachlan and the Dave Matthews Band. Plus fresh tracks, concert cuts and deeper album tracks. We even mix in the best of blues, reggae, acoustic and local music.

Real rock music variety. You’ll love it with SETS wherever you decide to go.

It manages to be modishly "dark" without a pileup of corpses.

In the end, a film of the moment is a film that holds up. It is a film that stands the test of time, and it is a film that offers something more than just a passing fad. The film that I am referring to is "Excuse the Delay," a film that has been making the rounds in the art house circuit for several weeks now. The film has been described as a dark comedy, a drama, and a thriller, but it is really a film that is best described as a film of the moment.

The film is about a group of friends who are trying to find a way to escape from a particularly dreary part of their lives. They are tired of the same old routine, the same old jobs, and the same old people. They are tired of being stuck in the same old place, feeling stuck in the same old situation. They are tired of feeling like they are stuck in the same old rut.

The film is about finding a way out, about breaking free from the monotony of everyday life. It is about finding a way to make the most of the time that we have, to make the most of the experiences that we have, and to make the most of the people that we have in our lives.

The film is about finding a way to be happy, to be free, to be ourselves. It is about finding a way to live life to the fullest, to make the most of every moment, and to be grateful for all that we have.

The film is about finding a way to be human, to be a human being, to be a person. It is about finding a way to be true to ourselves, to be authentic, and to be real.

The film is about finding a way to be a part of something bigger than ourselves. It is about finding a way to be a part of something that is bigger than the individual, something that is bigger than the group, something that is bigger than the world.

The film is about finding a way to be a part of something that is greater than what we can see, greater than what we can touch, greater than what we can hear, greater than what we can feel.

The film is about finding a way to be a part of something that is more than just life, more than just death, more than just existence, more than just non-existence.

The film is about finding a way to be a part of something that is more than just us, more than just our individual selves, more than just our individual experiences, more than just our individual thoughts.

The film is about finding a way to be a part of something that is more than just the here and now, more than just the past and the future, more than just the present moment.

The film is about finding a way to be a part of something that is more than just the physical, more than just the material, more than just the sensory.

The film is about finding a way to be a part of something that is more than just the superficial, more than just the superficial, more than just the shallow.

The film is about finding a way to be a part of something that is more than just the apparent, more than just the apparent, more than just the superficial.

The film is about finding a way to be a part of something that is more than just the mundane, more than just the mundane, more than just the ordinary.

The film is about finding a way to be a part of something that is more than just the ordinary, more than just the ordinary, more than just the mundane.

The film is about finding a way to be a part of something that is more than just the individual, more than just the individual, more than just the individual.

The film is about finding a way to be a part of something that is more than just the individual, more than just the individual, more than just the individual.
